

Bruni Akuvox R28

Bruni Screen Protector for Akuvox R28 - Instruction Manual

Model: Akuvox R28 Compatible Protective Film

1. INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your Bruni Screen Protector designed for the Akuvox R28 device. Please read these instructions carefully before proceeding with the installation to ensure optimal performance and longevity of the protective film.

2. PRODUCT OVERVIEW

The Bruni Screen Protector for Akuvox R28 is a crystal clear protective film engineered to safeguard your device's display from scratches and impacts. Manufactured from highly transparent PET material, it ensures unadulterated display content and maintains touch sensitivity. The film is designed for easy, bubble-free application and residue-free removal.

3. SETUP AND INSTALLATION

Follow these steps for a successful, bubble-free installation of your Bruni Screen Protector:

3.1. What's Included

Your package should contain the following items:

- Bruni Screen Protector films (2X)

- Microfiber cleaning cloth
- Mounting tool (squeegee)
- Detailed installation instructions (paper manual)

PROTECT YOUR VALUABLE DEVICE!

Since 2007, Bruni has stood for high-quality screen protection that sets standards. Our protective films are custom-fit, durable and innovative – developed for the perfect protection of your device.

3.2. Installation Steps

1. **Prepare the Workspace:** Ensure you are in a clean, dust-free environment. Wash your hands thoroughly to avoid transferring oils or dirt to the screen or protector.
2. **Clean the Device Screen:** Use the provided microfiber cloth to meticulously clean the Akuvox R28 screen. Ensure all dust, smudges, and fingerprints are removed. A clean screen is crucial for a bubble-free application.
3. **Align the Protector:** Carefully peel back a small portion of the protective layer (usually marked "1" or "Back") from one end of the screen protector. Align the exposed edge of the screen protector with the corresponding edge of your Akuvox R28 screen. Take your time to ensure precise alignment with all cutouts and edges.
4. **Apply the Protector:** Slowly and steadily peel off the remaining protective layer while simultaneously applying the screen protector to the device screen. Use the included mounting tool (squeegee) to gently press down and smooth out the film as you apply it, pushing any air bubbles towards the edges.
5. **Remove Air Bubbles:** If any small air bubbles remain, use the squeegee to push them towards the nearest edge of the screen. For stubborn bubbles, you may gently lift a corner of the protector and reapply, smoothing it down with the squeegee.
6. **Final Touches:** Once the protector is fully applied and free of bubbles, gently peel off the top protective layer (usually marked "2" or "Front").

FASTER-TOUCH

Lightning fast, highly sensitive and precise

4. OPERATION

Once installed, the Bruni Screen Protector is designed to be fully transparent and maintain the original touch sensitivity of your Akuvox R28 display. You should experience no degradation in screen clarity or responsiveness.

A dark-themed graphic with the word 'BENEFITS' in large white letters at the top. Below it are six icons and their corresponding text: a hand with stars for 'Simple installation', a fingerprint for 'Sensitive Touch', a key for 'Safe and scratch-resistant', a magnifying glass for 'Clear Colors', a map of Germany for 'Made in Germany', and a hand holding a curved object for 'Maximum Shatterproof'.

BENEFITS

-  Simple installation
-  Sensitive Touch
-  Safe and scratch-resistant
-  Clear Colors
-  Made in Germany
-  Maximum Shatterproof

Image 5: A finger touching a vibrant screen, demonstrating the screen protector's ability to maintain high touch sensitivity and display clarity.

5. MAINTENANCE

To keep your Bruni Screen Protector clean and clear, follow these simple maintenance guidelines:

- Use a soft, lint-free cloth (like the one provided) to gently wipe the screen protector.
- For stubborn smudges, slightly dampen the cloth with water or a screen-safe cleaning solution. Avoid harsh chemicals or abrasive materials.
- Do not apply excessive pressure when cleaning, as this could potentially dislodge the protector or damage the underlying screen.

6. TROUBLESHOOTING

6.1. Air Bubbles After Installation

If small air bubbles remain after installation, they often disappear naturally within 24-48 hours as the film fully adheres. For larger or persistent bubbles:

- Use the squeegee to gently push the bubble towards the nearest edge.
- If a bubble is caused by a dust particle, carefully lift the nearest edge of the protector with a piece of tape, use another piece of tape to dab the dust particle off the screen or protector, then reapply.

6.2. Misalignment

If the screen protector is significantly misaligned, it is best to carefully peel it off, clean the screen again, and attempt reinstallation with a fresh film (if a spare is provided). The Bruni protector is designed for residue-free removal and repositioning.

7. SPECIFICATIONS

Brand	Bruni
Compatible Device	Akuvox R28
Material	Polyethylenterephthalat (PET)
Item Hardness	4H
Transparency	Crystal Clear
Special Features	Scratch-resistant, Bubble-free application, Residue-free removable, Optimized for touch displays, Made in Germany
Product Dimensions	4.3"L x 2.7"W (approximate, for Akuvox R28 screen)
Number of Items	2 (films)
