Logitech K380s

Logitech Pebble Keys 2 K380s User Manual

Multi-Device Bluetooth Wireless Keyboard with Customizable Shortcuts

INTRODUCTION

Welcome to the user manual for your Logitech Pebble Keys 2 K380s Multi-Device Bluetooth Wireless Keyboard. This manual provides essential information on setting up, operating, maintaining, and troubleshooting your new keyboard. The Pebble Keys 2 K380s is designed for portability and versatility, allowing seamless switching between multiple devices.

Figure 1: Logitech Pebble Keys 2 K380s Keyboard in Graphite.

The Pebble Keys 2 K380s features an updated Bluetooth 5.1 technology for stronger connectivity and introduces new essential shortcuts. It offers an extended battery life and supports the Logi Options+ app for enhanced customization.

WHAT'S IN THE BOX

- Logitech Pebble Keys 2 K380s Keyboard
- 1 x Lithium Ion battery (pre-installed)

- User Documentation (this manual)

Note: A Logitech Bolt receiver is not included with this product. Connectivity is primarily via Bluetooth.

SETUP

1. Powering On

The keyboard comes with a pre-installed Lithium Ion battery. To power on the keyboard, locate the power switch on the side or back of the device and slide it to the 'On' position.

2. Pairing with Devices (Easy-Switch)

The Pebble Keys 2 K380s can connect to up to three devices simultaneously using Bluetooth.

1. Ensure Bluetooth is enabled on your computer, tablet, or smartphone.
2. On the keyboard, press and hold one of the Easy-Switch keys (1, 2, or 3) for three seconds until the LED light above the key starts blinking rapidly. This indicates the keyboard is in pairing mode.
3. On your device, open Bluetooth settings and select "Logitech Pebble Keys 2 K380s" from the list of available devices.
4. Follow any on-screen prompts to complete the pairing process. The LED light on the keyboard will turn solid for a few seconds and then turn off, indicating successful pairing.
5. Repeat these steps for up to two additional devices using the other Easy-Switch keys.

OPERATING THE KEYBOARD

Switching Between Devices

Once paired, you can effortlessly switch between your connected devices by simply pressing the corresponding Easy-Switch key (1, 2, or 3). The keyboard will instantly connect to the selected device.

Using Function Keys and Shortcuts

The Pebble Keys 2 K380s features dedicated Fn shortcut keys for quick access to common functions such as search, screenshot, and the emoji menu.

Customizing Keys with Logi Options+ App

For advanced customization, download and install the Logi Options+ app. This application allows you to:

- Customize the 10 Fn keys to tailor the keyboard's functionality to your preferences.
- Set up app-specific profiles.
- Utilize Logi Flow compatibility for seamless control across multiple computers.
- Receive low battery alerts.

Maintenance

Cleaning

To clean your keyboard, use a soft, lint-free cloth. For stubborn dirt, slightly dampen the cloth with water or a mild, non-abrasive cleaner. Avoid excessive moisture and do not submerge the keyboard in liquid.

Battery Information

The Pebble Keys 2 K380s is powered by one Lithium Ion battery (included). It boasts an extended battery life of up to 36 months and features an auto-sleep function to conserve power. Replace the battery when the low battery indicator appears (visible via Logi Options+ app).

Troubleshooting

Connectivity Issues

- **Keyboard not connecting:** Ensure the keyboard is powered on and the correct Easy-Switch channel is selected. Check that Bluetooth is enabled on your device.
- **Intermittent connection:** Move the keyboard closer to your device to reduce interference. Ensure no other strong wireless signals are nearby.
- **Re-pairing:** If issues persist, try unpairing the keyboard from your device's Bluetooth settings and then re-pair it following the "Pairing with Devices" steps.

Typing Problems

- **Keys not responding:** Check battery level. If low, replace the battery. Ensure the keyboard is properly connected to your device.
- **Incorrect characters:** Verify that the correct keyboard layout is selected in your device's operating system settings.
