## 4. SETUP

The Aromadd White Tea Diffuser Oil is ready for use directly from the bottle. No prior mixing or dilution is required.

1. Carefully remove the dropper cap from the oil bottle.
2. Ensure your chosen diffuser is clean and ready for use according to its own instruction manual.

## 5. OPERATING INSTRUCTIONS

This diffuser oil is versatile and compatible with various types of aromatherapy diffusers.

### 5.1 Recommended Usage with Diffusers

- **Aromadd Cold Air Diffusers:** For optimal performance and scent diffusion, use with Aromadd cold air diffusers. Refer to your specific Aromadd diffuser's manual for exact instructions on adding oil.
- **Other Cold Air, Ultrasonic, Ceramic, or Car Diffusers:** This oil can also be used with other brands and types of diffusers.

Add 3-5 drops of oil into your diffuser's reservoir or pad, following the manufacturer's instructions for that specific diffuser model. Adjust the number of drops to achieve your desired scent intensity.

### 5.2 Alternative Uses

While primarily designed for diffusers, the oil can also be used in other applications for fragrance:

- **Dry Flowers/Potpourri:** Add a few drops to refresh the scent of dry flowers or potpourri.
- **Aromatherapy Burners:** Use with an aromatherapy burner by adding a few drops to the water reservoir.

## 6. MAINTENANCE AND STORAGE

- Always replace the dropper cap tightly after each use to prevent evaporation and maintain oil quality.
- Store the bottle in a cool, dry place, away from direct sunlight and heat.
- Keep the bottle upright to prevent leakage.
- Clean your diffuser regularly according to its manufacturer's instructions to ensure optimal performance and prevent residue buildup.

## 7. TROUBLESHOOTING

Most issues related to scent diffusion are typically associated with the diffuser unit itself rather than the oil.

- Weak Scent:** Ensure your diffuser is clean and functioning correctly. Increase the number of drops of oil if your diffuser allows for adjustment. Check if the diffuser's filter or pad needs replacement.
- No Scent:** Verify that the diffuser is turned on and operating. Confirm that oil has been added to the appropriate reservoir or pad.
- Oil Leakage:** Ensure the oil bottle cap is securely tightened. If leakage occurs from the diffuser, consult your diffuser's instruction manual.
