- **Wiper:** Separate tool with microfiber cloth for initial cleaning.
- **Microfiber Cloths (2x):** For the wiper tool.
- **Charging Device:** Power adapter for recharging the unit.

3. SETUP AND CHARGING

3.1 Initial Charge

Before first use, fully charge the device. Connect the charging device to the charging socket on the unit. The indicator light will show the charging status. A full charge provides approximately 40 minutes of continuous operation.

Connect the charging device to the unit's charging socket.

3.2 Filling the Clean Water Tank

The unit has a 70ml clean water tank. Open the stopper on the filling hole. Pour some water and a suitable low-foaming detergent into the tank. Ensure the load capacity is within 70ml. Close the stopper securely.

4. OPERATING INSTRUCTIONS

The Kiato Window Vacuum Squeegee offers a 3-in-1 cleaning process: Spray, Wipe, and Vacuum.

Three uses: spray, vacuum, and clean

3 in 1 window vacuum cleaner simplifies your life.

The 3-in-1 functionality: spray, wipe, and vacuum for efficient cleaning.

Visual guide for the cleaning process.

1. Step 1: Prepare the Surface

Pour some water and suitable detergent into the spray tank (load capacity within 70ml).

2. Step 2: Wipe to Loosen Dirt

Wet the microfiber cloth, wring it out, and attach it to the cloth holder. Use the wiper tool to loosen dirt and stains on the window. Ensure the surface remains wet. If the microfiber pad absorbs most of the fluid, spray water or detergent again.

3. Step 3: Spray Cleaning Solution

Press the spray button on the main unit to apply cleaning solution directly onto the surface.

4. Step 4: Vacuum Dirty Water

Turn on the vacuum unit using the on-off switch. Place the squeegee diagonally on the surface and gently slide it downwards, allowing the vacuum to suck up the dirty water. This ensures a streak-free finish.

The spray and suction controls are conveniently located on the handle.

4.1 Multi-Surface Cleaning

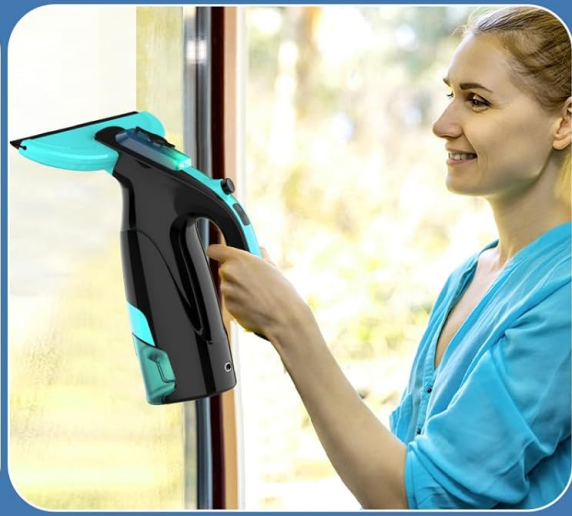

The Kiato Window Vacuum Squeegee is suitable for cleaning a variety of smooth surfaces, including:

- Windows
- Mirrors
- Glass tables
- Shower screens
- Tiles

The device is versatile for various smooth surfaces.

5. MAINTENANCE AND CARE

5.1 Emptying the Dirty Water Tank

The dirty water collection tank has a 200ml capacity. It is important to empty the tank regularly, especially when it reaches its maximum level, to prevent overflow and maintain suction efficiency. The tank is detachable for easy emptying.

Dirty Water Tank Capacity: 200ml

Removable water tank can hold more dirty water, it is easy for emptying of waste water.

Emptying the dirty water tank is simple and essential for performance.

5.2 Cleaning the Microfiber Cloths

The microfiber cloths are reusable. After each use, remove them from the wiper tool and wash them with water and mild detergent. Allow them to air dry completely before reattaching or storing.

5.3 Charging the Battery

The built-in 2200mAh rechargeable battery provides up to 40 minutes of runtime. Recharge the device when the indicator light signals low battery or when suction power decreases. Avoid frequent charging if the battery is not significantly depleted to prolong battery life.

KIATO Window Vacuum
quickly cleans away window grim, with no spots and no streaks

The powerful rechargeable battery ensures extended cleaning sessions.

6. TROUBLESHOOTING

If you encounter issues with your Kiato Window Vacuum Squeegee, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No suction or weak suction	Dirty water tank is full. Vacuum attachment is not properly secured. Battery is low.	Empty the dirty water tank. Ensure the vacuum attachment is locked into place. Recharge the battery.
Streaks left on surface	Surface not wet enough. Too much detergent/foaming. Squeegee blade is dirty or worn.	Ensure the surface is sufficiently wet before vacuuming. Use low-foaming detergent; if foam is excessive, flatten with microfiber cloth. Clean the squeegee blade or replace if worn.
Spray function not working	Clean water tank is empty. Spray nozzle is clogged.	Refill the clean water tank. Clean the spray nozzle.

Problem	Possible Cause	Solution
Device not turning on	Battery is completely drained.	Charge the device for at least 30 minutes before attempting to turn it on.

7. SPECIFICATIONS

Feature	Detail
Model	Large (B0CVTZGWLC)
Brand	Kiato
Battery	2200mAh Rechargeable
Runtime	Approx. 40 minutes (on full charge)
Dirty Water Tank Capacity	200ml
Clean Water Tank Capacity	70ml
Dimensions (Package)	11.5 x 6.65 x 4.37 inches
Item Weight	2.35 pounds
Blade Material	Silicone
Handle Material	Plastic
