EXEGO EXEGO-spray mops with 4 pads

EXEGO Microfiber Spray Mop Instruction Manual

Model: EXEGO-spray mops with 4 pads

PRODUCT OVERVIEW

The EXEGO Microfiber Spray Mop is designed for efficient wet and dry floor cleaning. It features a refillable bottle for your preferred cleaning solution, a 360° rotating head for easy maneuverability, and comes with washable, reusable microfiber pads. This versatile mop is suitable for various hard floor surfaces including hardwood, tile, wood, laminate, vinyl, and marble.

Image: Complete EXEGO Microfiber Spray Mop set, including the mop, refillable bottle, cleaning tool, and three microfiber pads (two blue, one green).

SETUP AND ASSEMBLY

Follow these steps to assemble your EXEGO Spray Mop and prepare it for use:

1. **Assemble the Handle:** Connect the pole sections by inserting them firmly until they click into place. Ensure all connections are secure.
2. **Attach the Mop Head:** Align the mop head with the bottom of the assembled pole and press down firmly until it locks into position.
3. **Insert the Water Bottle:** The refillable bottle slides into the designated slot on the mop handle. Push it in until it is securely seated.

4. **Attach a Mop Pad:** Select a clean microfiber mop pad. Align the pad with the bottom of the mop head and press it firmly onto the Velcro strips. The strong Velcro system ensures the pad stays in place during cleaning.

Image: Visual guide demonstrating the four assembly steps: inserting the pole, pressing the bottle down, inserting the mop head, and attaching the mop pads.

Filling the Bottle

To fill the bottle, gently pull it out from the mop handle. Unscrew the cap and fill with your preferred cleaning solution or water. The bottle has a capacity of 440ml (14.87 oz). After filling, securely screw the cap back on and reinsert the bottle into the mop handle.

Important Note:

- Full inspection is performed before leaving the factory; residual water droplets in the bottle are normal.
- Before using thick cleaning solutions, please fully dilute them with water.
- Do not add strong bases, acids, boiling water, or concentrates directly to the bottle.

OPERATING INSTRUCTIONS

The EXEGO Spray Mop is designed for ease of use, providing efficient cleaning for various floor types.

Spraying Function

To activate the spray, simply press the sensitive trigger located on the handle. The mop will dispense a fine mist of your cleaning solution onto the floor directly in front of the mop head. This allows for controlled application and prevents over-saturation of surfaces.

ONE HAND OPERATION
Saving Time and Effort
for Housewife /Housekeeper

Image: A woman demonstrating the one-hand operation of the spray mop, highlighting the ease of use for housewives and housekeepers.

Maneuverability and Reach

The mop features a 360° rotating head, allowing it to easily reach under furniture, into tight corners, and around obstacles. This design ensures thorough cleaning in hard-to-reach areas without excessive bending or straining.

NO LEAKAGE & REFILLABLE BOTTLE

! PLEASE NOTE

- 1 Full inspection before leaving the factory, residual water droplets are normal.
- 2 Before using thick cleaning solutions, please fully dilute it with water.

Multi-Surface Cleaning

This mop is suitable for a wide range of hard floor surfaces, including:

- Hardwood
- Tile
- Wood
- Laminate
- Vinyl
- Marble
- Ceramic
- Stone
- Cement
- Bamboo
- Glass (for windows or large glass surfaces)

It effectively removes dirt, pet hair, stains, and dust, making it ideal for residential and commercial cleaning in kitchens, bathrooms, restaurants, offices, apartments, and studios.

MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your EXEGO Spray Mop.

Cleaning the Microfiber Pads

The included microfiber pads are machine washable and reusable. After use, simply detach the soiled pad from the mop head. You can wash them in a washing machine with similar colors. Air drying is recommended to preserve the microfiber quality, or tumble dry on low heat. Avoid using fabric softeners as they can reduce the pads' absorbency.

MICROFIBER MOP PADS COMPATIBLE WITH POWERMOP

Image: Detailed view of the microfiber mop pads, highlighting their strong Velcro system, thickened sponge for wet and dust use, and strengthened edge wrapping.

Bottle Care and Storage

Always empty the refillable bottle when the mop is not in use to prevent residue buildup and potential leakage. Rinse the bottle thoroughly with water after each use, especially if using cleaning solutions other than plain water. Store the mop in a dry place, away from direct sunlight and extreme temperatures.

TROUBLESHOOTING

If you encounter any issues with your EXEGO Spray Mop, refer to the common problems and solutions below:

Problem	Possible Cause	Solution
No spray or weak spray	<ul style="list-style-type: none"> Bottle is empty or low on liquid. Nozzle is clogged. Bottle not properly seated. 	<ul style="list-style-type: none"> Refill the bottle with water or diluted cleaning solution. Clean the spray nozzle with a small brush or pin to remove any blockages. Ensure the bottle is pushed firmly into its slot until secure.
Mop head not rotating smoothly	<ul style="list-style-type: none"> Debris caught in the swivel mechanism. Mechanism requires lubrication. 	<ul style="list-style-type: none"> Inspect and remove any hair or debris from around the swivel joint. Apply a small amount of silicone-based lubricant to the swivel joint if necessary.
Mop pads not sticking	<ul style="list-style-type: none"> Velcro on pad or mop head is dirty. Pads are worn out. 	<ul style="list-style-type: none"> Clean the Velcro strips on both the pad and the mop head. Replace with new microfiber pads if the Velcro is no longer effective.
Handle feels loose or comes undone	<ul style="list-style-type: none"> Sections not fully connected. 	<ul style="list-style-type: none"> Ensure all pole sections are firmly inserted and clicked into place during assembly. Apply sufficient force to secure connections.
