## 3. Features

The UAG Plyo Series Case incorporates several design elements for enhanced protection and usability:

- **Rugged Lightweight Construction:** Features a translucent, minimalist design with featherlight composite construction, an armor shell, and an impact-resistant soft core. The exterior is made with sleek PU material for a comfortable grip and improved durability.
- **Air-Soft Corners:** Enhanced air-soft corners are integrated to cushion impact, protecting your device from dents and scratches during drops.
- **Adjustable Kickstand:** The folio cover is designed to double as a multi-position kickstand, allowing you to adjust your tablet to various angles for viewing, typing, or video calls.
- **Precision Fit & Portability:** Precise cutouts ensure full access to all ports and the camera lens. A raised protective screen lip safeguards the screen and lens. The case includes a dedicated Apple Pencil holder that supports Apple Pencil pairing and charging.

- **Military Drop Protection:** This case meets military drop test standards (MIL STD 810G 516.6), providing certified protection against drops and impacts.

## 4. Setup

To install your iPad Pro 11" into the UAG Plyo Series Case:

1. Ensure your iPad is clean and free of debris.
2. Align the iPad with the case, starting with the camera cutout.
3. Gently press the iPad into the case, working your way around the edges until it is fully seated. The case is designed for a snug fit to ensure maximum protection.
4. Verify that all ports, buttons, and the camera are correctly aligned with the case's cutouts.

To remove your iPad from the case, carefully peel back one corner of the case and gently work your way around the edges until the iPad can be lifted out.

## 5. Operating

The UAG Plyo Series Case offers practical functionality for daily use:

- **Using the Adjustable Kickstand:** Fold the folio cover back and utilize the integrated stand mechanism to position your iPad at various viewing or typing angles. The notched points on the back of the case provide stability for multiple stand positions.
- **Apple Pencil Storage:** Place your Apple Pencil in the dedicated holder located on the side of the case. This holder secures the pencil and allows for wireless pairing and charging.

## 6. Maintenance

To ensure the longevity and appearance of your UAG Plyo Series Case:

- **Cleaning:** Wipe the case regularly with a soft, damp cloth. For tougher stains, a mild soap solution can be used. Avoid harsh chemicals or abrasive cleaners, as these may damage the material.
- **Storage:** When not in use, store the case in a cool, dry place away from direct sunlight to prevent material degradation.
- **Inspection:** Periodically inspect the case for any signs of wear or damage, especially after significant impacts, to ensure continued protection.

## 7. Troubleshooting

If you encounter any issues with your UAG Plyo Series Case, consider the following:

- **Difficulty Installing/Removing iPad:** The case is designed for a secure fit. Ensure you are applying even pressure when installing and gently peeling back corners when removing. Do not force the iPad, as this may cause damage.
- **Ports or Buttons Not Accessible:** Double-check that your iPad model is compatible with the case (refer to Section 2) and that the iPad is fully seated within the case, aligning with all cutouts.
- **Stand Instability:** Ensure the folio cover is properly folded and engaged with the notched points on the back of the case for stable positioning.
