Labelife DK-2205

Labelife Compatible Brother DK-2205 Continuous Label Tape User Manual

Model: DK-2205 | Brand: Labelife

1. INTRODUCTION

This user manual provides detailed instructions for the Labelife Compatible Brother DK-2205 Continuous Label Tape. It covers product specifications, compatibility, installation procedures, and various applications to ensure optimal performance with your compatible label printer.

2. PRODUCT OVERVIEW

The Labelife DK-2205 continuous label tape is designed for a variety of labeling needs. Each roll measures 62mm x 30.48m (2.4 inches x 100 feet) and features black text on a white paper background. This package includes 6 label rolls and 1 reusable frame for installation.

4. SETUP AND INSTALLATION

Follow these steps to properly install the Labelife DK-2205 continuous label tape into your compatible Brother QL printer:

- Step 1: Prepare Components** - Identify the paper roll, support tube, sensor, and bead components of the reusable ink cartridge.
- Step 2: Assemble Support Frame** - Install the support board and support tube. Align the bulge on the support tube precisely with the hole on the support board.
- Step 3: Insert Label Roll** - Put the label roll onto the assembled support tube. Ensure the identification code on the label roll and the sensor are positioned correctly on the right side.
- Step 4: Verify Sensor Model Number** - Confirm that the sensor model number (e.g., "2205") is consistent with the number printed on the label roll.

5. **Step 5: Align Notches** - Align the notches on the sensor component with the corresponding slots on the label roll's core while inserting.
6. **Step 6: Install Sensor** - Fully install the sensor into the support tube, ensuring a secure fit. The assembled unit is now ready to be inserted into your label printer.

5. OPERATING INSTRUCTIONS (USAGE)

The Labelife DK-2205 continuous label tape offers versatility for various applications. Once installed in your compatible printer, you can print labels of custom lengths as needed.

Key Features for Optimal Use:

- **Clear Printing:** Produces dark and sharp text and graphics for easy readability.
- **Strong Adhesive:** Labels adhere firmly to most surfaces for extended periods.
- **Durability:** Resistant to water, oil, and friction, ensuring longevity of printed information.
- **Custom Lengths:** Continuous roll allows for creation of labels in any desired length.

Smooth Printing

Print Clearly, Strong Adhesive, Oil Proof, Waterproof,
Anti-Scratch, Bright White

Common Applications:

- **Shipping Labels:** Ideal for packages, envelopes, and mail.
- **Address Labels:** For personal or business correspondence.
- **Barcode/SKU Labels:** For product tracking and identification.
- **File Folder Labels:** For organizing documents and office supplies.
- **General Multipurpose Labels:** Suitable for signs, cabinet labels, instruction labels, and more.

Label Type	Continuous Length Paper Labels
Dimensions	62mm x 30.48m (2.4 inches x 100 feet) per roll
Color	Black print on White paper
Material Type	Thermal adhesive paper

Number of Rolls	6 rolls + 1 reusable frame
Product Dimensions (Package)	6.69 x 6.69 x 5.71 inches
Item Weight (Package)	4.73 pounds

7. MAINTENANCE AND STORAGE

To maintain the quality and performance of your Labelife DK-2205 label rolls, observe the following guidelines:

- Store label rolls in a cool, dry place away from direct sunlight and excessive heat.
- Keep rolls in their original packaging or sealed in the provided black plastic bags to protect them from dirt, yellowing, and light exposure.
- Ensure the reusable frame is clean and free of debris before each installation to prevent printer jams or damage.

Image: Six individual rolls of Labelife DK-2205 label tape, each securely wrapped in a black plastic bag for protection against environmental factors.

8. TROUBLESHOOTING

If you encounter issues while using the Labelife DK-2205 label tape, consider the following common solutions:

- **Printing Issues (Fading/Smearing):** Ensure the label roll is correctly installed and the printer's thermal head is clean. Verify printer settings are appropriate for continuous labels.
- **Label Jams:** Check for proper installation of the label roll and reusable frame. Ensure no debris is obstructing the label path within the printer.
- **Labels Not Sticking:** Confirm the application surface is clean, dry, and smooth. The labels feature a strong adhesive, but extreme conditions or unsuitable surfaces may affect adhesion.
- **Incorrect Label Length:** Verify your printer software settings for continuous labels are configured to the desired length.

For further assistance, please refer to your Brother QL printer's specific user manual or contact Labelife customer support.
