

HOT TOOLS HTIR8010G

HOT Tools 24K Gold Professional 3/4" Extended Barrel Curling Iron User Manual

Brand: HOT TOOLS | Model: HTIR8010G

INTRODUCTION

The HOT Tools Pro Artist 24K Gold Extended Barrel Curling Iron is designed to create long-lasting curls and waves. This 3/4 inch curling iron features an extended barrel, ideal for styling longer hair lengths and hard-to-reach sections. Equipped with 24K Gold Technology, it ensures superior, even heat distribution to minimize damage and deliver consistent results. The updated design includes precise temperature control with multiple digital heat settings up to 450°F and a 2-hour auto shut-off for safety.

SAFETY INFORMATION

WARNING: To reduce the risk of burns, electrocution, fire, or injury to persons:

- Always unplug the appliance immediately after using.
- Do not use while bathing or in a shower.
- Do not place or store appliance where it can fall or be pulled into a tub or sink.
- Do not place in or drop into water or other liquid.
- If an appliance falls into water, unplug it immediately. Do not reach into the water.
- Keep away from water and flammable materials.
- Avoid contact with skin to prevent burns.
- Handle with care due to high temperature.
- Never operate this appliance if it has a damaged cord or plug, if it is not working properly, or if it has been dropped or damaged, or dropped into water.

PRODUCT FEATURES

- **24K Gold Technology:** Provides superior, even heat for minimized damage and lasting styles.

- **Extended Barrel Size:** 6-inch long barrel for styling hard-to-reach sections and longer hair lengths.
- **Less Hair Damage, Faster Styling:** The barrel size allows even wrapping of sections, heating every strand on the first pass.
- **Create Defined Curls:** This 3/4 inch curling iron is perfect for structured curls, adding shape and volume.
- **Multiple Digital Heat Settings:** 5 digital heat levels up to 450°F for personalized styling.
- **Safety Features:** Includes a 2-hour auto shut-off.
- **Convenience:** Automatic dual voltage, extra-long cool tip, and tangle-free swivel cord.

The 24K Gold Technology ensures even heat distribution for lasting curls.

The 6-inch extended barrel is designed for longer hair and hard-to-reach sections.

SETUP

1. **Unpack:** Carefully remove the curling iron from its packaging.
2. **Inspect:** Check the appliance for any visible damage. Ensure the cord and plug are intact.
3. **Placement:** Place the curling iron on a heat-resistant surface, using the integrated stand to keep the hot barrel elevated.
4. **Plug In:** Insert the plug into a suitable electrical outlet. The appliance features automatic dual voltage for international use.
5. **Power On:** Turn the curling iron on using the power switch. The indicator light will illuminate.

OPERATING INSTRUCTIONS

Temperature Settings

The curling iron offers 5 digital heat settings, allowing you to customize the temperature for your hair type. Use the temperature control button to select your desired heat level.

Heat Settings for *All Hair Types*

280°F * Fine, Straight Hair	330°F * Thin, Wavy Hair	380°F * Medium, Wavy Hair	430°F * Thick, Curly Hair	450°F * Coarse, Textured Hair
---	---	---	---	---

Recommended heat settings for various hair types.

- **280°F:** Fine, Straight Hair
- **330°F:** Thin, Wavy Hair
- **380°F:** Medium, Wavy Hair
- **430°F:** Thick, Curly Hair
- **450°F:** Coarse, Textured Hair

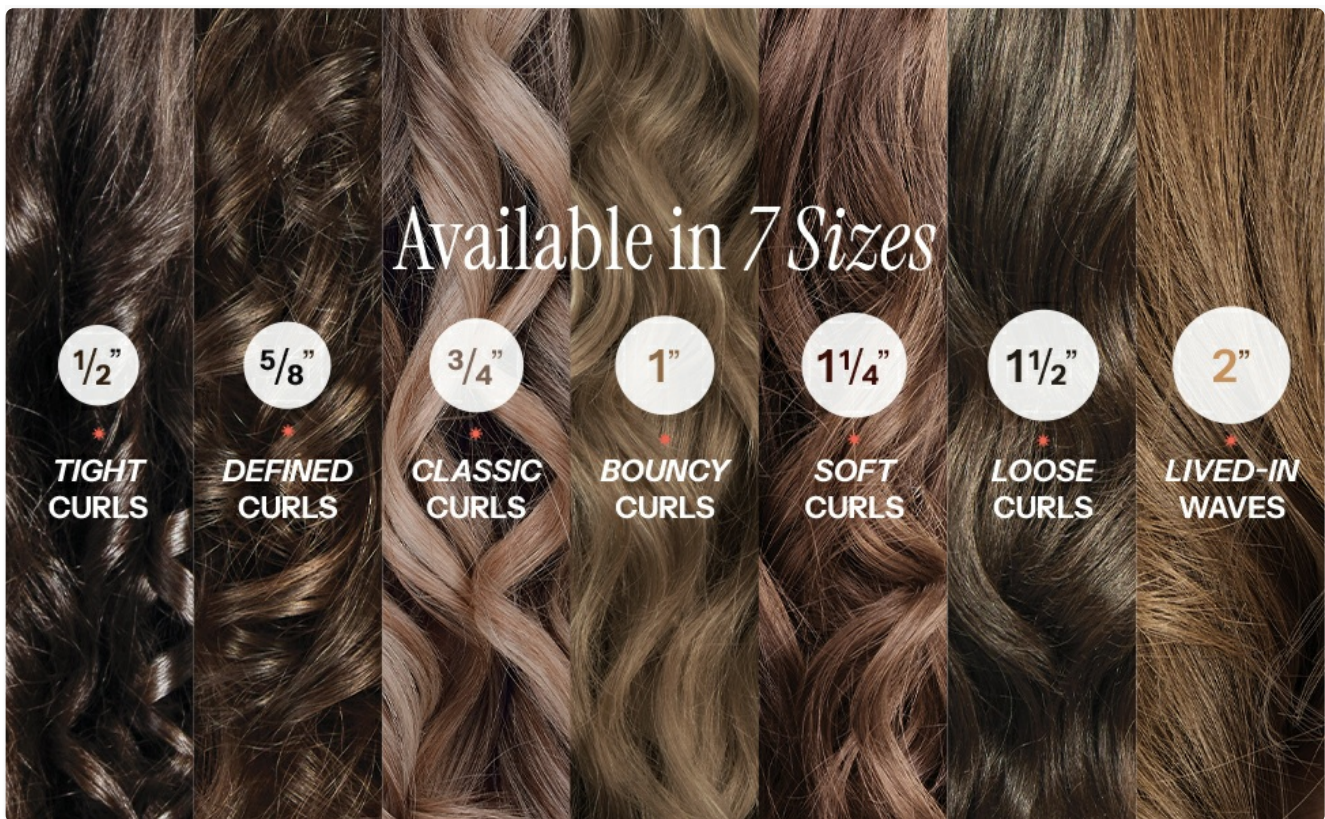

Curling Technique

1. Ensure your hair is clean, dry, and detangled. Apply a heat protectant spray if desired.
2. Section your hair into manageable portions, typically 1-2 inches wide.
3. Open the clamp and place a section of hair between the clamp and the barrel, starting a few inches from the root.
4. Close the clamp and wrap the hair around the barrel, away from your face, ensuring the hair is evenly distributed. The extended barrel provides ample space for longer strands.
5. Hold for 5-10 seconds, depending on your hair type and desired curl intensity. Use the cool tip for better control and to avoid burning your fingers.
6. Release the clamp and gently slide the curling iron out of the curl.
7. Allow the curls to cool completely before touching or styling to set the curl.

8. Repeat for all sections of hair.

The 3/4 inch barrel creates defined, structured curls.

Visual guide to curl types achievable with different barrel sizes.

MAINTENANCE

1. **Cleaning:** Ensure the curling iron is unplugged and completely cool before cleaning. Wipe the barrel with a soft, damp cloth to remove any product residue. Do not use abrasive cleaners or immerse the appliance in water.
2. **Storage:** Store the curling iron in a cool, dry place. Do not wrap the cord around the appliance, as this can damage the cord. The tangle-free swivel cord is designed for durability but should still be stored carefully.
3. **Cord Care:** Regularly inspect the power cord for any signs of damage. If the cord is damaged, discontinue use immediately and contact customer support.

TROUBLESHOOTING

- **Appliance not heating:** Ensure the curling iron is properly plugged into a working outlet and the power switch is in the 'ON' position. Check if the outlet is functional by plugging in another device.
- **Inconsistent heat:** Verify that the desired temperature setting is selected. Allow sufficient time for the iron to reach the set temperature. If issues persist, contact customer support.
- **Hair snagging:** Ensure hair is completely detangled before use. Do not wrap too much hair around the barrel at once. The clamp should hold the hair securely but not too tightly.
- **Curls not holding:** Ensure hair is completely dry. Use a higher temperature setting if your hair type requires it. Allow curls to cool completely before styling.

SPECIFICATIONS

Product Dimensions:

15.2 x 2.3 x 2.3 inches

Weight:

1.06 Pounds

Item Model Number:

HTIR8010G

UPC:

078729080108

Manufacturer:

Hot Tools

Product Benefits:

2-Hr. Auto Shut-Off, Automatic Dual Voltage, Extra-Long Cool Tip, Tangle-Free Swivel Cord, Temperature Control Button for more precision + control, Temperature Memory Recall

Max Temperature Setting:

450 Degrees Fahrenheit
