SAFETY INFORMATION

Always follow basic safety precautions when using this product to reduce the risk of injury or damage.

- Read all instructions before use.
- Wear appropriate personal protective equipment, including eye protection.
- Never point the spray gun at people, pets, or electrical outlets.
- Ensure all connections are secure before operating to prevent leaks.
- Do not operate the pressure washer gun if any parts are damaged.
- Keep children and bystanders away from the operating area.

SETUP INSTRUCTIONS

1. **Unpack Components:** Carefully remove the spray gun and any included accessories from the packaging.

2. **Connect to Pressure Washer Hose:**

Align the quick-connect fitting of the pressure washer hose with the inlet on the spray gun. Push firmly until it clicks into place, ensuring a secure, leak-proof connection.

Snap-On, Clean Faster

Attach and detach in seconds with a secure, leak-proof fit

OPERATING INSTRUCTIONS

- Connect Water Supply:** Ensure your pressure washer is connected to a water source and turned on according to its own manual.
- Engage Trigger Lock:** Before starting the pressure washer, ensure the trigger lock on the gun is disengaged.
- Start Pressure Washer:** Turn on your pressure washer.

4. Adjust Spray Pattern:

The nozzle allows for 180° adjustment to change the spray pattern from a concentrated stream for tough spots to a wide fan for expansive areas. Rotate the nozzle to achieve the desired spray.

Master Every Surface with Adjustable Spray Patterns

Pinpoint precision for tight spots, wide spray for expansive areas – clean smarter, not harder

6. **Engage Trigger Lock (for safety):** When not actively spraying, engage the trigger lock to prevent accidental discharge.
7. **Shut Down:** After use, turn off the pressure washer, release any remaining pressure by squeezing the trigger, and then disconnect the water supply.

MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your pressure washer gun.

- **Cleaning:** After each use, rinse the gun thoroughly with clean water to remove any detergent or debris.
- **Nozzle Inspection:** Periodically check the nozzle for blockages or wear. Clean any blockages with a small wire or nozzle cleaning tool.
- **Connection Points:** Inspect all quick-connect fittings and seals for wear or damage. Replace worn seals to prevent leaks.
- **Storage:** Store the pressure washer gun in a clean, dry place, protected from freezing temperatures.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Water leakage from connections	Loose connection, worn O-rings/seals, damaged quick-connect fitting.	Ensure connections are tight. Inspect and replace O-rings or quick-connect fittings if damaged.
No or low pressure from nozzle	Clogged nozzle, insufficient water supply to pressure washer, air in the system.	Clean the nozzle. Check water supply and ensure it's fully open. Bleed air from the pressure washer system as per its manual.
Trigger is stiff or stuck	Debris in trigger mechanism, lack of lubrication.	Rinse the gun thoroughly. If problem persists, contact customer support.
