## XYEIUGO GDS-1013

# Gobricks GDS-1013 Slope 45 2x1 with 2/3 Cutout Building Blocks Instruction Manual

Model: GDS-1013 | Brand: XYEIUGO

## INTRODUCTION

---

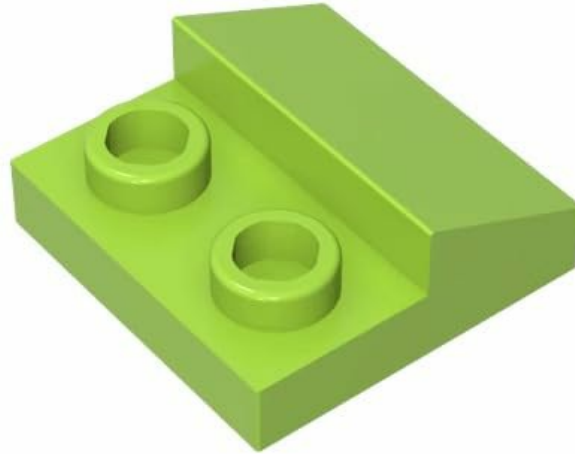

Thank you for choosing Gobricks GDS-1013 Slope 45 2x1 with 2/3 Cutout building blocks. These components are designed to provide structural support and detail possibilities for your custom creations (MOCs). They are compatible with major brick brands, allowing for seamless integration into existing collections. This manual provides essential information for the proper use and care of your building blocks.

**Important Safety Information:** This product contains small parts and is recommended for ages 13 years and up. Adult supervision is advised for younger users. Keep out of reach of small children to prevent choking hazards.

## PRODUCT OVERVIEW

---

The Gobricks GDS-1013 Slope 45 2x1 with 2/3 Cutout blocks are versatile pieces for adding angled surfaces and unique architectural details to your models. Each pack contains 50 pieces, ensuring ample supply for various projects.

This image shows a close-up of the Gobricks GDS-1013 Slope 45 2x1 with 2/3 Cutout building blocks in lime color, highlighting their shape and detail.

### Key Features:

- **Enhanced Structural Support:** Slope 45 2x1 with 2/3 Cutout (GDS1013119) blocks provide robust structural support and intricate detail possibilities, improving both stability and aesthetics in MOCs.
- **Consistent Color Performance:** The color performance across different parts and models is consistent, ensuring no noticeable color differences for a cohesive design aesthetic.
- **Durable Material:** Made from durable material that supports creative reuse and adaptation across multiple projects.
- **Generous Quantity:** Each pack contains 50 pieces, allowing for significant expansion of your collection and support for a wide range of building projects.

### SETUP

---

Setting up your Gobricks building blocks is straightforward. Follow these steps to begin your building experience:

1. **Unpack the Blocks:** Carefully open the packaging and remove all the building blocks. Ensure no small parts are left behind in the packaging.

2. **Inspect Components:** Before use, visually inspect all blocks for any manufacturing defects or damage. If any issues are found, please contact customer support.
3. **Organize (Optional):** For larger projects, consider organizing your blocks by shape or color to facilitate easier access during construction.

## OPERATING (USAGE)

---

These building blocks are designed for creative construction and integration into various models. Here are guidelines for effective use:

- **Connecting Blocks:** Align the studs of one block with the anti-studs (holes) of another. Apply gentle, even pressure to connect them securely. Avoid excessive force to prevent damage.
- **Creative Building:** Utilize the unique slope and cutout design of the GDS-1013 to create roofs, vehicle bodies, architectural details, or other angled structures in your MOCs.
- **Disassembly:** To separate connected blocks, gently twist and pull them apart. For stubborn connections, a brick separator tool (not included) can be used.
- **Compatibility:** These blocks are compatible with other major brick brands, allowing you to expand and enhance your existing building sets.

## MAINTENANCE

---

Proper maintenance will ensure the longevity and appearance of your Gobricks building blocks:

- **Cleaning:** To clean the blocks, use a soft cloth dampened with mild soap and water. Avoid harsh chemicals or abrasive materials, as these can damage the plastic. Rinse thoroughly and air dry.
- **Storage:** Store blocks in a clean, dry place away from direct sunlight and extreme temperatures. Prolonged exposure to sunlight can cause discoloration. Keep them in a container to prevent loss and dust accumulation.
- **Handling:** Handle blocks with care to avoid scratches or breakage. Do not bite or chew on the blocks.

## TROUBLESHOOTING

---

If you encounter any issues with your Gobricks building blocks, refer to the following common problems and solutions:

- **Blocks Not Fitting Securely:**
  - Ensure the blocks are correctly aligned before applying pressure.
  - Check for any debris or foreign objects in the studs or anti-studs that might prevent a secure connection.
  - Verify that you are attempting to connect compatible pieces.
- **Blocks Too Tight/Loose:**
  - Variations in manufacturing tolerances can sometimes lead to slight differences in clutch power. Try different combinations of blocks.
  - If a block is consistently too loose or too tight, it may be slightly out of specification. Contact customer support if this significantly impacts usability.

- **Missing or Damaged Parts:**

- Carefully re-check the packaging and your building area for any misplaced parts.
- If parts are genuinely missing or damaged upon arrival, please contact the seller or manufacturer for assistance.

## **SPECIFICATIONS**

---

<b>Model Number</b>	GDS-1013
<b>Part Name</b>	Slope 45 2x1 with 2/3 Cutout
<b>Compatible Model Number</b>	92948
<b>Item Weight</b>	1.12 ounces
<b>Manufacturer Recommended Age</b>	13 years and up
<b>Manufacturer</b>	XYEIUGO

## **WARRANTY AND SUPPORT**

---

Specific warranty information for this product is not provided in the available data. For any questions regarding warranty, returns, or product support, please contact the seller directly through your purchase platform. They will be able to provide the most accurate and up-to-date information regarding your purchase.

For general inquiries or assistance with your Gobricks products, you may also visit the manufacturer's website or contact their customer service if available.
