Gobricks Technic Driving Ring Connector GDS-1036 / 18948 Instruction Manual

Model: GDS-1036 / 18948

1. INTRODUCTION

This manual provides essential information for the proper use and care of your Gobricks Technic Driving Ring Connector set. These components are designed to enhance your building projects with structural support and functional detail. Please read this manual thoroughly before use.

2. PRODUCT OVERVIEW

The Gobricks Technic Driving Ring Connector (Model GDS-1036 / 18948) is a versatile building block component. Each pack contains 50 pieces, providing ample parts for various creative projects. These connectors are compatible with major brick brands, including Lego, ensuring seamless integration into existing collections. The parts are manufactured to maintain consistent color performance, ensuring a cohesive aesthetic across your builds.

3. SAFETY INFORMATION

Warning: Choking Hazard - Small Parts. This product contains small components and is not suitable for children under 3 years of age. It is recommended for users aged 13 years and up, or adults. Adult supervision is advised for younger users within the recommended age range. Keep all parts away from infants and pets.

4. SETUP AND INTEGRATION

These Technic Driving Ring Connectors are designed for direct integration into compatible building block systems. No special setup is required beyond unpacking the components.

- 1. Unpack:** Carefully remove the 50 connector pieces from their packaging.
- 2. Inspect:** Before use, inspect each piece for any manufacturing defects or damage.
- 3. Organize:** For ease of building, consider organizing your connectors with other Technic components.

5. OPERATING AND USAGE

The Technic Driving Ring Connectors are fundamental for creating complex mechanical functions and robust structures in your models. They facilitate the connection of axles, pins, and other Technic elements.

- Structural Support:** Use the connectors to reinforce joints and create strong frameworks for larger models.
- Mechanical Linkages:** Integrate them into gear systems, steering mechanisms, or other moving parts to transmit motion.
- Creative Building:** Experiment with different orientations and combinations to discover new building possibilities and aesthetic details.

6. MAINTENANCE

Proper maintenance ensures the longevity and reusability of your Gobricks components.

- Cleaning:** To clean the connectors, gently wash them with mild soap and lukewarm water. Avoid harsh chemicals or abrasive materials, as these can damage the plastic. Rinse thoroughly and air dry completely before storage.
- Storage:** Store the components in a clean, dry place away from direct sunlight and extreme temperatures. Keep them in a container to prevent loss and protect them from dust.

7. TROUBLESHOOTING

While these components are designed for reliability, here are some common issues and solutions:

Issue	Possible Solution
Loose connection with other bricks	Ensure the connecting pins or axles are fully inserted. Check for any debris obstructing the connection points.
Difficulty separating connected parts	Use a brick separator tool if available, or gently twist and pull. Avoid excessive force to prevent damage.

Issue	Possible Solution
Missing pieces from the pack	Verify the count upon opening. If pieces are genuinely missing, contact customer support.

8. SPECIFICATIONS

- **Model:** GDS-1036 / 18948
- **Type:** Technic Driving Ring Connector
- **Quantity:** 50 pieces per pack
- **Compatibility:** Compatible with Lego and other major brick brands
- **Material:** Durable ABS Plastic
- **Item Weight:** 1.12 ounces (approx. for the pack)
- **Manufacturer Recommended Age:** 13 years and up
- **Manufacturer:** XYEIUGO (Gobricks)

9. WARRANTY AND SUPPORT

For any questions, concerns, or support regarding your Gobricks Technic Driving Ring Connectors, please refer to the retailer's return policy or contact the manufacturer, XYEIUGO, directly. Keep your purchase receipt as proof of purchase.
