SETUP & ASSEMBLY

Assembly is designed to be straightforward. All necessary tools are included. Follow the step-by-step instructions provided in the separate assembly guide for detailed diagrams. The process typically takes about 2 hours.

- Unpack Components:** Carefully remove all parts from the packaging and lay them out on a soft, clean surface to prevent damage.
- Assemble Frame:** Connect the steel frame components using the provided screws and Allen keys. Ensure all connections are snug but do not overtighten until all parts are aligned. The cross-bracing should be installed to prevent wobbling.
- Attach Tabletop Panels:** Secure the carbon fiber tabletop panels to the assembled frame. Ensure proper alignment before fully tightening all screws.
- Install Monitor Stand:** Attach the integrated monitor stand to the designated positions on the tabletop.
- Mount Power Strip:** Secure the power strip unit to the underside of the desk in the designated area.
- Apply RGB LED Strip:** Adhere the RGB LED strip along the desired edges of the desk, typically under the monitor stand or along the back edge, ensuring the controller is accessible.
- Attach Accessories:** Install the headphone hook and drink holder to the side of the desk as desired.
- Adjust Feet:** Use the adjustable feet at the bottom of the desk legs to level the desk on uneven surfaces and ensure stability.

OPERATING INSTRUCTIONS

Integrated Power Outlets and USB Ports

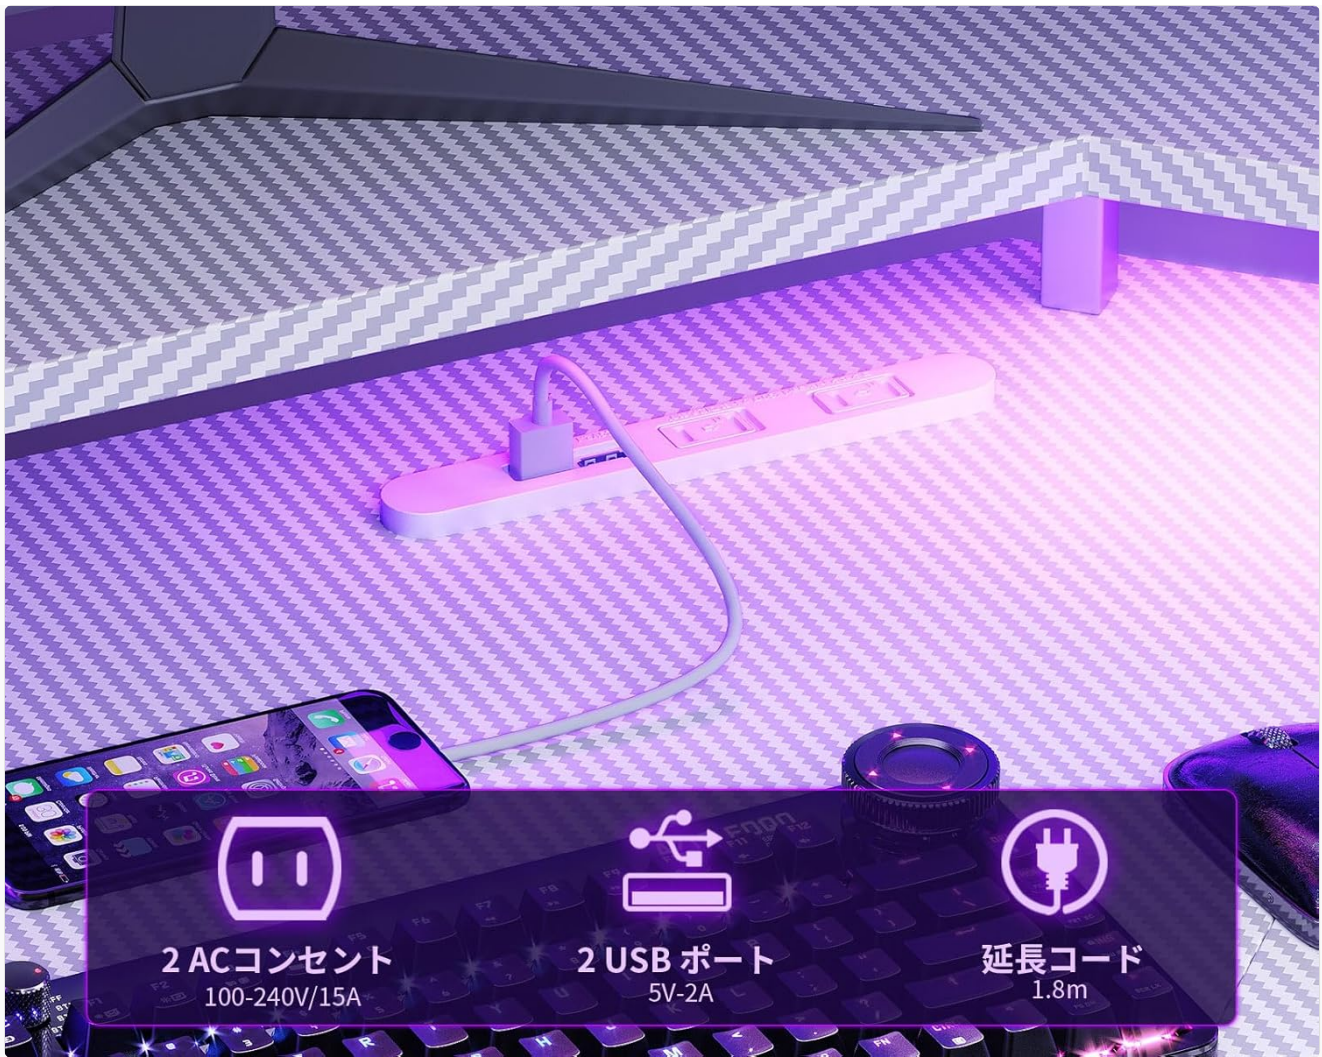

Figure 2: Integrated AC power outlets and USB ports for convenient device charging.

The desk includes two AC power outlets (100-240V/15A) and two USB ports (5V-2A) for convenient charging of your computer, smartphone, and other electronic devices. Simply plug the desk's main power cord into a wall outlet, then connect your devices to the integrated ports.

RGB LED Lighting

Figure 3: RGB LED lighting with various color options to enhance your environment.

The integrated RGB LED lighting allows you to customize your desk's ambiance. Use the included controller to:

- **Change Colors:** Select from a wide spectrum of colors to match your mood or gaming setup.
- **Select Lighting Modes:** Choose from 10 different lighting modes, including static colors, dynamic effects, and color cycling.
- **Adjust Brightness:** Control the intensity of the LED lights.

The LED system features a memory function that retains your last selected mode and color when the lights are turned off and on again.

Monitor Stand

Figure 4: The monitor stand helps improve posture by elevating your screen to eye level.

The integrated monitor stand elevates your screen to an ergonomic height, helping to improve your posture and reduce strain on your neck and shoulders during extended use.

Headphone Hook and Drink Holder

Utilize the attached headphone hook to keep your headphones organized and within reach. The drink holder provides a secure place for your beverages, minimizing the risk of spills on your desk.

MAINTENANCE

- **Cleaning:** The carbon fiber tabletop is resistant to dirt, scratches, heat, and moisture. For general cleaning, wipe the surface with a damp cloth. For stubborn marks, use a mild detergent solution and then wipe dry. Avoid abrasive cleaners.
- **Frame Care:** The steel frame is powder-coated for durability. Clean with a damp cloth as needed.
- **Electrical Components:** Ensure the power strip and LED components remain dry. Do not attempt to disassemble or repair electrical parts yourself.
- **Fastener Check:** Periodically check all screws and bolts to ensure they remain tight. Retighten if necessary to maintain desk stability.

TROUBLESHOOTING

Desk Wobbles After Assembly

- **Check Fasteners:** Ensure all screws and bolts are fully tightened.
- **Adjust Feet:** Use the adjustable feet at the bottom of each leg to level the desk on uneven floors.
- **Verify Cross-Bracing:** Confirm that the cross-bracing elements are correctly installed and tightened, as they

provide significant stability.

LED Lights Not Working

- **Power Connection:** Ensure the LED strip is properly connected to its power source and that the power source is plugged into a working outlet.
- **Controller Check:** Verify that the LED controller is securely connected to the strip and functioning correctly. Try pressing the power button on the controller.
- **Inspect Strip:** Check for any visible damage to the LED strip itself.

Power Outlets/USB Ports Not Functioning

- **Main Power:** Ensure the desk's main power cord is securely plugged into a live wall outlet.
- **Device Compatibility:** Verify that the devices you are trying to charge are compatible with the provided voltage and current.
- **Overload:** Avoid overloading the outlets. If too many high-power devices are connected, it might trip a circuit.
