YITAHOME MAYIHIXjr3

YITAHOME 10x10 Pop Up Canopy User Manual

Model: MAYIHIXjr3

PRODUCT OVERVIEW

The YITAHOME 10x10 Pop Up Canopy with 4 Removable Sidewalls is designed for versatile outdoor use, providing shade and protection for various events. This portable gazebo features a robust frame and a durable canopy, making it suitable for camping, weddings, patio gatherings, parties, beach outings, and commercial activities.

LARGE COOL SHADE AREA

Shade Area 100 ft²

Cooling Down

99% UV Protection

Water Proof

Flame Resistance

Fade Resistance

Key Features:

- **Strong Frame:** Constructed from reinforced steel with a rustproof powder coating for enhanced durability and resistance to chipping and corrosion. Sturdy steel legs include anchor holes for stability.
- **Waterproof & UV Protection:** Made from 210D polyester oxford silver coated fabric, offering 100% waterproofing and UPF 50+ UV protection. The fabric is also flame retardant.
- **Adjustable Heights:** Features three adjustable leg heights (6.4', 6.1', 5.8') to suit various outdoor activities and preferences.
- **Quick Installation:** Designed for assembly and disassembly by 2-4 people in minutes, without the need for tools.
- **Versatile Use:** Accommodates 6-12 people, ideal for fairs, markets, parties, festivals, and other outdoor events. Includes 4 removable sidewalls for added flexibility.

SAFETY INFORMATION

Always prioritize safety when handling and using the YITAHOME Pop Up Canopy. Adhere to the following guidelines to prevent damage to the product and ensure user safety:

- Always assemble and disassemble the canopy with care to avoid injury.
- Retract the canopy during inclement weather conditions such as strong winds (over 25 Mph), heavy rain, or snowfall (more than 2 inches of snow) to prevent damage or injury.
- Ensure the tent is securely anchored to the ground during use to maintain stability.

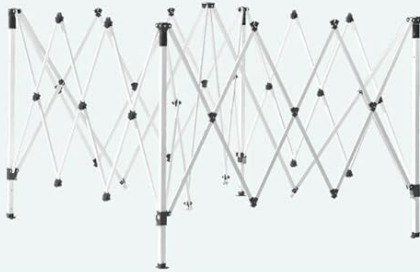

SETUP AND INSTALLATION

The YITAHOME Pop Up Canopy is designed for quick and easy setup. Follow these steps for proper installation:

1. **Step 1: Unfold the Frame.** With assistance from 1-3 other people, carefully pull the legs of the folded frame outwards until it begins to expand.
2. **Step 2: Put On the Canopy Top.** Drape the canopy fabric over the expanded frame. Ensure the corners and edges are aligned correctly with the frame structure.
3. **Step 3: Adjust the Height.** Press the buttons on each leg to extend them to your desired height. Three adjustable heights are available: high (6.4'), medium (6.1'), and low (5.8'). Ensure all legs are locked into place at the same height for stability.
4. **Step 4: Tie On Sidewalls.** Attach the four removable sidewalls using the provided straps or fasteners. These can be added or removed as needed for privacy or protection from elements.
5. **Step 5: Secure the Canopy.** Use ropes and stakes (not explicitly mentioned as included, but standard for canopies) to anchor the canopy to the ground through the anchor holes in the steel legs. This is crucial for stability, especially in breezy conditions.

EASY TO SET UP

No Tools Required

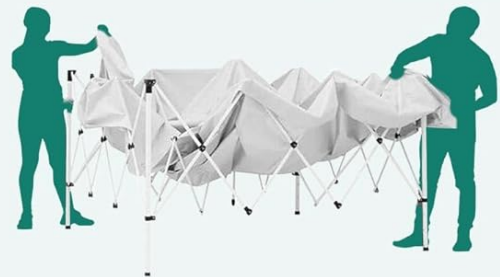

Step 1

Unfold the frame

Step 2

Put On the Canopy Top

Step 3

Adjust the Height

Step 4

Tie On Sidewalls

Image: A visual representation of the four main steps for quick canopy setup, illustrating the ease of assembly without tools.

Once assembled, operating your YITAHOME Pop Up Canopy is straightforward. The primary operational aspect involves adjusting its height and managing the sidewalls.

Adjusting Canopy Height:

To change the height of the canopy, locate the push-button mechanisms on each leg. Simultaneously press these buttons and slide the leg sections to the desired height setting (5.8', 6.1', or 6.4'). Ensure all four legs are adjusted to the same height and securely locked into place before use.

Image: A detailed diagram illustrating the three adjustable height settings for the canopy legs, along with the overall dimensions of the 10x10 foot canopy.

Using Removable Sidewalls:

The canopy comes with four removable sidewalls. These can be attached or detached as needed to provide additional shade, privacy, or protection from wind and light rain. Simply use the integrated straps or fasteners to secure them to the canopy frame. When not in use, the sidewalls can be folded and stored.

MAINTENANCE

Proper maintenance will extend the life of your YITAHOME Pop Up Canopy. Follow these tips for care and storage:

- **Cleaning:** Clean the canopy fabric and sidewalls with mild soap and water. Do not use harsh detergents or abrasive cleaners, as these can damage the fabric's waterproof and UV-protective coatings. Rinse thoroughly and allow to air dry completely before storage.
- **Frame Care:** Inspect the steel frame periodically for any signs of rust or damage. If minor rust spots appear, clean them and apply a rust-inhibiting paint. Ensure all moving parts are clean and operate smoothly.
- **Storage:** Always ensure the canopy fabric and frame are completely dry before folding and storing. Store the canopy in its original bag or a dry, cool place away from direct sunlight and extreme temperatures to prevent mildew and material degradation.
- **Weather Precautions:** As noted in the safety section, always retract and store the canopy during severe weather conditions (strong winds, heavy rain, snow) to prevent structural damage.

TROUBLESHOOTING

If you encounter issues with your YITAHOME Pop Up Canopy, consider the following common problems and solutions:

- **Canopy is unstable or wobbly:**
 - Ensure all legs are extended to the same height and securely locked into place.
 - Verify that the canopy is properly anchored to the ground using stakes and ropes.
 - Check that the frame is fully expanded and all joints are engaged.
- **Difficulty in unfolding/folding the frame:**
 - Ensure there are enough people (2-4) assisting with the process.
 - Check for any obstructions or debris in the frame joints.
 - Apply a silicone-based lubricant to moving parts if they are stiff.
- **Water pooling on the canopy top:**
 - This can occur during heavy rain if the canopy is not taut enough or if the pitch is insufficient. Ensure the canopy fabric is stretched tightly over the frame.
 - Consider adjusting the height to a slightly higher setting if possible, to increase the slope for water runoff.
 - For prolonged heavy rain, it is recommended to retract the canopy.
- **Sidewalls do not fit properly:**
 - Ensure the sidewalls are oriented correctly and attached to the corresponding sides of the canopy.
 - Check that the canopy frame is fully expanded to its intended dimensions.

If these solutions do not resolve the issue, please contact YITAHOME customer support for further assistance.

SPECIFICATIONS

| Feature | Detail |
|--------------------|---|
| Brand | YITAHOME |
| Model Number | MAYIHIXjr3 |
| Product Dimensions | 120"L x 120"W x 105.5"H (10'L x 10'W x 8.8'H) |

| Feature | Detail |
