XREXS 080RGBLY

XREXS Large Digital Wall Clock Instruction Manual

Model: 080RGBLY

1. PRODUCT OVERVIEW

The XREXS Large Digital Wall Clock (Model: 080RGBLY) is a versatile and modern timekeeping device designed for various environments such as homes, gyms, and classrooms. It features a large 17.2-inch LED display with dynamic RGB color-changing capabilities and automatic brightness adjustment. Key functionalities include Bluetooth time synchronization, multiple display modes, and a convenient remote control.

The XREXS Large Digital Wall Clock showcasing its vibrant RGB display and Bluetooth synchronization feature.

2. SETUP INSTRUCTIONS

2.1 Unpacking and Placement

Carefully remove the clock and all accessories from the packaging. The clock can be placed on a tabletop or shelf using its fold-out backstand, or wall-mounted using the two keyholes on the back. Ensure the clock is placed near a power outlet.

Bluetooth Wireless Connection Precise Auto Sync Time

Product dimensions and included remote control for easy setup and operation.

2.2 Power Connection

Connect the provided power plug to the clock and then to a standard electrical outlet. The clock will power on automatically.

2.3 Bluetooth Time Synchronization

The clock supports automatic time synchronization via Bluetooth. Follow these steps:

1. Turn on your phone's Bluetooth.
2. Plug in the clock; the signal reception symbol will start flashing.
3. On your phone, search for and select the Bluetooth device named "LED CLOCK".
4. Confirm pairing. The clock will automatically synchronize its time with your phone.

The clock automatically calibrates the time three times a day to ensure accuracy. Manual Bluetooth pairing can also be initiated by pressing and holding the ST/SP and V+ buttons for 5 seconds on the clock itself.

Bluetooth Time Synchronization Connection Mode

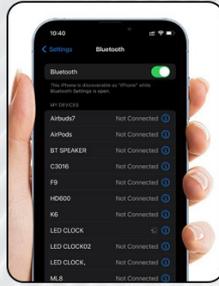

Turn on your phone's Bluetooth before pairing

Step 1

Plug in the power, and the signal reception symbol starts flashing.

Step 2

Look for the Bluetooth name "LED CLOCK" on your phone

Step 3

Confirm pairing, connect to Bluetooth, and synchronize time

Step 4

Manual Activation Of Bluetooth

Two manual methods to initiate Bluetooth pairing. (Press and hold for 5 seconds)

3. OPERATING INSTRUCTIONS

3.1 Display Modes

The clock offers multiple display modes, including time, date, and temperature. It can toggle between date and temperature every 5 seconds. You can also switch between 12-hour and 24-hour formats, and temperature display in Celsius (°C) or Fahrenheit (°F).

Multiple Display Styles

The clock's ability to display time, date, and temperature, with options for 12/24-hour format and temperature units.

3.2 Dynamic RGB Color Changing

The LED digits and letters feature 6 different single segment color patterns and 4 different multi-color patterns. Use the remote control to cycle through these options or set a custom alternating color sequence.

Dynamic RGB Display

6 Single colors & 4 Different multi-color

Explore the diverse color options and dynamic patterns available on the clock's display.

3.3 Brightness Adjustment

The clock has an automatic dimming function that adjusts brightness based on ambient light. You can also manually control the brightness using the remote control to suit your preference, especially for night viewing.

2 levels of **brightness adjustment**

Easy to read at night

High light

Low light

Adjustable brightness ensures clear visibility day or night.

3.4 Multi-Functional Features

The clock offers three primary modes: Clock, Alarm Clock, and Count Up/Down Timer. Press the 'Mode' button on the remote or the device to switch between these functions.

- **Clock Mode:** Displays current time, date, and temperature.
- **Alarm Clock Mode:** Set alarms for wake-up or reminders.
- **Count Up/Down Timer Mode:** Useful for various activities like workouts or cooking.

3.5 Daylight Saving Time (DST)

The clock features an Auto DST function, automatically adjusting for Daylight Saving Time changes (e.g., +1 hour in March-November, -1 hour in November-March).

Automatic adjustment for Daylight Saving Time.

4. MAINTENANCE

To maintain the clock's appearance and functionality, regularly wipe the display and casing with a soft, dry cloth. Avoid using abrasive cleaners or solvents. Ensure the power connection is secure and free from damage. No specific internal maintenance is required.

5. TROUBLESHOOTING

If you encounter any issues with your XREXS Digital Wall Clock, please refer to the following common problems and solutions:

- **Clock not powering on:** Ensure the power adapter is securely plugged into both the clock and a working electrical outlet.
- **Bluetooth not connecting:** Make sure Bluetooth is enabled on your device and that you are selecting "LED CLOCK" from the available devices. Try restarting both the clock and your device.
- **Incorrect time display:** Verify Bluetooth synchronization is successful. The clock automatically calibrates time, but a manual reset or re-sync might be needed if issues persist.
- **Remote control not working:** Check if the batteries in the remote control are correctly inserted and have sufficient charge. Ensure there are no obstructions between the remote and the clock.
- **Display colors not changing:** Use the "Color Switch" button on the remote control to cycle through the available color modes.

For persistent issues not covered here, please contact XREXS customer support.
