MAINTENANCE AND CARE

Proper care will extend the life and appearance of your sofa.

- **Regular Cleaning:** Vacuum the sofa regularly using a soft brush attachment to remove dust and debris.
- **Spot Cleaning:** For spills, blot immediately with a clean, dry cloth. Do not rub, as this can spread the stain. For stubborn stains, use a mild fabric cleaner specifically designed for upholstery, testing on an inconspicuous area first.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fabric fading. Position your sofa away from direct sunlight or use curtains/blinds.
- **Rotate Cushions:** Periodically rotate and fluff cushions to ensure even wear and maintain their shape.
- **Hardware Check:** Every few months, check all bolts and connections to ensure they remain tight. Re-tighten if necessary.
