GEEKVAPE G001

GEEK VAPE Soul AIO Pod System Kit User Manual

Model: G001

INTRODUCTION

The GEEK VAPE Soul AIO Pod System Kit is an innovative and elegantly designed open pod system. Engineered for comfort and ease of use, its ergonomic form factor provides a superior tactile experience. Featuring a patented leak-proof design, this device ensures a worry-free vaping experience. With a large capacity cartridge and a robust 1500mAh battery, the Soul Kit allows for extended enjoyment of your favorite e-liquids.

PACKAGE CONTENTS

Upon opening your GEEK VAPE Soul Kit, please verify that all components are present:

- 1pc GEEK VAPE Soul Device (0.6ohm, pre-installed)
- 1pc Spare GEEK VAPE Soul Cartridge (1.0ohm)
- 1pc USB Type-C Cable (0.2m)
- User Manual and Warning Card

*Note: E-liquid and nicotine are not included. This device features a built-in battery.*

SETUP

1. Initial Charging

Before first use, fully charge the device. Connect the provided USB Type-C cable to the charging port located at the bottom of the device and plug the other end into a suitable USB power source. The 0.69-inch OLED display will indicate the charging status.

2. Filling the Cartridge

1. Remove the cartridge from the device.
2. Locate the filling port on the cartridge.
3. Carefully open the silicone plug.
4. Insert the nozzle of your e-liquid bottle into the filling port and slowly fill the 4.0ml cartridge.
5. Securely close the silicone plug.
6. Allow the cartridge to stand for 5-10 minutes after filling to ensure the coil is fully saturated, especially when using a new cartridge.

OPERATING INSTRUCTIONS

1. Power On/Off

The device supports both auto-draw and button activation. To power on or off, press the firing button 5 times rapidly. The OLED screen will display the power status.

2. Vaping

Once the device is powered on and the cartridge is filled, you can begin vaping. Inhale through the mouthpiece (auto-draw) or press and hold the firing button while inhaling (button activation).

3. Adjusting Power and Airflow

The GEEK VAPE Soul Kit features adjustable power output (up to 30W max) and adjustable airflow. Refer to the user

manual for specific button combinations to adjust these settings. The 0.69-inch OLED screen will display your current settings.

MAINTENANCE

1. Cleaning

Regularly clean the device, especially the area where the cartridge connects to the battery, to prevent e-liquid buildup. Use a dry cloth or cotton swab. Do not use abrasive cleaners or immerse the device in water.

2. Cartridge Replacement

When you notice a burnt taste, reduced vapor production, or a change in flavor, it's time to replace the cartridge. Simply pull out the old cartridge and insert a new one, ensuring it clicks firmly into place.

3. Battery Care

To prolong battery life, avoid fully discharging the device frequently. Charge the device using only the provided USB Type-C cable or a certified charger. The 1500mAh battery is designed for extended use, typically up to 2 days depending on usage.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Device not firing / "10S-CUTOFF" message	Puff duration exceeds 10 seconds.	Release the button or stop inhaling. The device will resume normal operation after 2 seconds.
"Cartridge Short" message	Atomizer resistance is less than or equal to 0.3ohm, indicating a short circuit.	Check the cartridge connection. Try replacing the cartridge. If the issue persists, contact support. The message will display for 2 seconds.
No vapor production	Low battery, empty cartridge, or faulty cartridge.	Charge the device, refill the cartridge, or replace the cartridge.
Leaking	Overfilling, improper cartridge installation, or worn seals.	Ensure not to overfill. Re-seat the cartridge. If leaking persists, replace the cartridge.

SPECIFICATIONS

Feature	Detail
Brand	GEEKVAPE
Model	Soul AIO Pod System Kit (G001)
Output Wattage	Up to 30W Max
Cartridge Capacity	4.0ml
Coil Resistance	0.6ohm / 1.0ohm
Battery Capacity	1500mAh

Feature	Detail
Charging Port	Type-C
Display	0.69-inch OLED Display
Overtime Protection	10±2 seconds (Output stops, "10S-CUTOFF" message displays for 2 seconds)
Short Circuit Protection	Atomizer resistance ≤0.3ohm (Output stops, "Cartridge Short" message displays for 2 seconds)
Dimensions (W x L x H)	31.45mm x 21.5mm x 107.85mm
Product Weight	170 g
Origin	China
