HOT TOOLS HTIR8011G

HOT TOOLS 24K Gold Professional 1" Extended Barrel Curling Iron

Model: HTIR8011G

INTRODUCTION

The Hot Tools Pro Artist 24K Gold Extended Barrel Curling Iron is designed to create long-lasting curls and waves. Its extended barrel is ideal for styling longer hair lengths and hard-to-reach sections. This 1-inch curling iron features a styling clamp for effortless, smoother ringlet curls, minimizing hair damage and accelerating styling by allowing even heat distribution across hair sections. The 24K Gold Technology ensures quick heating and consistent, durable results. The updated design provides precise control with a temperature control button and memory recall function. Multiple digital heat settings, up to 450°F, allow for customized styling suitable for all hair types.

SAFETY INFORMATION

- Keep away from water. Do not use near bathtubs, showers, basins, or other vessels containing water.
- Do not touch the hot surface of the curling iron. Always use the cool tip and handle.
- Unplug the appliance when not in use and before cleaning.
- Keep out of reach of children.
- Do not operate any appliance with a damaged cord or plug, or if the appliance malfunctions or has been dropped or damaged in any manner.
- Ensure the voltage used matches the voltage specified on the appliance.

KEY FEATURES

- **24K Gold Technology:** Provides superior, even heat for minimized damage and long-lasting styles.
- **Extended Barrel Size:** A 6-inch long 24K Gold barrel allows for styling hard-to-reach sections and longer hair lengths.
- **Reduced Hair Damage & Faster Styling:** The barrel design allows even wrapping of hair sections, ensuring every strand is heated on the first pass.
- **Multiple Digital Heat Settings:** Five digital heat levels up to 450°F for personalized styling.

- **2-Hour Auto Shut-Off:** For added safety and peace of mind.
- **Temperature Memory Recall:** Remembers your last used heat setting.

AWARD-WINNING 24K GOLD TECHNOLOGY

for fast, consistent heat that helps
safeguard hair from damage*

* Caused by overheating

Image: The 24K Gold Technology ensures fast and consistent heat, helping to protect hair from damage.

NEW EXTENDED BARREL

Style hard-to-reach
sections with even heat
for less damage*

*Than most traditional
curling irons

Image: The new extended barrel design allows for easier styling of longer hair and hard-to-reach areas.

SETUP

1. Unpack the curling iron and remove all packaging materials.
2. Ensure your hands are dry before plugging in the appliance.
3. Plug the curling iron into a standard electrical outlet. The power indicator light will illuminate.
4. Press the power button to turn on the curling iron.
5. Select your desired temperature using the temperature control buttons. Refer to the "Heat Settings for All Hair Types" guide in the Operating Instructions section for recommended temperatures.
6. Allow the curling iron to heat up. The 24K Gold Technology ensures rapid heating.

OPERATING INSTRUCTIONS

Heat Settings for All Hair Types:

Temperature	Hair Type
280°F	Fine, Straight Hair
330°F	Thin, Wavy Hair
380°F	Medium, Wavy Hair
430°F	Thick, Curly Hair
450°F	Coarse, Textured Hair

Curling Technique:

1. Ensure hair is clean, dry, and detangled. For best results, apply a heat protectant spray.
2. Divide your hair into manageable sections, typically 1-2 inches wide, depending on the desired curl tightness.
3. Open the clamp and place the end of a hair section under the clamp.
4. Roll the curling iron upwards towards the scalp, ensuring the hair is evenly wrapped around the barrel. The extended barrel accommodates longer hair.
5. Hold for 5-10 seconds, or until the curl is set. The exact time may vary based on hair type and desired curl.
6. Release the clamp and gently slide the curling iron out, allowing the curl to fall naturally.
7. Repeat for all sections of hair. For a softer look, gently run your fingers through the curls once they have cooled.

#1 Most Trusted Brand By Stylists*

*Based on Forsta Hairstylist
Survey August 2024

Image: This guide illustrates the different curl styles achievable with various barrel sizes, from super tight curls to loose waves.

MAINTENANCE

- **Cleaning:** Ensure the curling iron is unplugged and completely cool before cleaning. Wipe the barrel and handle with a soft, damp cloth. Do not use abrasive cleaners or immerse the appliance in water.
- **Storage:** Store the curling iron in a cool, dry place. Do not wrap the cord around the appliance, as this can damage the cord.
- **Cord Care:** Regularly inspect the power cord for any signs of damage. If the cord is damaged, discontinue use and contact customer support.

TROUBLESHOOTING

Problem	Possible Cause / Solution
---------	---------------------------

Problem	Possible Cause / Solution
Curling iron does not heat up.	Ensure the curling iron is properly plugged into a working electrical outlet. Check if the power button has been pressed. Verify that the outlet is receiving power (test with another appliance).
Curls are not holding or are inconsistent.	The temperature setting may be too low for your hair type. Increase the temperature gradually. Hair sections might be too large. Try smaller sections for better heat penetration. Hair may not be completely dry. Ensure hair is fully dry before styling. Not holding the iron long enough. Increase holding time slightly. Consider using a styling product or hairspray to help set the curls.
Hair gets caught or pulled.	Ensure hair is thoroughly detangled before curling. Make sure the hair section is smoothly placed under the clamp and wrapped around the barrel without tangles.
