

**OttLite CSR300W-SHPR**

# **OttLite ClearSun LED Travel Task Lamp User Manual**

Model: CSR300W-SHPR

Brand: OttLite

## **1. INTRODUCTION**

The OttLite ClearSun LED Travel Task Lamp is designed to provide high-quality, natural daylight illumination in a portable and convenient form. Featuring OttLite's exclusive ClearSun LED technology, this lamp reduces eyestrain by up to 51% and renders colors with exceptional accuracy. Its compact, folding design, rechargeable battery, digital display, and touch-activated controls make it ideal for various tasks and environments, from travel to home offices.

The OttLite ClearSun LED Travel Task Lamp, showcasing its compact design and digital display.

Perfect for **airplanes, coffee shops,**  
and **coffee tables**

The lamp's travel-friendly design makes it perfect for use in various settings, including airplanes and coffee shops.

## 2. PACKAGE CONTENTS

- OttLite ClearSun LED Travel Task Lamp
- USB Charging Cable
- Rechargeable Battery (pre-installed or included)

## 3. SETUP

### 3.1 Initial Charging

Before first use, fully charge the lamp. Connect the provided USB charging cable to the lamp's charging port and plug the other end into a compatible USB power source (e.g., computer USB port, USB wall adapter). The charging indicator light will show the charging status. A full charge typically takes several hours.

**Travel-Friendly**  
Compact,  
folding design

**Digital Display**  
shows time, date, month,  
day of the week and  
temperature

**Touch-Activated  
Controls**

**Rechargeable  
Battery**

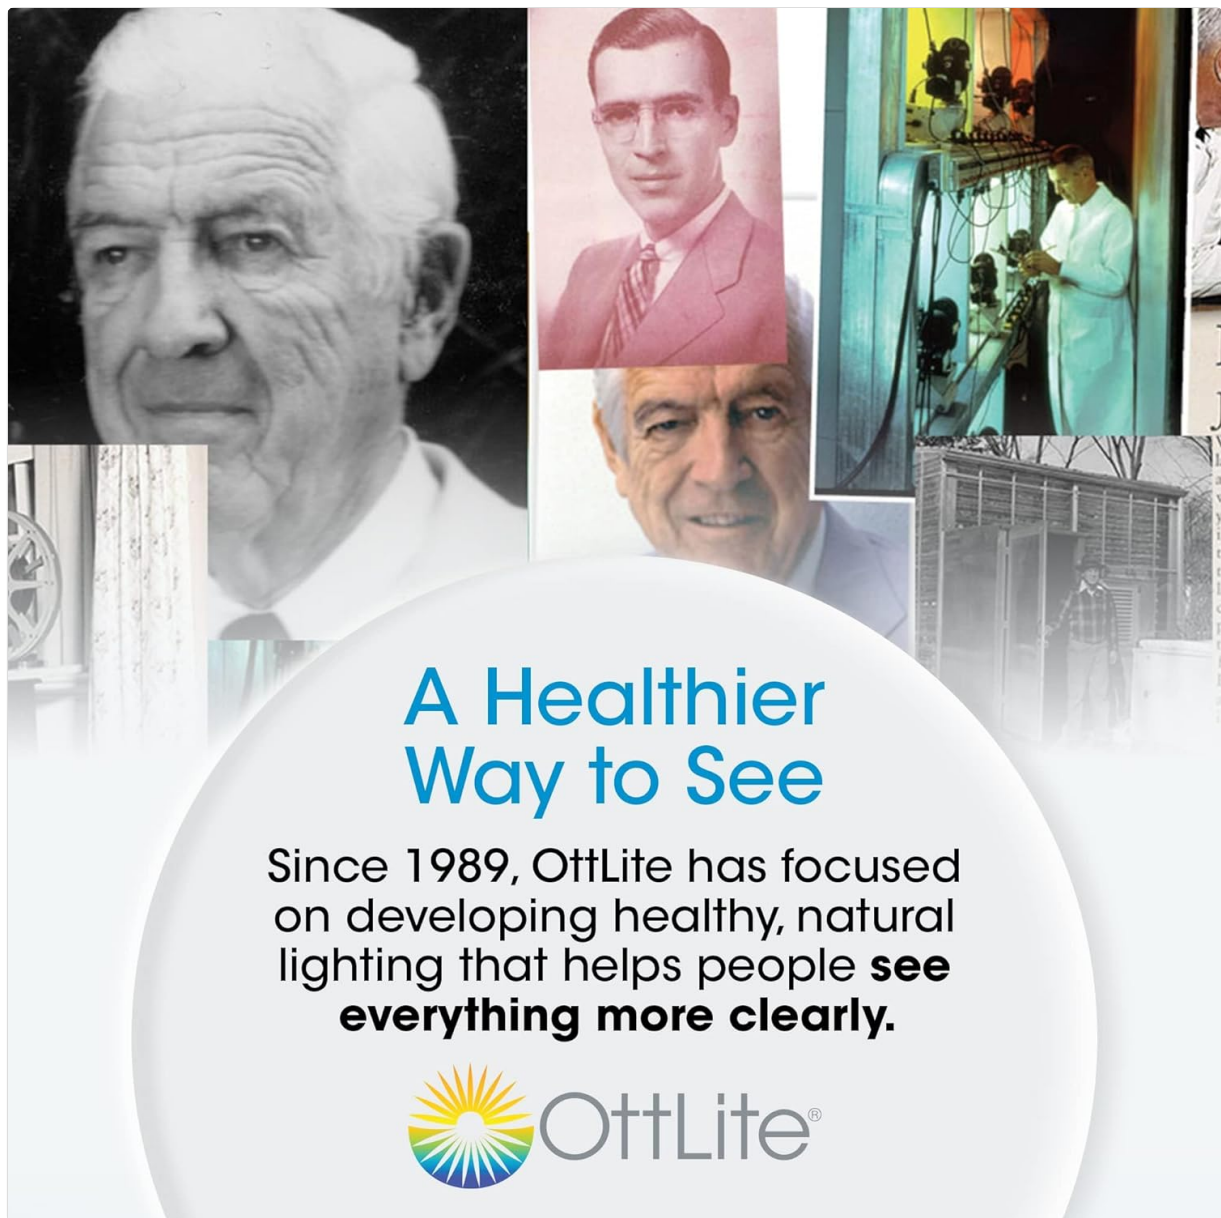

**3 Brightness Settings**

The lamp can be conveniently charged via a standard USB connection.

### 3.2 Unfolding and Positioning

Carefully unfold the lamp from its compact travel position. The lamp head and arm can be adjusted to achieve the desired height and angle for optimal illumination. The lamp adjusts in height from 10.75 inches to 15 inches.

Adjust the lamp's height and angle for optimal lighting.

## 4. OPERATING INSTRUCTIONS

### 4.1 Powering On/Off and Brightness Settings

The lamp features touch-activated controls located on its base. To turn the lamp on or off, gently touch the power icon. To cycle through the three brightness settings, continue touching the power icon. Each touch will advance to the next brightness level, then off.

### 4.2 Using the Digital Display

The integrated digital display shows the time, date (month/day), day of the week, and ambient temperature. To set the time and date, refer to the detailed instructions in the full manual (not provided here, but typically involves pressing specific buttons near the display).

The digital display provides useful information at a glance.

Overview of the lamp's main features and controls.

## 5. CLEARSun LED TECHNOLOGY

OttLite's ClearSun LED technology is engineered to provide a light spectrum that closely mimics natural daylight. This unique light output helps to reduce eyestrain and fatigue, allowing you to see details more clearly and comfortably for longer periods. With a Color Rendering Index (CRI) of 95+, ClearSun LEDs ensure that colors appear vibrant and true-to-life, which is crucial for tasks requiring accurate color perception like crafting, reading, and detailed work.

With a **CRI of 95+**, ClearSun LEDs provide smooth, uniform light that shows colors with **unmatched accuracy**

Experience unmatched color accuracy with ClearSun LED technology.

## 6. MAINTENANCE

### 6.1 Cleaning

To clean the lamp, ensure it is turned off and unplugged. Use a soft, dry cloth to wipe down the surfaces. Do not use abrasive cleaners, solvents, or harsh chemicals, as these may damage the finish or electronic components.

### 6.2 Battery Care

To prolong the life of the rechargeable battery, avoid fully discharging it frequently. If the lamp will not be used for an extended period, charge it periodically (e.g., every 3-6 months) to maintain battery health. Store the lamp in a cool, dry place.

## 7. TROUBLESHOOTING

- **Lamp not turning on:** Ensure the lamp is fully charged. If using while plugged in, verify the USB cable and power source are functioning correctly.
- **Light flickers or dims unexpectedly:** This may indicate a low battery. Recharge the lamp. If the issue persists after charging, contact customer support.

- **Digital display is blank or incorrect:** Check if the lamp has power. The display may have a separate small battery (e.g., coin cell) for timekeeping; refer to the full manual for instructions on replacing it if applicable.
- **Lamp does not hold a charge:** Battery life can diminish over time. Ensure proper charging procedures are followed. If the battery capacity has significantly decreased, it may need replacement (contact customer support for service options).

## 8. SPECIFICATIONS

Feature	Specification
Brand	OttLite
Model Number	CSRD300W-SHPR
Light Source Type	LED (ClearSun Technology)
Brightness	263 Lumens
Color Temperature	5000 Kelvin
Wattage	3.3 watts
Power Source	Rechargeable Battery / Corded Electric (USB)
Control Method	Touch
Product Dimensions (Folded)	3.5"D x 10.75"W x 3.5"H
Adjustable Height	10.75" to 15"
Item Weight	11.4 ounces
Material	Plastic

## 9. WARRANTY AND CUSTOMER SUPPORT

OttLite products are manufactured to high-quality standards. For information regarding warranty coverage, please refer to the warranty card included with your product or visit the official OttLite website. If you encounter any issues or require assistance with your OttLite ClearSun LED Travel Task Lamp, please contact OttLite customer support for technical assistance and service.

For the most up-to-date support information, please visit the OttLite official website or contact their customer service department directly.
