XYEIUGO GDS-1039

XYEIUGO Gobricks GDS-1039 2x3 Building Tile Instruction Manual

Model: GDS-1039 | Brand: XYEIUGO

1. PRODUCT OVERVIEW

The XYEIUGO Gobricks GDS-1039 2x3 Building Tiles are high-quality, small building components designed for creative construction. These tiles are compatible with major brick brands, allowing for seamless integration into existing collections and custom creations (MOCs - My Own Creations). Each pack contains 50 pieces, providing ample supply for various projects.

Key features include:

- **Structural Support:** Tile 2x3 (compatible with Lego part 26603) offers robust structural support and detailed finishing possibilities.
- **Consistent Color:** Manufactured to maintain consistent color performance across different parts and models, ensuring a cohesive design aesthetic without color variations.
- **Durability:** Made from durable materials that support creative reuse and adaptation for long-lasting enjoyment.
- **Quantity:** 50 pieces per pack to expand your collection and support a wide range of building projects.

2. SETUP AND ASSEMBLY

These building tiles are designed for straightforward integration into your building projects. No complex assembly is required for the tiles themselves.

1. **Unpacking:** Carefully open the packaging and remove the 50 pieces of 2x3 building tiles.
2. **Inspection:** Before use, inspect each tile for any manufacturing defects or damage.
3. **Integration:** Attach the 2x3 tiles to other compatible building bricks or plates by aligning the studs and pressing firmly to secure them. The tiles are designed to fit snugly, providing a stable connection.
4. **Creative Use:** Utilize these tiles for creating smooth surfaces, adding architectural details, or enhancing the stability of your structures.

3. OPERATING INSTRUCTIONS

The Gobricks GDS-1039 2x3 tiles function as versatile components in your building system. Their primary use is to provide flat, smooth surfaces or to add structural integrity to your models.

- **Surface Finishing:** Use tiles to cover exposed studs on plates, creating a clean and finished look for floors, walls, or roofs in your models.
- **Detailing:** Incorporate tiles to add fine details, patterns, or textures to your creations.
- **Structural Reinforcement:** Layering tiles can add strength and rigidity to larger structures, preventing them from bending or collapsing.
- **Custom Builds (MOCs):** These tiles are ideal for custom designs, offering flexibility and compatibility for advanced builders.

4. MAINTENANCE AND CARE

To ensure the longevity and appearance of your Gobricks building tiles, follow these simple care instructions:

- **Cleaning:** Clean tiles with a soft cloth dampened with mild soap and water. Avoid harsh chemicals or abrasive cleaners, as these can damage the plastic. Rinse thoroughly and air dry.
- **Storage:** Store tiles in a clean, dry place away from direct sunlight and extreme temperatures to prevent discoloration or warping. Keep them in a container to prevent loss of small parts.
- **Handling:** Avoid excessive force when attaching or detaching tiles to prevent stress marks or breakage.

5. TROUBLESHOOTING

If you encounter any issues with your building tiles, consider the following:

- **Loose Fit:** If a tile feels loose, ensure that the studs on the connecting brick are clean and free of debris. If the issue persists, the connecting brick or tile might be worn.
- **Tight Fit:** If a tile is too tight, ensure proper alignment before pressing. Avoid forcing pieces together, as this can cause damage.
- **Missing Pieces:** Count your tiles upon receipt. If any pieces are missing from a new pack, contact customer support.
- **Discoloration:** Prolonged exposure to direct sunlight can cause plastic to discolor. Store tiles properly to prevent this.

6. SPECIFICATIONS

Attribute	Detail
Brand	XYEIUGO
Model Number	GDS-1039
Block Size	2x3 (Small building blocks)
Compatible With	Lego (Model 26603) and other major brick brands
Quantity	50 pieces per pack
Item Weight	1.28 ounces
