

The Learning Journey 601419

The Learning Journey International Techno Trax Sea Trek Roller Coaster Building Kit Instruction Manual

Model: 601419

INTRODUCTION

Welcome to the exciting world of the Techno Trax Sea Trek Roller Coaster Building Kit! This manual provides essential information for assembling, operating, and maintaining your new "under the sea" themed roller coaster. Designed for ages 8-14, this kit offers a hands-on STEM experience with over 150 pieces to create a dynamic aquatic fun park.

SAFETY INFORMATION

WARNING: CHOKING HAZARD - Small Parts. Not for children under 3 years.

Please ensure all small parts are kept away from young children. Adult supervision is recommended during assembly and play.

PARTS LIST

Your Techno Trax Sea Trek kit includes over 150 pieces necessary to construct the roller coaster. Before beginning assembly, carefully unpack all components and verify that all parts are present. Refer to the packaging or the detailed online instructions for a complete visual list of parts.

SETUP AND ASSEMBLY

Follow the detailed online instruction manual for step-by-step assembly. The manual is designed to be colorful and easy to use, guiding you through the construction of your aquatic fun park.

1. **Unpack Components:** Carefully remove all pieces from the packaging.
2. **Identify Base Plate:** Locate the base plate that forms the foundation of your roller coaster.
3. **Assemble Support Structures:** Connect the blue support structures according to the visual guide. These form the main framework for the track.
4. **Attach Track Pieces:** Securely connect the light blue track pieces to the support structures, ensuring all connections are firm. Pay attention to the drops, twists, and turns.
5. **Install Motorized Chain:** Integrate the motorized chain mechanism into the designated section of the track. This chain is responsible for returning the submarine car to the top.
6. **Place Decorative Elements:** Add the "under the sea" decorative elements, such as coral, fish, and marine animals, to enhance the theme.
7. **Prepare Submarine Car:** Ensure the yellow submarine coaster car is ready for placement on the track.

OPERATING INSTRUCTIONS

Once assembled, the Techno Trax Sea Trek Roller Coaster provides continuous action.

1. **Power On:** Ensure batteries are correctly installed in the motorized chain mechanism (batteries not included, refer to packaging for type and quantity). Turn on the power switch.
2. **Place Submarine Car:** Carefully place the yellow submarine coaster car onto the track at the designated starting point, usually at the base of the motorized lift.
3. **Engage Lift:** The motorized chain will engage with the submarine car, lifting it to the highest point of the track.
4. **Enjoy the Ride:** Once released from the top, the submarine car will travel through the various drops, twists, and turns of the track, replicating a real-life roller coaster experience.

5. **Continuous Play:** The motorized chain will automatically return the submarine to the top of the track, initiating another exciting journey without manual intervention.

Action-packed roller coaster with an underwater theme!

MAINTENANCE

- **Cleaning:** Wipe down track pieces and components with a soft, dry cloth. Avoid using harsh chemicals or abrasive cleaners.
- **Storage:** When not in use, store the kit in a cool, dry place away from direct sunlight to prevent material degradation.
- **Battery Care:** If the motorized chain is not used for an extended period, remove batteries to prevent leakage and damage.
- **Inspection:** Periodically check all connections and moving parts for wear or damage. Replace any broken components immediately to ensure safe operation.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Submarine car does not move.	• Motorized chain not powered on. • Batteries are dead or incorrectly installed. • Track pieces are not properly connected.	• Ensure the power switch is in the "ON" position. • Replace batteries or ensure they are inserted with correct polarity. • Check all track connections for secure fit.
Submarine car gets stuck on the track.	• Misaligned track pieces. • Obstruction on the track. • Excessive friction.	• Re-check track assembly for proper alignment. • Remove any debris or foreign objects from the track. • Ensure the submarine car wheels are clean and move freely.
Motorized chain is not lifting the car.	• Chain not properly installed or dislodged. • Motor malfunction.	• Verify the chain is correctly seated and engaged with the car's mechanism. • If batteries are new and correctly installed, and the chain still doesn't move, contact customer support.

SPECIFICATIONS

- **Model Number:** 601419
- **Product Dimensions:** 26.5 x 14 x 14 inches
- **Item Weight:** 3.3 pounds
- **Recommended Age:** 8 - 14 years
- **Number of Pieces:** 150+
- **Brand:** The Learning Journey International
- **UPC:** 657092601419

Educational Benefits

Aligns with and supports STEM education!
