Blushaweu Lagenio G31 Charging Cable

Blushaweu Charging Cable for Lagenio G31 Smartwatch User Manual

INTRODUCTION

This manual provides comprehensive instructions for the safe and effective use of your Blushaweu Charging Cable, designed specifically for the Lagenio G31 Smartwatch. Please read this manual thoroughly before using the product to ensure optimal performance and longevity.

The Blushaweu Charging Cable offers a reliable and convenient solution for powering your Lagenio G31 Smartwatch, featuring a magnetic connection and integrated safety mechanisms.

COMPATIBILITY

This charging cable is exclusively compatible with the **Lagenio G31 Smartwatch**. It is not designed for use with other smartwatch models. Attempting to use this charger with incompatible devices may result in improper charging or damage to the device.

PRODUCT FEATURES

- **Comfortable Length:** The cable measures 100 cm (approximately 3.3 feet), providing ample reach without excessive tangling.
- **Magnetic Connection:** Features a strong magnetic interface for easy and secure attachment to your smartwatch, ensuring stable charging.
- **Safe Usage:** Equipped with a built-in voltage regulator to protect against short-circuits, overloads, over-current, over-voltage, and high temperatures, ensuring a stable and safe charging environment.
- **Portability:** Its compact and lightweight design, along with a flexible cable, makes it ideal for travel and easy storage in a pocket or bag.

Overview of the Blushaweu Smartwatch Magnetic Charging Cable's key features.

Smooth Plug

Sturdy Cable

The cable is designed for durability, having passed extensive bending tests.

SETUP INSTRUCTIONS

Follow these steps to set up your charging cable and begin charging your Lagenio G31 Smartwatch:

1. **Unpack the Cable:** Carefully remove the charging cable from its packaging.
2. **Connect to Power Source:** Insert the USB-A end of the charging cable into a compatible USB power source. This can be a computer's USB port, a laptop, a power bank, or a wall charger with a USB output.
3. **Attach to Smartwatch:** Align the magnetic charging connector with the charging pins on the back of your Lagenio G31 Smartwatch. The magnets will automatically attract and secure the connection.

Ensure the connection is firm and the smartwatch is correctly positioned.

Combination of easy-to-use with USB connector

The charging cable can be connected to various USB power sources.

A Lagenio G31 smartwatch connected to the magnetic charging cable.

OPERATING THE CHARGER

Once the cable is properly connected to both a power source and your Lagenio G31 Smartwatch, the smartwatch display should indicate that it is charging. This is typically shown by a battery icon with a charging animation or a percentage increase.

The charging process is efficient and designed to provide a stable current to your device. Charging time will vary depending on the smartwatch's current battery level and the power output of your USB source.

CARE AND MAINTENANCE

To ensure the longevity and optimal performance of your Blueshaweu Charging Cable, please observe the following care guidelines:

- **Keep Clean:** Regularly wipe the cable and magnetic connector with a soft, dry cloth to remove dust and debris.

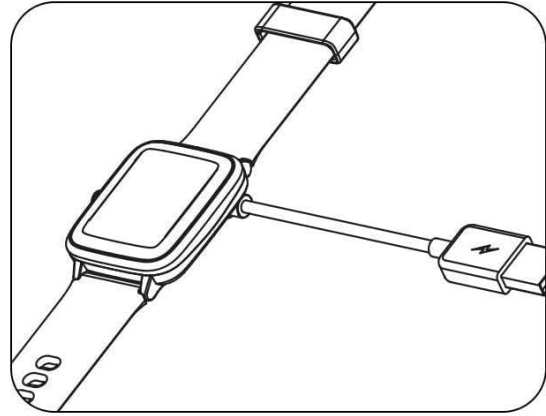

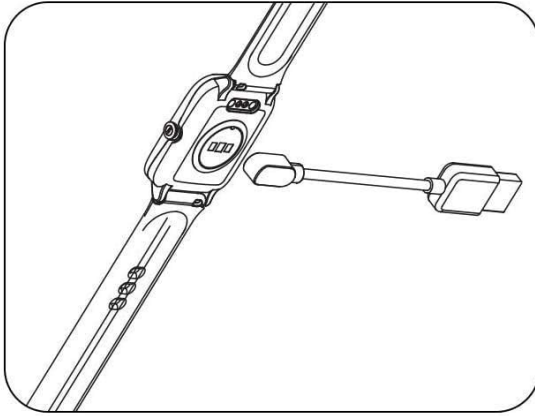

- **Avoid Extreme Conditions:** Do not expose the cable to extreme temperatures, direct sunlight, or high humidity.
- **Proper Storage:** When not in use, coil the cable neatly without sharp bends or kinks. Store it in a dry, cool place.
- **Handle with Care:** Avoid pulling the cable forcefully from the smartwatch or power source. Always grasp the connector ends when disconnecting.

TROUBLESHOOTING

If you encounter issues while charging your Lagenio G31 Smartwatch, consider the following:

- **Smartwatch Not Charging:**
 - Ensure the USB-A end is fully inserted into a functional power source.
 - Verify that the magnetic connector is correctly aligned with the smartwatch's charging pins. If the magnets repel, detach and re-align until they attract firmly.
 - Try a different USB power source (e.g., another USB port on your computer, a different wall adapter).
 - Check for any debris or obstruction on the charging pins of both the cable and the smartwatch.
- **Slow Charging:**
 - Ensure your power source provides adequate current (e.g., a wall adapter typically charges faster than a computer USB port).
 - Avoid using the smartwatch extensively while it is charging.

Magnetic Charging Interface

If the charging magnets repel, the device will not charge.

You can charge correctly if the magnets attract whilst charging,
