SETUP AND ASSEMBLY

Assembly of the Bellemave Twin Loft Bed requires two adults and approximately 1-2 hours. Follow the step-by-step instructions provided in the included assembly guide. Ensure you have sufficient space for assembly.

1. **Unpack and Identify Parts:** Carefully unpack all components and lay them out on a clean, soft surface (e.g., a rug or blanket) to prevent scratches. Compare all parts with the parts list in your assembly guide.
2. **Assemble the Main Frame:** Begin by connecting the main metal frame components as per the diagrams in the assembly guide. Do not fully tighten screws until all parts are loosely connected.
3. **Attach the Ladder and Guardrails:** Securely attach the built-in ladder and the full-length guardrails to the main bed frame. Ensure these are firmly in place for safety.
4. **Install the Desk and Storage Shelf:** Mount the L-shaped desk and the storage shelf to the designated areas on the bed frame. Ensure they are level and securely fastened.
5. **Install Bed Slats:** Place and secure the 20 metal slats onto the bed frame. These provide mattress support and contribute to the bed's stability.

6. **Final Tightening:** Once all components are assembled, systematically tighten all screws and bolts using the provided tools. Do not overtighten.
7. **Placement:** Position the assembled loft bed in its desired location, ensuring it is stable and level.

- **Fastener Checks:** Periodically (e.g., monthly or quarterly) inspect all bolts, screws, and connections to ensure they remain tight. Retighten as necessary to maintain stability and prevent noise.
- **Damage Inspection:** Regularly check for any signs of wear, damage, or loose parts. Discontinue use if any structural damage is found and contact customer support for replacement parts or advice.
- **Relocation:** If moving the bed, disassemble it partially or fully to prevent structural damage. Do not drag the assembled bed.
