Dreo DR-HCF001

Dreo Smart Ceiling Fan with Lights

Model: DR-HCF001

User Manual

Product Overview

The Dreo Smart Ceiling Fan with Lights offers advanced control and efficient air circulation for your indoor spaces. Featuring a quiet DC motor, 12 speeds, 3 fan modes, and stepless dimmable LED lighting, it can be controlled via remote, the Dreo APP, or voice commands through Alexa and Google Home.

Key Features

- **Smart Control:** Compatible with Dreo APP, Alexa, and Google Home for convenient operation.
- **Powerful Airflow:** Brushless DC motor and 14° angled blades provide up to 5673 CFM.
- **Customizable Lighting:** Stepless brightness (1% to 100%) and color temperatures (2700K warm yellow to 6500K cool white).
- **Quiet Operation:** Operates at noise levels lower than a whisper (35 dB).
- **All-Season Use:** Reversible airflow for summer cooling and winter heat distribution.
- **Simplified Installation:** Preassembled design for quick setup.

Setup and Installation

1. Safety First

- Before beginning installation, ensure all power to the ceiling fan is disconnected at the circuit breaker.

- Consult a qualified electrician if you are unsure about wiring or electrical connections.
- Ensure the mounting location can support the fan's weight (15.2 lbs) and is suitable for a ceiling fan.

2. Unpacking and Preparation

- Carefully remove all components from the packaging. Keep the top foam layer for assembly.
- Verify all parts are present using the included parts list in the user manual.

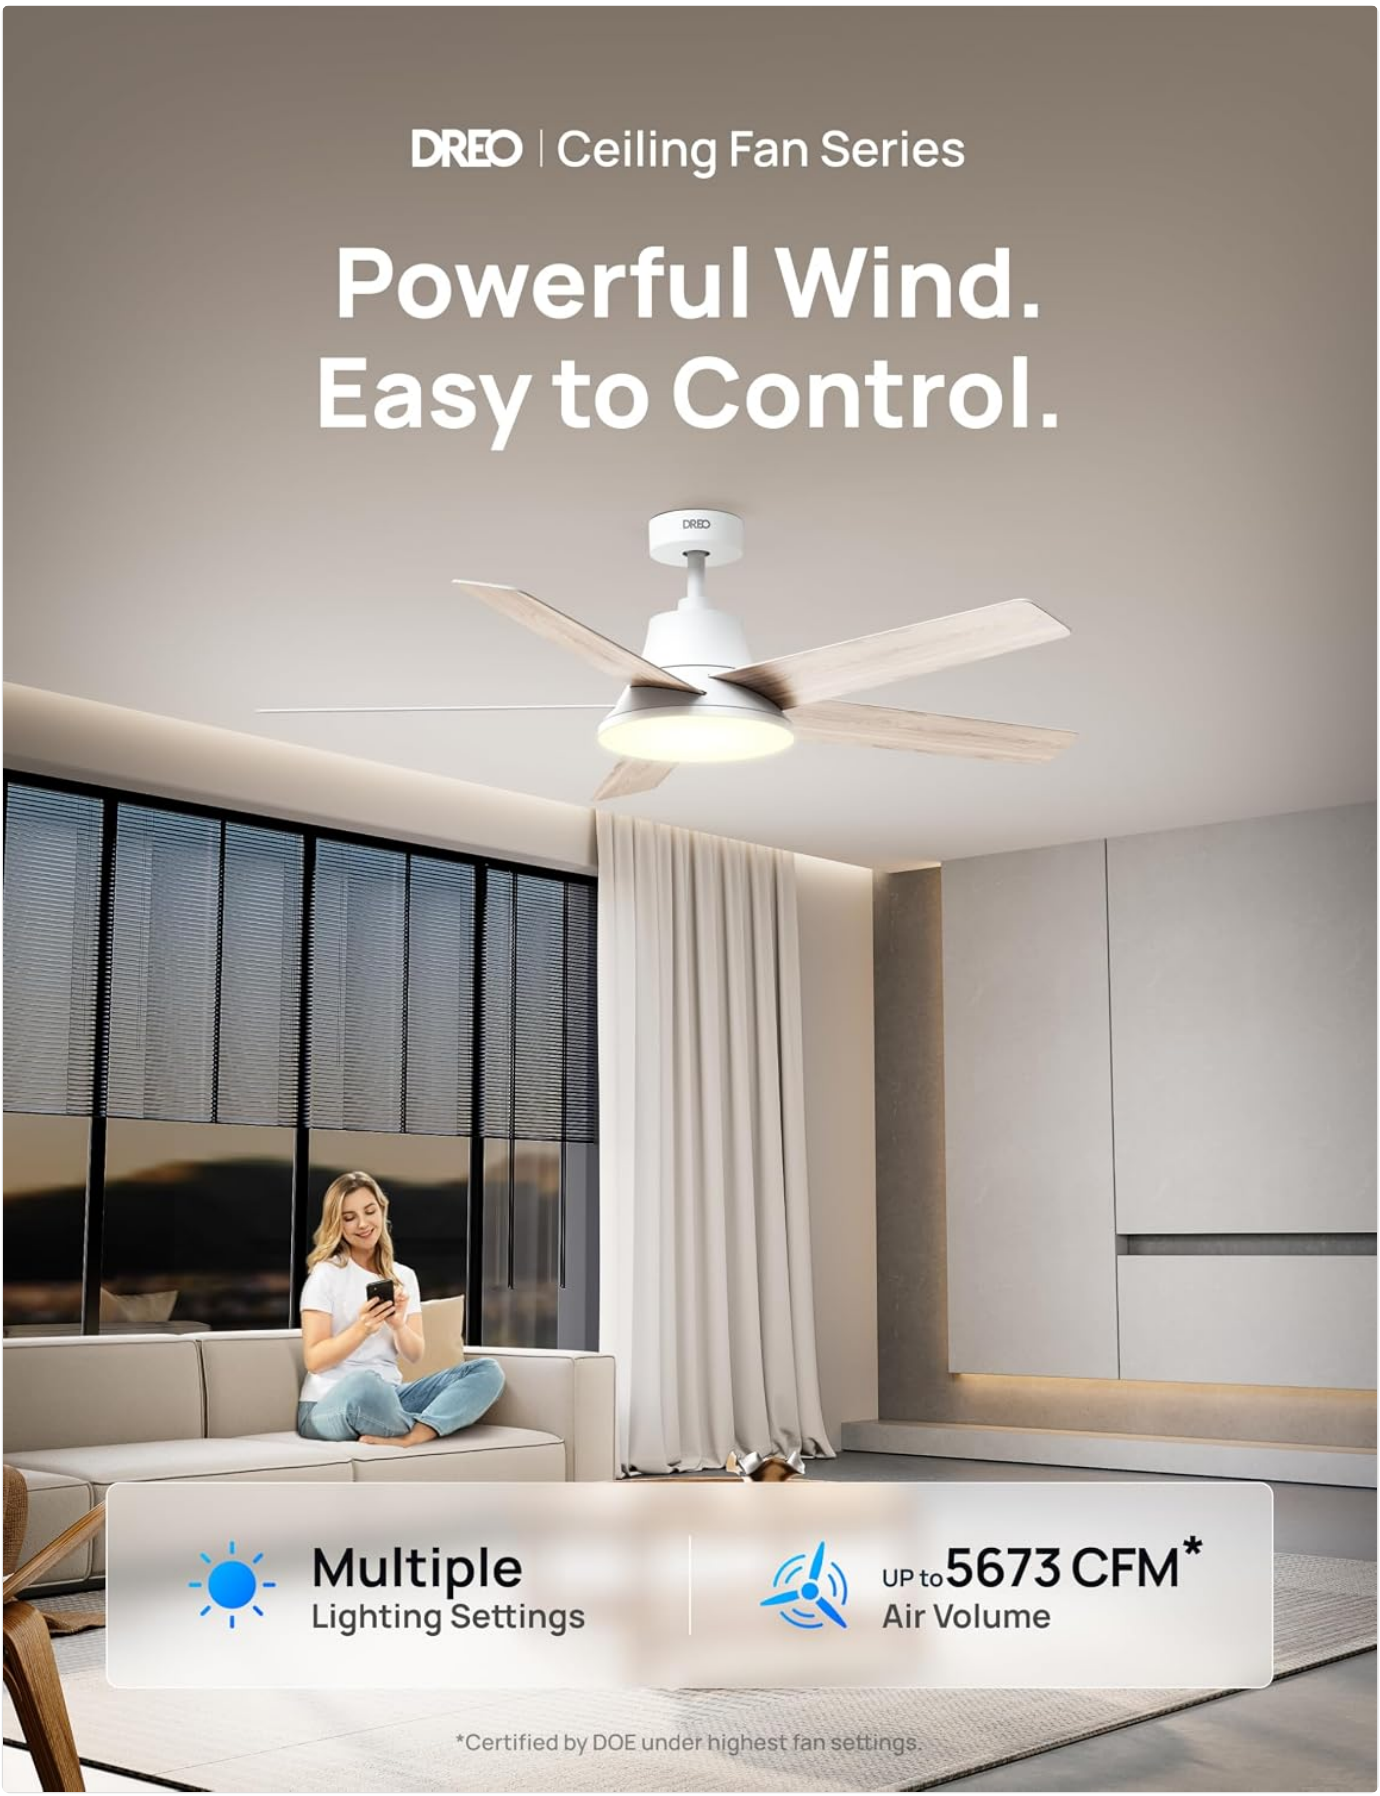

Image: All components of the Dreo Smart Ceiling Fan laid out, including the fan body, blades, remote, downrods, and hardware.

3. Blade Installation

- Place the ceiling fan body in the foam cavity for stability.
- Align the two blade slots with the vertical tabs of the ceiling fan body.

- Secure each blade using the provided screws and washers. Ensure they are tightened securely.

4. Downrod Assembly

- Choose between the 4-inch or 6-inch downrod based on your ceiling height preference.
- Thread the horizontal bar through the chosen downrod.
- Insert the downrod into the downrod ball, ensuring the horizontal bar aligns with the holes.
- Secure the downrod ball to the downrod using the provided screws.

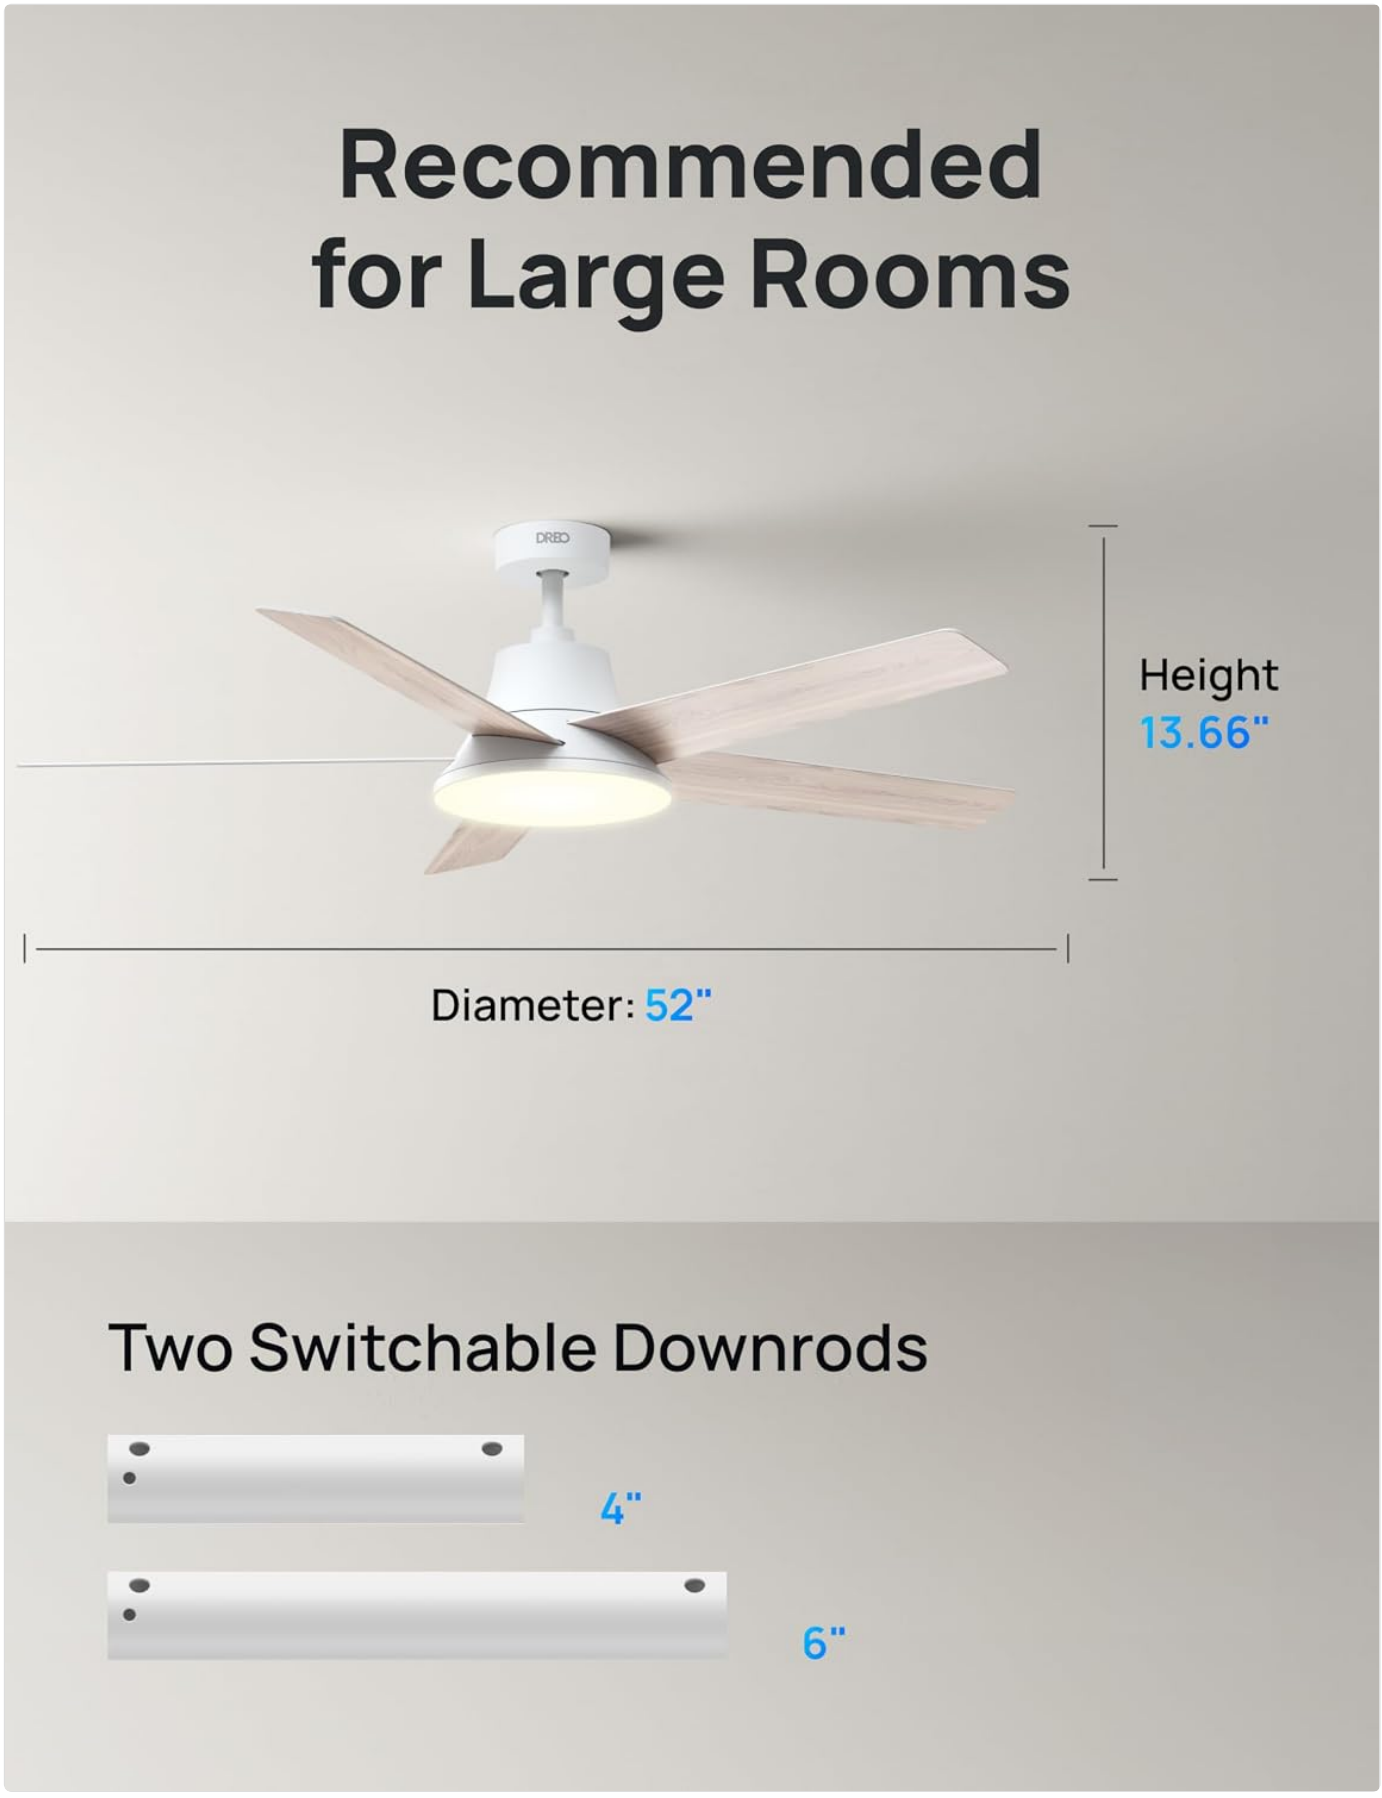

Image: Diagram showing the fan's overall dimensions (52-inch diameter, 13.66-inch height) and illustrating the two switchable downrod options (4-inch and 6-inch).

5. Mounting the Fan

- Attach the ceiling bracket to your ceiling's electrical outlet box or support structure. Ensure it is securely installed and can support 15.8 kg (35 lbs).
- Carefully lift the fan assembly and hang it onto the ceiling bracket. Ensure the downrod ball slot securely locks into the bracket's groove.

6. Wiring Connections

- Connect the green wire from the fan to the ground wire from your ceiling.
- Connect the black wire from the fan to the live wire from your ceiling.
- Connect the white wire from the fan to the neutral wire from your ceiling.
- Use wire connectors to secure all connections and ensure they are tight. Conceal all connected wires inside the ceiling bracket.

7. Light Kit Installation

- Connect the light kit's wire connector to the corresponding connector on the fan body.
- Align the light kit with the fan body and rotate it counterclockwise until you hear a
