

## HARIO PES-02-B

# HARIO PES-02-B Pegasus Server Instruction Manual

Model: PES-02-B | Capacity: 600ml (2-5 Cups)

## 1. INTRODUCTION

---

Thank you for purchasing the HARIO PES-02-B Pegasus Server. This server is designed for convenience and durability, featuring a slim, vertical design, a large ergonomic handle, and microwave-safe heat-resistant glass. It is ideal for serving freshly brewed coffee or tea and reheating beverages.

## 2. SAFETY INFORMATION

---

- **Heat-Resistant Glass:** The server body is made of heat-resistant glass. Avoid sudden temperature changes, such as placing a hot server on a cold, wet surface or pouring cold liquid into a hot server, as this may cause breakage.
- **Microwave Use:** This server is microwave safe for reheating beverages. Ensure the lid is properly placed when microwaving. Do not use the server on direct heat sources like stovetops or open flames.
- **Handling Hot Liquids:** Always handle the server with care when it contains hot liquids. Use the handle provided.
- **Cleaning:** Refer to the cleaning instructions to prevent damage. Do not use abrasive cleaners or scourers that could scratch the glass.
- **Children:** Keep out of reach of children, especially when hot.

## 3. PRODUCT COMPONENTS

---

The HARIO PES-02-B Pegasus Server consists of the following parts:

- **Server Body:** Made of heat-resistant glass with capacity markings.
- **Lid:** Made of polypropylene, designed with a non-slip knob.
- **Handle:** Integrated with the server body, made of polypropylene for an ergonomic grip.

## 4. SETUP

---

1. **Unpack:** Carefully remove all components from the packaging.
2. **Initial Cleaning:** Before first use, wash the server body and lid thoroughly with warm water and mild dish soap. Rinse completely and dry.
3. **Assembly:** Place the lid securely onto the server body. The server is now ready for use.

## 5. OPERATING INSTRUCTIONS

---

### 5.1 Brewing and Serving Coffee/Tea

1. **Place Dripper:** Position your preferred coffee dripper directly onto the server opening.
2. **Brew:** Brew coffee or tea according to your dripper's instructions. The server's capacity markings (in ml) will help you monitor the volume.
3. **Serve:** Once brewing is complete, remove the dripper. Hold the server by its large, ergonomic handle and pour the beverage into cups. The design allows for smooth pouring.

### 5.2 Using the Lid as a Dripper Holder

The server's lid is designed with a non-slip knob that can be inverted to serve as a temporary dripper holder after brewing, preventing drips on your counter.

1. **Remove Lid:** Take the lid off the server.
2. **Invert Lid:** Flip the lid upside down. The knob will now act as a base.
3. **Place Dripper:** Place the used dripper onto the inverted lid to catch any remaining drips.

### 5.3 Reheating in Microwave

The HARIO Pegasus Server is microwave safe, allowing you to reheat cold coffee or tea.

1. **Ensure Lid is On:** Place the lid securely on the server before microwaving.
2. **Microwave:** Heat in the microwave for a short duration, checking temperature periodically to avoid overheating.
3. **Serve:** Carefully remove from the microwave using the handle and serve.

## 6. CLEANING AND MAINTENANCE

---

- **Hand Washing:** It is recommended to hand wash the server body and lid with warm water and a mild dish soap. Use a soft sponge or cloth to prevent scratching the glass.
- **Rinsing:** Rinse all components thoroughly to remove any soap residue.
- **Drying:** Dry immediately with a soft cloth or allow to air dry completely to prevent water spots.
- **Stains:** For stubborn coffee or tea stains, a solution of warm water and a small amount of baking soda or white vinegar can be used. Rinse thoroughly afterward.
- **Avoid Abrasives:** Do not use abrasive cleaners, metal scourers, or harsh chemicals, as these can damage

the glass and plastic components.

## 7. TROUBLESHOOTING

---

- **Server feels unstable:** Ensure the server is placed on a flat, stable surface. The vertical design is inherently stable.
- **Lid does not fit securely:** Check for any debris or damage on the lid or server rim. Ensure the lid is aligned correctly before pressing down.
- **Coffee cools too quickly:** This server is not designed as a thermal carafe. For best heat retention, pre-heat the server with hot water before brewing.

## 8. SPECIFICATIONS

---

<b>Model Name</b>	PES-02-B
<b>Brand</b>	HARIO
<b>Material</b>	Heat-resistant Glass (Body), Polypropylene (Lid, Handle)
