Aquatop FPS-40BB

Aquatop Forza Premier 2 Door Cabinet Instruction Manual

Model: FPS-40BB

INTRODUCTION

Thank you for choosing the Aquatop Forza Premier 2 Door Cabinet. This cabinet is designed to provide a stable and aesthetically pleasing base for your aquarium. It is suitable for standard sized 30/40 Breeder, 50, and 65-gallon aquariums. Please read this manual thoroughly before assembly and use to ensure proper setup and longevity of your product.

SAFETY INFORMATION

- Always ensure the cabinet is placed on a level, sturdy surface capable of supporting the full weight of your aquarium when filled with water, substrate, and decorations.
- Do not exceed the recommended tank sizes (30/40 Breeder, 50, 65-gallon aquariums).
- Keep all small parts and packaging materials away from children and pets.
- Exercise caution during assembly to prevent injury. It is recommended to have two people for assembly.
- Do not sit or stand on the cabinet.
- Ensure all connections and fasteners are securely tightened before placing an aquarium on the cabinet.

PACKAGE CONTENTS

Before beginning assembly, verify that all components are present and undamaged. Refer to the included parts list diagram in your package for specific identification.

- Cabinet panels (top, bottom, sides, back, shelves)
- Door panels (2)
- Adjustable stainless steel hinges
- Assembly hardware (screws, dowels, cam locks, etc.)
- Door handles (if applicable)

ASSEMBLY INSTRUCTIONS

Assembly is required for this product. Precision drilling ensures components are easy to assemble. It is recommended to assemble the cabinet in the room where it will be used. A Phillips head screwdriver and possibly a hammer (for dowels) may be required.

1. **Unpack and Identify Parts:** Carefully remove all components from the packaging. Lay them out on a clean, soft surface to prevent scratches. Identify each part using the provided parts list.
2. **Assemble the Base:** Attach the side panels to the bottom panel using the provided hardware (e.g., dowels and cam locks). Ensure all connections are snug.
3. **Install Shelves:** Insert the internal shelves into the designated slots or attach them with the appropriate hardware. The cabinet features internal shelving for storage.
4. **Attach Back Panel:** Secure the back panel to the assembled frame. This adds stability to the structure.
5. **Attach Top Panel:** Secure the top panel to the assembled frame.
6. **Install Doors:** Attach the adjustable stainless steel hinges to the door panels and then to the cabinet frame. Adjust the hinges as needed to ensure the doors close properly and are aligned.
7. **Attach Handles:** Secure the door handles to the door panels.
8. **Final Check:** Verify that all screws and fasteners are tightened. Gently shake the cabinet to ensure it is stable.

SETUP

- **Location:** Choose a permanent, level location for the cabinet that is away from direct sunlight, heat sources, and high traffic areas. Ensure the floor can support the combined weight of the cabinet and a filled aquarium.
- **Leveling:** Use a spirit level to ensure the cabinet is perfectly level. Adjust if necessary to prevent stress on the aquarium glass.

- **Aquarium Placement:** Carefully place your aquarium on the top surface of the cabinet. Ensure the entire bottom rim of the aquarium is supported by the cabinet's top surface.
- **Cable Management:** Utilize any pre-drilled holes or openings in the back panel for routing power cords and tubing for aquarium equipment.

OPERATING

The Aquatop Forza Premier Cabinet is a static support structure. Its primary function is to safely hold your aquarium. There are no operational controls for the cabinet itself.

- **Storage:** The internal shelves provide convenient storage for aquarium supplies, food, and equipment. Ensure items are stored neatly and do not obstruct door closure or ventilation.
- **Door Usage:** Open and close the cabinet doors gently. The adjustable stainless steel hinges are designed for durability.

MAINTENANCE

- **Cleaning:** Wipe the cabinet surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals, as these can damage the finish. For spills, wipe immediately to prevent water damage.
- **Hinge Care:** The stainless steel hinges are designed to resist corrosion. Periodically check them for smooth operation and tighten any loose screws if necessary.
- **Stability Check:** Occasionally check the cabinet's stability and ensure all connections remain secure, especially after moving or if you notice any shifting.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Cabinet is wobbly or unstable.	Uneven floor; loose assembly hardware.	Ensure the cabinet is on a level surface. Tighten all assembly screws and fasteners.
Doors do not close properly or are misaligned.	Hinges are not adjusted correctly; loose hinge screws.	Adjust the screws on the hinges to align the doors. Refer to hinge adjustment instructions if provided with the hardware. Tighten all hinge screws.
Scratches or damage during assembly.	Lack of protective surface during assembly.	Always assemble on a soft, clean surface (e.g., carpet or blanket) to prevent damage.

SPECIFICATIONS

Model Number:	FPS-40BB
