Palace Imports Solid Wood Kitchen Pantry Cabinet - Instruction Manual

Model: 953x | Variant: Grey 6 Doors (Wood)/NO Drawers – 48.5" Wide

INTRODUCTION

This instruction manual provides detailed guidance for the assembly, operation, and maintenance of your Palace Imports Solid Wood Kitchen Pantry Cabinet. Crafted from 100% solid Brazilian pine, this cabinet offers durable and elegant storage for your home. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

Key features of your cabinet include:

- 100% solid wood construction from renewable, eco-friendly Brazilian pine.
- Four large and four small adjustable solid wood shelves for flexible storage.
- Six wooden raised panel doors with European soft-closing stainless steel hinges.
- Freestanding design with an included anti-tipping anchor for enhanced safety.

SAFETY INFORMATION

WARNING:

- This product contains small parts and is not suitable for children under 3 years old. Adult supervision is required during assembly and use.
- This kitchen pantry includes a tip-over restraint device that**must** be securely attached to the wall as instructed in the assembly section to prevent serious injury.
- Always ensure the cabinet is placed on a level surface.
- Do not overload shelves. Distribute weight evenly.

PACKAGE CONTENTS

Before beginning assembly, verify that all components are present and undamaged. If any parts are missing or damaged, please contact customer support immediately.

- Cabinet Panels (sides, top, bottom, back)

- European Soft-Closing Stainless Steel Hinges

- 4 Large Adjustable Solid Wood Shelves
- 4 Small Adjustable Solid Wood Shelves
- 32 Metal Shelf Pegs
- Assembly Hardware (screws, cam locks, dowels, etc.)
- Door Knobs
- Tip-Over Restraint Device
- Assembly Instructions

SETUP AND ASSEMBLY

Your Palace Imports pantry cabinet ships ready-to-assemble (RTA) in multiple boxes. Follow the included detailed instructions step-by-step for proper assembly. Basic tools such as a Phillips head screwdriver and a hammer may be required.

Important: Assemble the cabinet on a soft, clean surface to prevent scratching. Do not overtighten screws.

Figure 1: Assembly Diagram. This diagram illustrates the overall dimensions and internal layout of the cabinet, including shelf placement and door configurations. Note the 71.5" height and 48.5" width.

Figure 2: Fully Assembled Cabinet. A fully assembled Palace Imports Solid Wood Kitchen Pantry Cabinet in a grey finish, showcasing its six doors and overall design.

Wall Anchoring

For safety, it is crucial to secure the cabinet to a wall using the provided anti-tipping restraint device. Follow these general steps:

1. Position the assembled cabinet in its desired location.
2. Mark the wall where the restraint device will attach, ensuring it aligns with a wall stud if possible.
3. Drill pilot holes in the wall and the cabinet as per the specific instructions included with the restraint kit.
4. Securely fasten the restraint device to both the cabinet and the wall.

This step is vital to prevent the cabinet from tipping over, especially in households with children or pets.

OPERATING INSTRUCTIONS

Adjusting Shelves

Your cabinet is equipped with adjustable shelves to accommodate items of various sizes. To adjust a shelf:

1. Empty the shelf of all contents.
2. Carefully lift the shelf and remove the four metal pegs supporting it.
3. Reposition the shelf to the desired height, aligning it with the pre-drilled holes.
4. Insert the metal pegs into the corresponding holes to support the shelf. Ensure all four pegs are fully inserted and the shelf is stable before placing items on it.

Door Operation

The cabinet doors feature European soft-closing stainless steel hinges. These hinges allow for smooth and quiet closing. To ensure longevity and proper function, avoid forcing the doors shut. If a door does not close properly or appears misaligned, minor adjustments can be made to the hinges (refer to hinge manufacturer's instructions or a general guide for hinge adjustment).

MAINTENANCE

Proper care will ensure your Palace Imports solid wood cabinet remains beautiful for years to come.

- **Cleaning:** Regularly wipe surfaces with a soft, slightly damp cloth. For stubborn marks, use a mild wood cleaner. Avoid harsh chemicals, abrasive cleaners, or excessive moisture, as these can damage the wood finish.
- **Spills:** Promptly wipe up any spills to prevent staining or water damage.
- **Environment:** Protect the cabinet from direct sunlight and extreme temperature or humidity changes, which can cause warping, cracking, or fading of the wood.
- **Hardware:** Periodically check all screws and hardware to ensure they are tight. Retighten as necessary.

TROUBLESHOOTING

Door Misalignment

If doors do not align properly or do not close smoothly, the hinges may need adjustment. European soft-closing hinges typically have three adjustment screws that control horizontal, vertical, and depth alignment. Consult the hinge manufacturer's instructions or a general guide for hinge adjustment. Small adjustments can often resolve alignment issues.

Unstable Shelves

Ensure all four metal pegs supporting each shelf are fully inserted into the corresponding holes in the cabinet sides. If a shelf still feels unstable, remove items, re-insert the pegs, and verify the shelf is level.

Missing or Damaged Parts

If you discover any missing or damaged parts during assembly, please do not proceed with assembly. Contact Palace Imports customer service immediately for assistance.

SPECIFICATIONS

Attribute	Detail
