SETUP

Mounting in a Vehicle

1. **Install the Base:** Attach the mounting bracket base to the headrest posts of your car seat. Ensure it is securely fastened.
2. **Press and Push Up:** Align the DVD player with the bracket and press the release button, then push the player upwards to slide it into the bracket's slot.
3. **Insert:** Ensure the player is fully inserted and locked into place.
4. **Adjust Angle:** Press the button on the side of the bracket to adjust the viewing angle of the screen. The player supports up to 135 degrees of adjustment.

Powering On

Connect the provided car charger to the player's power input and to your vehicle's 12V power outlet. The player will automatically power on or can be turned on using the power button on the device or remote control.

OPERATING INSTRUCTIONS

Disc Playback

The Arafuna DVD player features a suction-type disc loading mechanism. Gently insert a standard 12 CM diameter disc into the disc slot with the label side facing up. The player will automatically draw the disc in and begin playback. This player is compatible with DVD, SVCD, VCD, CD, CD±R, DVD±R, and DVD±RW formats.

USB/SD Card Playback

Insert a USB flash drive or an SD card (up to 128GB, FAT32 format) into the respective port. The player supports various video, audio, and image formats. Navigate through the media files using the remote control or on-device buttons.

Supported Media Formats

This player is region-free and supports a wide range of media formats:

- **Video formats:** MPEG, MPG, TRP, VOB, FLV, MP4, RMVB, AVI, MOV, MKV, ASF, WM
- **DVD formats:** DVD, SVCD, VCD, CD, CD±R, DVD±R, DVD±RW
- **Image formats:** JPG, JPEG
- **Audio formats:** MP3, WMA

Region Free & Multiple Formats Support

HDMI Input (Screen Mirroring)

The player includes an HDMI input port. Use an HDMI cable (not included) to connect external devices such as mobile phones, computers, Raspberry Pi, Xbox, or Kindle Fire to mirror their screen content. Ensure your connected device supports HDMI output functionality. The HDMI input supports up to 1080P video.

AV In/Out and RCA Sync Function

Utilize the AV cable to connect two Arafuna portable DVD players for synchronized playback, allowing both screens to display the same movie. Alternatively, use the included RCA cable to connect the player to a television for a larger viewing experience with lossless image transfer.

Figure 10: Connecting the DVD player to a TV via RCA cable.

Last Memory Function

The player is equipped with a last memory function. If the device is powered off during playback, it will automatically resume from the exact point where it was stopped when powered on again.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the screen and exterior of the player. Do not use liquid cleaners or abrasive materials.
- **Disc Handling:** Always handle discs by their edges. Keep discs clean and free from scratches to ensure optimal

playback.

- **Storage:** When not in use, store the DVD player in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** The device contains a Lithium Polymer battery. Avoid exposing it to high temperatures or physical damage.

TROUBLESHOOTING

Problem	Possible Cause	Solution
No power	Car charger not connected or faulty.	Ensure the car charger is securely connected to both the player and the car's power outlet. Check the car's power outlet for functionality.
Disc not playing	Disc is dirty, scratched, or incompatible format.	Clean the disc with a soft cloth. Try a different disc. Ensure the disc is a standard 12 CM diameter and a supported format (DVD, CD, etc.).
No sound	Volume too low, headphones not connected properly, or audio settings.	Increase the volume. Ensure headphones are fully plugged in. Check audio settings in the player's menu.
HDMI input not working	HDMI cable faulty, or connected device does not support HDMI output.	Try a different HDMI cable. Verify that your external device has HDMI output functionality.
Remote control not responding	Batteries are dead or remote is not aimed correctly.	Replace the remote control batteries. Ensure there is a clear line of sight between the remote and the player's IR receiver.
