### Bewinner Bewinner0f8wg4kmd7

# Bewinner Wireless Video Doorbell User Manual

Model: Bewinner0f8wg4kmd7

Brand: Bewinner

## 1. INTRODUCTION

---

The Bewinner Wireless Video Doorbell system provides enhanced home security and convenient communication. This system includes a 4.3-inch 1080P HD monitor and a doorbell camera with a 170° viewing angle, night vision, and two-way voice capabilities. It allows you to monitor your doorstep, communicate with visitors, and record activity for comprehensive home surveillance.

## Key Features:

- **Remote Video Calls:** View outdoor camera video from the indoor monitor, even for family members without mobile phones.
- **High Fidelity Microphone:** Two-way talk design with powerful speakers and a sensitive microphone for clear communication.
- **Wide Angle Lens:** 170-degree fisheye lens provides a comprehensive view, eliminating blind spots.
- **HD Camera:** 8MP high-resolution camera records 1080P HD video, capturing clear facial features and details.
- **Day & Night Functionality:** Built-in infrared night vision light and ICR infrared filter for clear visibility in dark environments.

Video: An overview of the Bewinner Wireless Video Doorbell's features, including quick response time, easy installation, auto capture/recording, IP66 waterproof rating, multiple melodies, 4.3-inch screen, real-time video talk, 100 ft wireless range, and LED fill light function for night vision.

## 2. WHAT'S IN THE BOX

---

Upon opening the package, please ensure all components are present and in good condition. The standard package includes:

- Indoor Monitor (with 4.3-inch screen)
- Outdoor Doorbell Camera

- Mounting Bracket for Doorbell Camera
- USB Charging Cable
- Mounting Screws and Wall Anchors
- Adhesive Sticker for Mounting (alternative to screws)
- User Manual (this document)

# Outstanding abilities

170 ° ultra large wide-angle camera,  
LED backlighting for dark scenes, no escape from danger

170 ° wide-angle camera

Environmental sensors

LED fill light

Doorbell button

## 3. SETUP AND INSTALLATION

---

### 3.1 Charging the Devices

Before initial use, fully charge both the indoor monitor and the outdoor doorbell camera using the provided USB cable. Connect the cable to the Type-C charging port on the side of the indoor monitor and the bottom of the doorbell camera, and plug the other end into a standard USB power adapter (not included).

# Visual calling

Visitors outside the door,  
clearly visible inside the door

- ▶ 4.3 inch clear screen
- ▶ Bidirectional voice intercom
- ▶ Automatic photo/video recording  
(TF card required)

Image: A close-up view of the indoor monitor's side, highlighting the power button, Type-C charging port, and TF card slot.

## 3.2 Mounting the Outdoor Doorbell Camera

The doorbell camera can be mounted using screws or the adhesive sticker. Choose a location near your door that provides a clear view of visitors and is within the wireless range of the indoor monitor.

### 1. Option 1: Screw Mounting

- Attach the mounting bracket to your desired wall location using the provided screws and wall anchors.
- Slide the doorbell camera onto the mounted bracket until it clicks securely into place.

### 2. Option 2: Adhesive Mounting

- Clean the mounting surface thoroughly to ensure it is dry and free of dust or debris.
- Peel off the protective film from the adhesive sticker and firmly press the doorbell camera onto the wall.

# Are there any hidden dangers around you?

Solving problems in one step

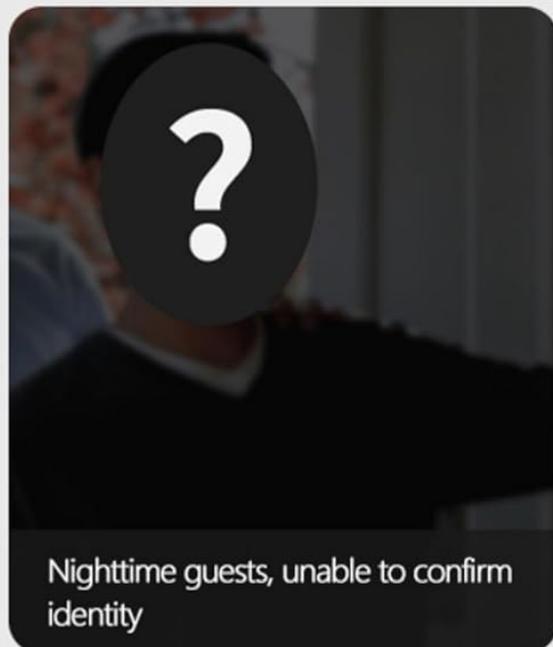

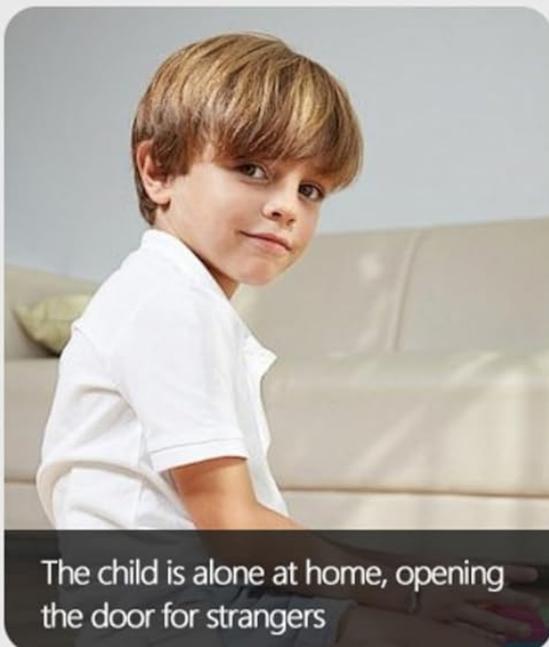

Image: The wireless visible doorbell setup, illustrating the outdoor unit and the indoor monitor.

## 3.3 Pairing the Devices

The indoor monitor and outdoor doorbell camera are typically pre-paired from the factory. If they are not connected, follow the instructions in the included quick start guide or refer to the device settings on the indoor monitor for pairing options.

## 4. OPERATING INSTRUCTIONS

## 4.1 Answering a Call

When a visitor presses the doorbell button, the indoor monitor will ring and display the live video feed from the outdoor camera. You can then use the two-way talk function to communicate with the visitor.

# 170 ° ultra large wide-angle view

Large field of view and wide angle, clear visibility from top to bottom, left and right

Image: The "Visual calling" feature in action, displaying a delivery person on the indoor monitor's screen.

## 4.2 Monitoring Your Doorstep

You can manually activate the live view on the indoor monitor at any time to check your doorstep. The 170-degree wide-angle lens provides a broad perspective.

Wireless visible doorbell

# Intelligent visual doorbell

## Guarding Family Safety

- / Dual directional intercom
- / high-definition wide-angle
- / ultra long battery life

Image: A visual representation of the 170-degree ultra-large wide-angle view provided by the doorbell camera, showing a broad field of vision.

### 4.3 Night Vision

The doorbell camera is equipped with a high-power infrared night vision light and an ICR infrared filter. It automatically switches between day and night modes to provide clear visibility even in low-light or pitch-dark

conditions.

# High definition night vision

LED dark scene fill light, automatically turned on at night, also visible at night

Image: A comparison illustrating the "High definition night vision" capability, showing how the LED dark scene fill light provides clear visibility at night compared to daytime.

## 4.4 Recording and Storage

The system supports automatic photo and video recording. To enable this feature, insert a TF (microSD) card into the designated slot on the indoor monitor. The system will automatically capture images or record video when the doorbell is pressed or motion is detected (if applicable).

Image: A diagram illustrating the automatic recording feature (requires TF card) and automatic photographing feature (built-in storage) of the doorbell system.

## 5. MAINTENANCE

---

### 5.1 Cleaning

Wipe the indoor monitor and outdoor doorbell camera with a soft, dry cloth. Do not use liquid cleaners or aerosol sprays directly on the devices. Avoid abrasive materials that could scratch the surfaces.

### 5.2 Battery Care

The system is powered by a high-capacity battery. To prolong battery life, avoid extreme temperatures and charge the devices regularly. If the battery level is low, recharge promptly.

# Strong endurance

Upgrade to a 1000Ah high-capacity battery for stronger battery life

1000 Ah

## 6. TROUBLESHOOTING

---

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
No video/audio on indoor monitor	Low battery on either unit; devices out of range; pairing issue.	Ensure both units are fully charged. Move units closer. Repair devices according to setup instructions.
Doorbell frequently goes offline	Weak wireless signal; interference; distance from monitor.	Ensure the doorbell camera is within the effective wireless range of the indoor monitor. Minimize obstacles between units.
Poor video quality at night	Obstruction of night vision sensor; insufficient ambient light.	Ensure the camera lens and IR sensors are clean and unobstructed.
Cannot record video/photos	No TF card inserted; TF card full or corrupted.	Insert a compatible TF card. Format or replace the TF card if it's full or corrupted.

## 7. SPECIFICATIONS

---

Feature	Detail
Indoor/Outdoor Usage	Outdoor, Indoor
Compatible Devices	Smartphone (for remote viewing if applicable, though this model seems to be local monitor based)
Power Source	Battery Powered
Connectivity Protocol	Wi-Fi (for internal communication between units)
Mounting Type	Wall Mount
Video Capture Resolution	1080p
Color	M13 (Black)
Number of Channels	2 (Two-way audio)
Wireless Communication Technology	Wi-Fi
Viewing Angle	170 Degrees
Wattage	1 watts
Item dimensions L x W x H	7.87 x 5.91 x 1.97 inches
Battery Power	400 Milliampere Hour (mAh) (Note: Image says 1000mAh, using JSON data)
Effective Still Resolution	8 MP
International Protection Rating	IP54 (Note: Video says IP66, using JSON data)
Video Capture Format	MPEG-4
Special Feature	Night Vision

Note: Some specifications may vary slightly based on production batch or regional models. Please refer to the product packaging for the most accurate information.

## 8. WARRANTY AND SUPPORT

---

Bewinner products are designed for reliability and performance. For specific warranty details, please refer to the warranty card included with your product or visit the official Bewinner website. If you encounter any issues or require technical assistance, please contact Bewinner customer support through the contact information provided on the product packaging or their official website.
