MAINTENANCE

To maintain the appearance and longevity of your VASAGLE Bar Cart, follow these simple care instructions:

- **Cleaning:** Wipe surfaces with a damp cloth for general cleaning. For a streak-free finish, follow with a dry cloth.
- **Material Care:** The cart is made of a steel frame and easy-to-clean veneer surfaces, ensuring durability.
- **Weight Capacity:** Do not exceed the maximum weight recommendation of 22 pounds per shelf to prevent damage.

TROUBLESHOOTING

If you encounter any issues with your bar cart, please refer to the following common solutions:

- **Wobbling Shelves:** If shelves appear wobbly, ensure all screws are tightened securely. Sometimes, minor adjustments to the frame's alignment during assembly can resolve this. If the issue persists due to slight manufacturing variations, adding small, thin rubber pads (e.g., from scrap rubber stickers) to the shelf supports can help stabilize them.
- **Difficulty with Screws:** If screws are difficult to insert or do not seem to align, double-check that you are using the correct screws for each part as per the assembly manual. Ensure parts are correctly oriented before attempting to fasten. Do not overtighten screws, as this can strip the threads.
- **Wheels Not Locking:** Verify that the locking mechanism on the wheels is fully engaged. Ensure no debris is obstructing the wheel or the lock.
