## HONITURE Q6SE-1

# HONITURE Q6 SE Robot Vacuum and Mop Combo User Manual

MODEL: Q6SE-1

## 1. Introduction

The HONITURE Q6 SE Robot Vacuum and Mop Combo is designed to provide efficient and hands-free cleaning for your home. This device integrates sweeping, vacuuming, and mopping functionalities, making it suitable for various floor types including hard floors and carpets. Equipped with advanced navigation and smart features, it simplifies your cleaning routine.

- **45-Day Hands-Free Cleaning:** The auto-emptying base station automatically transfers dirt and debris into a 2.5L dust bag, allowing for up to 45 days of maintenance-free operation.
- **Powerful Suction:** With a maximum suction power of 3500Pa, it effectively lifts dirt and pet hair.
- **High-Performance LiDAR Navigation:** LiDAR mapping technology enables rapid map building and precise navigation for optimized cleaning routes.
- **Smart App and Voice Control:** Control the robot via the Honysmart app or voice commands with Alexa and Google Assistant (2.4G Wi-Fi required).
- **Smart Carpet Booster:** Automatically increases suction power when a carpet is detected for deeper cleaning.

## 2. What's in the Box

Upon unboxing your HONITURE Q6 SE Robot Vacuum and Mop Combo, ensure all components are present:

- Robot Vacuum Cleaner
- User Manual
- Power Cord
- 1 x 2.5L Dust Bag
- 1 x HEPA Filter
- 2 x Side Brushes
- 1 x Cleaning Brush

- 1 x Self-Cleaning Station
- 2 x Mops

## 3. Setup

Follow these steps to prepare your robot vacuum for its first use:

1. **Install Side Brushes:** Attach the green side brush to the right side (R) and the red side brush to the left side (L) of the robot.
2. **Install Mop Bracket:** Securely attach the mop pad to the mop bracket, then slide the bracket into the designated slot on the underside of the robot.
3. **Fill Water Tank:** Open the water tank filling hole on the 2-in-1 water tank and dust box, fill with clean water, and close securely.
4. **Insert 2-in-1 Water Tank and Dust Box:** Slide the filled tank back into the robot until it clicks into place.
5. **Position Dust Collection Station:** Place the self-cleaning station against a wall in an open area, ensuring it has sufficient clearance on both sides and in front. Plug it into a power outlet.
6. **Charge the Robot:** Place the robot onto the charging contacts of the dust collection station. Ensure the robot is properly aligned and charging.

## 4. Operating Instructions

Your HONITURE Q6 SE is designed for intelligent and autonomous cleaning. Here's how to operate it effectively:

- **Initial Mapping:** For the first cleaning cycle, allow the robot to freely navigate your home to create an accurate map using its LiDAR navigation system. This map will be used for future cleaning efficiency.

Image: The robot vacuum utilizing its LiDAR navigation system to create a detailed map of its surroundings.

- **Smart App Control:** Download the Honymart app to access advanced features. Through the app, you can:
  - Monitor cleaning routes in real-time.
  - Set cleaning schedules.
  - Adjust suction power and water level.
  - Change cleaning modes (e.g., Zigzag, Spot, Edge, Selective).
  - Create No-Go Zones to restrict access to certain areas.

- **Voice Control:** Integrate your robot vacuum with Alexa or Google Assistant for convenient voice commands.
- **Cleaning Modes:** The robot supports various cleaning patterns for different needs:
  - **Zigzag Cleaning:** For general area cleaning.
  - **Spot Cleaning:** Concentrates on a specific dirty area.
  - **Edge Cleaning:** Cleans along walls and furniture edges.
  - **Selective Cleaning:** Allows you to choose specific rooms or zones to clean.

- **Smart Carpet Booster:** The robot automatically detects carpets and increases suction power to ensure thorough cleaning of carpeted surfaces.

Image: The Smart Carpet Booster feature in action, illustrating increased suction on carpets.

- **Automatic Charging:** When the battery is low, the robot will automatically return to its charging station.
- **Obstacle Avoidance:** Equipped with multiple sensors, the robot effectively avoids obstacles, drops, and snags.

## 5. Maintenance

Regular maintenance ensures optimal performance and longevity of your robot vacuum.

- **Emptying the Dust Collection Station:** The auto-emptying station collects debris into a 2.5L dust bag, which typically needs replacement every 45 days depending on usage. Open the top lid of the station to access and replace the dust bag.

### Self-Emptying Demonstration Video

Video: A short demonstration of the robot vacuum's self-emptying function at the charging station.

- **Cleaning the 2-in-1 Water Tank and Dust Box:** Regularly remove the 2-in-1 tank from the robot. Empty any collected dust from the dust holding place and rinse the water tank compartment. Ensure it is dry before reinserting.
- **Cleaning/Replacing HEPA Filter:** The HEPA filter should be cleaned periodically and replaced as needed to maintain filtration efficiency.
- **Cleaning Side Brushes and Main Brush:** Remove any hair or debris tangled around the side brushes and the main brush. Use the provided cleaning brush for this purpose.

- **Cleaning Universal Wheel and Drive Wheels:** Inspect and clean the universal wheel and drive wheels to ensure smooth movement.

## 6. Troubleshooting

---

If you encounter any issues with your HONITURE Q6 SE, please refer to the following common solutions:

- **Robot not charging:** Ensure the charging station is plugged in and the robot is properly aligned with the charging contacts. Clean the charging contacts on both the robot and the station.
- **Robot getting stuck frequently:** Clear obstacles from the cleaning path. Check for tangled wires or small objects. Ensure the LiDAR sensor is not obstructed.
- **Poor suction performance:** Empty the dust box/dust bag. Clean or replace the HEPA filter. Check if the main brush is tangled with hair or debris.
- **Mopping function not working:** Ensure the water tank is filled and the mop pad is correctly attached. Check if the water outlet is clogged.
- **App connectivity issues:** Ensure your Wi-Fi network is 2.4Ghz. Restart your router and the robot. Re-pair the robot with the app if necessary.

For more detailed troubleshooting or persistent issues, please contact customer support.

## 7. Specifications

---

Feature	Detail
Brand	HONITURE
Model Name	Q6SE-1
Special Features	360-Degree Swivel, Anti-Collision, Anti-Fall, Edge Cleaning, No-Go Zone
Color	White
Product Dimensions	12"L x 12"W x 4"H
Filter Type	HEPA Filter
Battery Life	3 years
Cleaning Path Width	12.6 Inches
Voltage	14.4 Volts
Capacity	2.5 Liters (Dust Bag)
Power Source	Battery Powered
Batteries Included	Yes (1 Lithium Ion battery)
Control Method	App, Remote, Touch, Voice
Compatible Devices	Google Home
Form Factor	Robotic
Smart Home Compatibility	Smart Home Compatible
Item Weight	6.17 pounds
Manufacturer	HONITURE
Specific instructions for use	Household cleaning
Surface Recommendation	Carpet, Hard Floor

## 8. Warranty and Support

HONITURE provides a **2-year warranty service** for the Q6 SE Robot Vacuum and Mop Combo. If you have any questions, require technical assistance, or need to claim warranty service, please contact us through the following channels:
