## 3. SETUP

---

### 3.1 Battery Installation

The AULCMEET YKR-P/002E remote control requires two (2) AAA alkaline batteries (not included) for operation. Follow these steps to install the batteries:

1. Locate the battery compartment on the back of the remote control.
2. Slide the battery compartment cover downwards to open it.
3. Insert two AAA batteries, ensuring the positive (+) and negative (-) terminals align correctly with the markings inside the compartment.
4. Slide the battery compartment cover back into place until it clicks securely.

Once batteries are installed, the remote is ready for use. No programming or pairing is required.

## 4. OPERATING INSTRUCTIONS

*Note:* The availability and specific functionality of certain features (e.g., Heat mode, Ionizer, iClean) depend on the capabilities of your specific AUX A/C Air Conditioner model.

## 5. MAINTENANCE

---

### 5.1 Battery Replacement

Replace batteries when the remote's response becomes sluggish or the display fades. Always replace both batteries simultaneously with new AAA alkaline batteries. Do not mix old and new batteries, or different types of batteries.

### 5.2 Cleaning

To clean the remote control, gently wipe its surface with a soft, dry cloth. Do not use liquid cleaners, sprays, or abrasive materials, as these can damage the remote's finish or internal components.

## 6. TROUBLESHOOTING

---

- **Remote not responding:**

- Check if the batteries are inserted correctly with the correct polarity (+/-).
- Replace old batteries with new AAA alkaline batteries.

- Ensure there are no obstructions between the remote control and the air conditioner's receiver.
- Confirm you are within the effective operating range of the air conditioner.
- **Display on remote is dim or blank:**
  - This indicates low battery power. Replace the batteries.
- **Certain functions do not work:**
  - Verify that your specific AUX A/C Air Conditioner model supports the function you are trying to use (e.g., Ionizer, iClean, Heat mode). This remote is a replacement and will only operate functions present on your original unit.
