1. **Attach the Legs:** Locate the four sofa legs. Twist each leg securely into the designated threaded holes on the bottom of the sofa base. Ensure they are tightened firmly.
2. **Connect Armrests:** Position the armrests on either side of the sofa base. Align the metal latches on the armrests with the corresponding slots on the sofa base. Push down firmly until the latches click into place, securing the armrests.
3. **Install Backrest:** Place the backrest onto the sofa base. Align the sliding latches on the backrest with the receiving mechanisms on the base. Slide the backrest down until it is fully engaged and stable.
4. **Secure Fabric Panels:** Utilize the Velcro strips to secure any loose fabric panels around the base and armrests for a neat and finished appearance.

5. **Place Seat Cushions:** Unpack the vacuum-sealed seat cushions. Allow them a few hours to fully expand. Each seat cushion has a Velcro piece on its underside. Align these with the corresponding Velcro strips on the sofa base to prevent shifting.
6. **Add Back Cushions:** Place the back cushions against the backrest. These also feature Velcro tabs to keep them securely in position.
