mooas Visual Shower Clock Digital Bathroom Timer

Model: 102590

Brand: mooas

1. INTRODUCTION

The mooas Visual Shower Clock is a multi-functional digital device designed for use in various environments, including kitchens and bathrooms. It features a clock, timer, and displays both temperature and humidity. Its waterproof design (IPX5) ensures safe operation in wet conditions. The large, clear LCD screen provides excellent visibility, and the intuitive touch buttons allow for easy operation. This manual provides detailed instructions for setup, operation, and maintenance of your device.

2. PACKAGE CONTENTS

- Main body (mooas Visual Shower Clock)
- Wall mount hook
- User Manual

3. PRODUCT FEATURES

- Multi-functional device: Timer, Clock, Temperature, and Humidity display.
- Large and clear LCD screen for optimal readability.
- Visual Timer Ring to intuitively show time progression.
- Fast and simple timer setting with dedicated 10min, 1min, and 10sec buttons.
- Backlight display for visibility in low-light conditions.
- Multiple placement options: Standing, Wall mount, and Magnet attachment.
- Silent Mode for use in quiet environments.
- 3-Level Alarm Volume Control (Silent/Minimum/Maximum).
- IPX5 waterproof rating for safe use in kitchen and bathroom.

4. SETUP

4.1 Battery Installation

1. Locate the battery compartment on the back of the device.
2. Open the battery cover.

3. Insert 2 AAA batteries (not included), ensuring correct polarity (+/-).
4. Close the battery cover securely.

Note: Ensure the battery compartment is sealed properly to maintain the device's waterproof integrity.

4.2 Initial Settings (Time, Date, Temperature Unit)

Upon first power-on or after battery replacement, you may need to set the time, date, and preferred temperature unit.

- **Setting Time and Date:** Press and hold the '10min' button to enter time setting mode. Use the '1min' and '10sec' buttons to adjust the values. Press 'ST/SP' to confirm and move to the next setting (e.g., hour, minute, year, month, day).
- **Setting Temperature Unit:** The device displays temperature in Celsius (°C) or Fahrenheit (°F). To switch between units, press and hold the '1min' and '10sec' buttons simultaneously until the unit changes.

5. OPERATING INSTRUCTIONS

5.1 Timer Function

The device features a countdown timer with a visual ring indicator.

1. **Setting the Timer:** Use the '10min', '1min', and '10sec' buttons to add time to the timer. Each press adds the corresponding duration.

2. **Starting/Pausing the Timer:** Press the 'ST/SP' button to start the countdown. Press it again to pause the timer.
3. **Resetting the Timer:** While the timer is paused or stopped, press and hold the 'ST/SP' button to reset the timer to zero.
4. **Count-up Function:** If the timer is started from 00:00, it will function as a count-up timer.

7. MAINTENANCE

- **Cleaning:** Wipe the device with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Battery Replacement:** Replace batteries when the low battery indicator appears on the display. Ensure the battery compartment is sealed tightly after replacement.
- **Storage:** If storing the device for an extended period, remove the batteries to prevent leakage.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Display is blank or dim.	Low batteries or incorrect battery installation.	Replace batteries with new AAA batteries, ensuring correct polarity.
Timer buttons are unresponsive.	Water droplets on the touch buttons.	Wipe the screen and buttons dry. Ensure hands are dry when operating.
Incorrect time/date displayed.	Time/date not set or reset after battery change.	Refer to Section 4.2 to set the correct time and date.
Alarm sound is too low or off.	Volume setting is on Minimum or Silent.	Adjust the alarm volume using the side button (refer to Section 5.2).
