6. MAINTENANCE

Proper maintenance ensures the longevity and performance of your power bank.

- Cleaning:** Use a soft, dry cloth to clean the exterior of the power bank. Do not use harsh chemicals or abrasive cleaners.

- **Storage:** Store the power bank in a cool, dry place away from direct sunlight and extreme temperatures. If storing for extended periods, charge the power bank to about 50-70% every 3 months to maintain battery health.
- **Avoid Over-Discharge:** Do not allow the power bank to completely drain its battery frequently, as this can reduce its lifespan.

7. TROUBLESHOOTING

If you encounter issues with your SLuB SK20 Mobile Power Bank, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Power bank not charging	Cable or adapter issue; power bank fully charged; faulty port.	Check cable and adapter connections. Try a different cable or adapter. Ensure the power bank is not already at 100%. Try a different input port.
Device not charging from power bank	Power bank is empty; cable issue; device issue; incompatible device.	Recharge the power bank. Try a different charging cable. Ensure your device is functioning correctly. Verify device compatibility.
Slow charging	Non-fast charging cable/adapter; device not supporting fast charge; multiple devices charging.	Use a fast-charging compatible cable and adapter. Ensure your device supports fast charging. Charging multiple devices simultaneously may reduce individual charging speeds.
LED light not working	Not activated correctly; malfunction.	Press and hold the power button for a few seconds to activate. If it still doesn't work, contact customer support.

If the problem persists after trying these solutions, please contact SLuB customer service for further assistance.
