

## Atomi Alpha/Alpha Lite

# Atomi Electric Scooter User Manual

Models: E20, E30, Alpha Lite

## 1. INTRODUCTION

This user manual provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your Atomi Electric Scooter. Please read this manual thoroughly before using the scooter to ensure proper function and to prevent injury or damage.

The Atomi Electric Scooter is designed for personal commuting, offering a blend of power, range, and portability. It features a durable aircraft-grade aluminum frame, a powerful motor, and advanced safety features.

## 2. SAFETY GUIDELINES

**WARNING: Always wear a helmet and appropriate safety gear when riding. Adhere to local laws and regulations regarding electric scooter usage.**

### 2.1 General Safety

- Ensure all components are securely fastened before each ride.
- Do not ride in heavy rain or through standing water. The scooter is IP65 certified for water resistance, but not fully submersible.
- Maintain a safe distance from other vehicles and pedestrians.
- Avoid sudden braking or sharp turns at high speeds.
- Do not exceed the maximum weight limit of 265 lbs.

### 2.2 Battery Safety

- Use only the original charger provided with the scooter.
- Do not attempt to open or modify the battery pack.
- Charge the battery in a well-ventilated area, away from flammable materials.
- Avoid exposing the battery to extreme temperatures.

### 3. SETUP AND ASSEMBLY

---

Your Atomi Electric Scooter comes partially assembled. Follow these steps to complete the setup:

1. **Unboxing:** Carefully remove the scooter and all accessories from the packaging. Inspect for any visible damage.
2. **Handlebar Installation:** Lift the handlebar stem to the upright position until it clicks into place. Secure the folding mechanism latch.
3. **Initial Charge:** Connect the charger to the scooter's charging port and then to a power outlet. The indicator light on the charger will change when fully charged (approx. 6 hours).
4. **Tire Check:** Although the 9-inch honeycomb tires are puncture-proof and do not require inflation, visually inspect them for any damage or debris before your first ride.

## 4. OPERATING INSTRUCTIONS

## 4.1 Power On/Off

Press and hold the power button on the LCD display dashboard to turn the scooter on or off.

## 4.2 Riding Modes

The scooter features multiple riding modes. Press the mode button to cycle through them:

- **Eco Mode:** For extended range and energy efficiency.
- **Standard Mode:** Balanced performance for daily commuting.
- **Sport Mode:** Maximum speed (up to 15.6 mph) and acceleration for dynamic riding.

## 4.3 Acceleration and Braking

Use the thumb throttle on the right handlebar to accelerate. The scooter is equipped with a drum brake and a regenerative E-ABS anti-lock braking system for effective stopping power. Apply the brake lever on the left handlebar to slow down or stop.

## 5. MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your scooter.

- **Cleaning:** Wipe down the scooter with a damp cloth after each use. Avoid using high-pressure water jets.
- **Battery Care:** Charge the battery regularly, even if not in use, to maintain its health. Store the scooter in a cool, dry place.
- **Brake Inspection:** Periodically check the brake system for proper function and wear. Adjust or replace components as needed.
- **Fastener Check:** Ensure all screws and bolts are tight and secure.

## 6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Scooter does not power on	Low battery; Power button not pressed correctly	Charge the battery; Press and hold the power button firmly
Reduced range/speed	Low battery; Overload; Riding uphill frequently	Fully charge battery; Reduce load; Use appropriate riding mode
Brakes not effective	Brake cable loose; Brake pads worn	Adjust brake cable tension; Replace brake pads

## 7. SPECIFICATIONS

**Model:** Alpha/Alpha Lite (also E20/E30 variants)

**Motor:** Max 650W Powerful Rear Motor

**Battery:** 36V 7.8Ah 280WH Lithium-ion

**Max Speed:** Up to 15.6 Mph

**Max Range:** Up to 18.6 Miles

**Charging Time:** Approx. 6 hours (with 2A charger)

**Weight Limit:** 265 Pounds

**Tires:** 9-inch Honeycomb Puncture-Proof Tubeless Tires

**Frame Material:** Aircraft-grade Aluminum

**Braking System:** Drum Brake + Regenerative E-ABS Anti-lock Braking System

**Water Resistance:** IP65 Certified

**Special Features:** Cruise Control, LCD Display, Smart App Control, 14 Colorful Ambient Light Modes, Built-in Combination Lock, Rear Turning Indicators
