## CUBOT king kong 8

# CUBOT Kingkong 8 Rugged Smartphone User Manual

Model: Kingkong 8 | Brand: CUBOT

## 1. INTRODUCTION

The CUBOT Kingkong 8 is a rugged smartphone designed for durability and high performance in challenging environments. It features a robust build with IP68/IP69K ratings for water and dust resistance, and MIL-STD-810H certification for shock resistance. Equipped with a massive 10600mAh battery, a powerful 5000LM LED flashlight, and advanced camera capabilities, it is built to support extended outdoor activities and demanding professional use.

This manual provides essential information on setting up, operating, maintaining, and troubleshooting your CUBOT Kingkong 8 smartphone.

## 2. WHAT'S IN THE BOX

Upon opening the package, please verify that all items listed below are present and in good condition:

- CUBOT Kingkong 8 Smartphone
- Charger
- USB Cable
- SIM Pin
- Quick Start Guide
- Protective Film (pre-applied or included separately)
- Compliance Regulation Document

### 3. KEY FEATURES

#### 3.1. Massive 10600mAh Battery

The Kingkong 8 is equipped with a large 10600mAh battery, providing extended usage times for calls, music playback, video streaming, and standby. This ensures reliable power for prolonged outdoor adventures or busy workdays without frequent recharging.

## 4. SETUP GUIDE

### 4.1. Inserting SIM Cards and TF Card

1. Locate the SIM card tray on the side of the phone.
2. Insert the SIM ejector tool (SIM pin) into the small hole next to the tray to open it.
3. Carefully pull out the tray.
4. Place your Nano-SIM cards and/or TF card into the designated slots on the tray. Ensure they are correctly oriented as

indicated on the tray.

5. Gently push the tray back into the phone until it clicks into place.

## 4.2. Initial Charging

1. Connect the USB cable to the charging port at the bottom of the phone.
2. Connect the other end of the USB cable to the provided charger adapter.
3. Plug the charger adapter into a power outlet.
4. Allow the phone to charge fully before first use. The battery indicator on the screen will show charging status.

## 4.3. Powering On and Initial Setup

1. Press and hold the Power button (located on the side) until the CUBOT logo appears on the screen.
2. Follow the on-screen prompts to complete the initial setup, including language selection, Wi-Fi connection, Google account setup, and security settings (fingerprint, PIN, pattern).

# 5. OPERATING INSTRUCTIONS

## 5.1. Basic Navigation

The CUBOT Kingkong 8 operates on Android 13, utilizing a touch-based interface. Swipe, tap, and pinch gestures are used for navigation and interaction with applications.

## 5.2. Using the LED Flashlight

The dedicated flashlight button on the side of the device allows for quick activation of the powerful 5000LM LED torch. Press the button once to turn it on, and again to turn it off.

## 5.3. Camera Operation

Open the Camera application from your home screen or app drawer. You can switch between the 48MP main camera, 16MP front camera, and 2MP macro camera modes. Tap the screen to focus and press the shutter button to capture photos or videos.

## 5.4. NFC Functionality

Enable NFC in the phone's settings to use features like mobile payments or quick data transfer with other NFC-enabled devices. Hold the phone near an NFC reader or another device to initiate a connection.

## 5.5. GPS Navigation

Utilize the built-in GPS, GLONASS, and Galileo systems for accurate location tracking and navigation. Open a mapping application (e.g., Google Maps) to plan routes or find your current position.

## 5.6. Fingerprint Unlocking

Register your fingerprints in the Security settings for quick and secure unlocking of your device. The fingerprint sensor is typically located on the side or rear of the phone.

## 5.7. Useful Toolkit Applications

The Kingkong 8 includes a suite of pre-installed toolkit applications such as a compass, sound meter, magnifier, protractor, and more, designed to assist in various outdoor and practical situations.

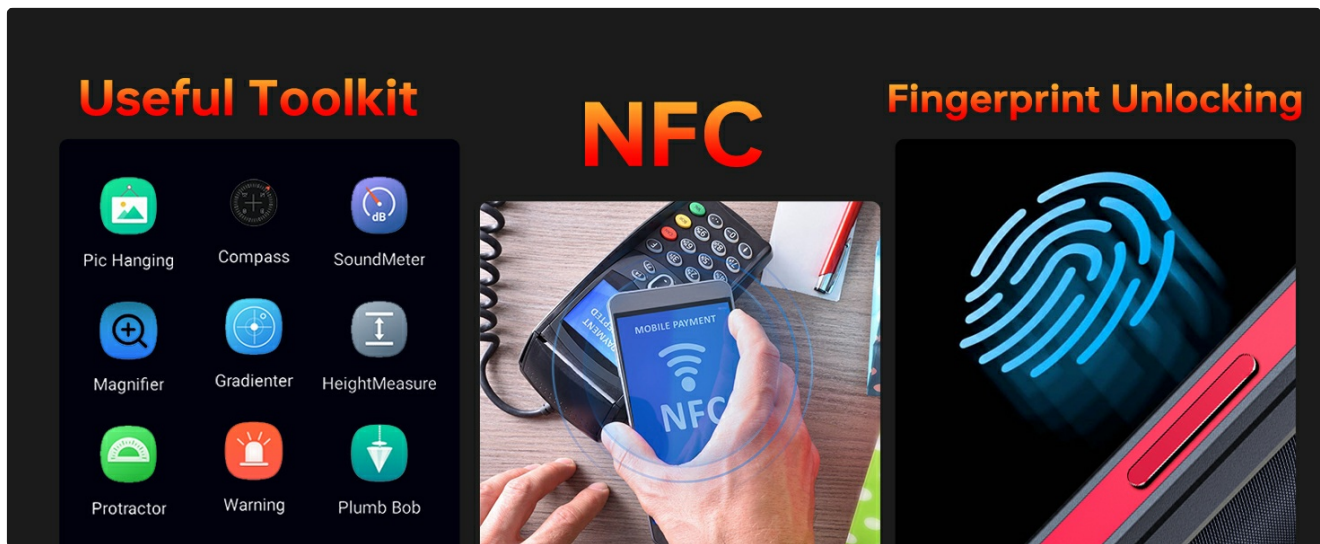

Image: Overview of the phone's utility features.

## 6. MAINTENANCE

### 6.1. Cleaning Your Device

Despite its rugged design, regular cleaning is recommended. Use a soft, lint-free cloth to wipe the screen and body. For stubborn dirt, a slightly damp cloth can be used. Ensure all port covers are securely closed before exposing the phone to water or dust.

### 6.2. Battery Care

To maximize battery lifespan, avoid extreme temperatures. Use only the provided charger and cable. While the phone has a large battery, avoid completely draining it frequently. Occasional full charge cycles are beneficial.

### 6.3. Protecting Against Damage

The Kingkong 8 is built to be durable, but it is not indestructible. Avoid intentional drops or impacts. Ensure port covers are sealed when near liquids or dusty environments to maintain its IP68/IP69K rating.

## 7. TROUBLESHOOTING

### 7.1. Common Issues and Solutions

- **Phone not powering on:** Ensure the battery is charged. Connect to the charger and wait a few minutes before attempting to power on again.
- **Screen unresponsive:** Try a forced restart by holding the Power button for about 10-15 seconds.
- **Network connectivity issues:** Check if SIM cards are properly inserted. Verify your carrier's signal strength. *Note: This phone does NOT support AT&T, Cricket, or Verizon networks. Please confirm carrier compatibility before purchase.*
- **Apps crashing/slow performance:** Close background applications. Clear app cache or data. If issues persist, consider a factory reset (back up your data first).
- **Flashlight not working:** Ensure the battery is not critically low. Check if the dedicated flashlight button is functioning correctly.

## 7.2. Factory Reset

If you encounter persistent software issues, a factory reset can often resolve them. Navigate to **Settings > System > Reset options > Erase all data (factory reset)**. **Warning: This will erase all data on your phone. Back up important information before proceeding.**

## 8. SPECIFICATIONS

Feature	Specification
