Jafānda JF239

Jafānda JF239 Air Purifier User Manual

Model: JF239 Gold

INTRODUCTION

Thank you for choosing the Jafānda JF239 Air Purifier. This device is designed to provide clean and fresh air in your home, effectively removing airborne particles, odors, and allergens. Featuring advanced filtration, quiet operation, and smart capabilities, the JF239 enhances your indoor air quality for a healthier living environment. Please read this manual thoroughly before operation to ensure proper use and maintenance.

SAFETY INFORMATION

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, and injury.

- Do not operate the air purifier with a damaged cord or plug.
- Keep the power cord away from heated surfaces.
- Do not use the air purifier in wet or damp environments.
- Ensure the air inlet and outlet are not blocked.
- Unplug the unit before cleaning or performing any maintenance.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory, or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

PRODUCT OVERVIEW

The Jafānda JF239 Air Purifier combines powerful air purification with user-friendly features.

Key Features:

- **True HEPA Air Filter:** Captures 99.97% of airborne particles as small as 0.3 micrometers, including dust, pollen, pet dander, and more.
- **Activated Carbon Filter:** Effectively removes odors, smoke, and volatile organic compounds (VOCs).
- **Ultra-Quiet Operation:** Operates as low as 20dB in sleep mode, ensuring minimal disturbance.
- **Energy-Efficient Performance:** Features a silent Brushless DC motor for powerful airflow with reduced energy consumption.
- **Aromatherapy Combo:** Allows for the addition of essential oils to customize fragrance.
- **4-Color Air Quality Indicator:** Provides real-time PM2.5 air quality readings.

- **Smart Home Integration:** Works with Alexa and Google Home via the Jafānda App.

SETUP

Follow these steps to set up your Jafānda JF239 Air Purifier:

1. **Unpack the Air Purifier:** Carefully remove the unit from its packaging.
2. **Remove Filter Packaging:** Open the filter compartment (usually located on the back or side) and remove the plastic packaging from the True HEPA and Activated Carbon filters.
3. **Install Filters:** Place the filters back into the unit in the correct orientation. Ensure they are securely seated.
4. **Close Compartment:** Close the filter compartment cover.
5. **Position the Unit:** Place the air purifier on a flat, stable surface, ensuring there is adequate space around it for optimal airflow (at least 6 inches from walls or furniture).
6. **Plug In:** Connect the power cord to a standard electrical outlet.

OPERATING INSTRUCTIONS

Your Jafānda JF239 Air Purifier offers various modes and settings for customized air purification.

Control Panel Functions:

- **Power Button:** Press to turn the unit On/Off.
- **Speed Button:** Cycles through fan speeds (Low, Medium, High).
- **Auto Mode:** Automatically adjusts fan speed based on detected air quality.
- **Sleep Mode:** Reduces fan speed to the lowest setting and dims display lights for quiet operation (20dB).
- **Timer:** Sets the operating time (e.g., 1H, 2H, 4H, 8H).
- **Light Button:** Controls the display light brightness.
- **Child Lock:** Prevents accidental changes to settings.
- **Wi-Fi Indicator:** Shows Wi-Fi connection status for smart control.

The air purifier operating in ultra-quiet sleep mode, ideal for bedrooms.

Smart Home Integration (App Control):

Download the Jafānda App from your smartphone's app store to unlock advanced features and remote control.

- **Pairing:** Follow the in-app instructions to connect your air purifier to your home Wi-Fi network.
- **Remote Control:** Control power, fan speed, modes, and timer from anywhere.
- **Scheduling:** Set custom schedules for operation.
- **Air Quality Monitoring:** View real-time air quality data and historical trends.
- **Voice Control:** Integrate with Amazon Alexa or Google Home for hands-free operation.

Smart Home Integration

Compatible with Alexa, Google Home
& the Jafanda App

The Jafanda app interface for smart home integration and control.

Aromatherapy Function:

The JF239 includes an aromatherapy diffuser for a personalized experience.

- Locate the aromatherapy pad slot (typically near the air outlet).
- Add a few drops of your preferred essential oil onto the aromatherapy pad.
- Insert the pad into the slot. The air purifier will then diffuse the scent as it operates.

Indulge in Aromatherapy

Relax and refresh with a few drops of essential oils

Adding essential oils to the integrated aromatherapy diffuser.

MAINTENANCE

Regular maintenance ensures optimal performance and extends the lifespan of your air purifier.

Filter Replacement:

The filter replacement indicator will illuminate when it's time to change the filter. Filter lifespan varies based on air quality and usage, typically every 6-8 months.

1. Unplug the air purifier from the power outlet.
2. Open the filter compartment cover.

- 3. Remove the old filter. Dispose of it properly.
- 4. Insert a new Jafānda JF239 replacement filter, ensuring correct orientation.
- 5. Close the filter compartment cover.
- 6. Plug in the unit. Reset the filter indicator by pressing and holding the filter reset button (refer to your control panel diagram for exact location) for 3-5 seconds until the light turns off.

Cleaning the Unit:

- Wipe the exterior of the air purifier with a soft, dry cloth.
- Do not use abrasive cleaners or solvents.
- Periodically vacuum the air inlet and outlet grilles to remove dust buildup.

TROUBLESHOOTING

If you encounter issues with your Jafānda JF239 Air Purifier, refer to the following table:

Problem	Possible Cause	Solution
Unit does not turn on	No power; Power cord not connected; Filter not installed correctly	Check power outlet; Ensure power cord is securely plugged in; Reinstall filter and ensure compartment is closed.
Reduced airflow / Poor purification	Clogged filter; Air inlets/outlets blocked	Replace filter; Clear any obstructions from air inlets/outlets.
Unusual noise	Filter not seated properly; Foreign object inside; Unit on uneven surface	Reinstall filter; Unplug and check for foreign objects; Place unit on a flat, stable surface.
Wi-Fi connection issues	Incorrect Wi-Fi password; Router too far; App issues	Double-check password; Move unit closer to router; Restart app/phone; Consult app's troubleshooting guide.
Air quality indicator always red/poor	High pollution in environment; Sensor dirty	Allow more time for purification; Gently clean the PM2.5 sensor opening with a dry cotton swab.
