2. SAFETY INFORMATION

- Ensure all components are present and undamaged before beginning assembly. Do not use if any parts are missing or damaged.
- Assemble the desk on a soft, clean surface to prevent scratches.
- Do not overtighten screws during assembly to avoid damaging the material.
- Keep small parts away from children to prevent choking hazards.
- Do not exceed the maximum load capacity of 50 kg for the desktop.
- Ensure all electrical connections (power outlets, USB ports) are properly grounded and used with compatible devices.
- Avoid placing hot items directly on the desk surface without protection.

3. PACKAGE CONTENTS

Verify that all parts listed below are included in your package. A wrench is provided for assembly.

4.1. General Assembly Tips

- Identify all parts before starting.
- Use the provided wrench for tightening fasteners.
- Do not fully tighten all screws until the entire structure is loosely assembled. This allows for minor adjustments.
- Once the desk is fully assembled, tighten all screws securely.

4.2. Adjustable Feet Installation

The desk is equipped with adjustable feet to ensure stability on uneven surfaces. Install these feet at the bottom of the desk legs. Rotate them clockwise to extend and counter-clockwise to retract until the desk is level and stable.

5. OPERATING INSTRUCTIONS

5.1. Power Outlets and USB Ports

The desk includes a built-in power strip with two AC outlets (100-240V/15A) and two USB ports (5V-2A). Connect the desk's power cord to a wall outlet. These ports provide convenient charging for your computer, smartphone, and other electronic devices.

6. MAINTENANCE

- **Cleaning:** Wipe the desk surface with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these can damage the melamine finish.
- **Spills:** Immediately wipe up any spills to prevent water damage or staining. The melamine board is resistant to water, but prolonged exposure should be avoided.
- **Fasteners:** Periodically check all screws and bolts to ensure they remain tight. Retighten if necessary to maintain stability.
- **Electrical Components:** Ensure the power cord and connections are free from damage. Do not attempt to repair electrical components yourself.

7. TROUBLESHOOTING

7.1. Desk is Unstable/Wobbly

- **Check Adjustable Feet:** Ensure all adjustable feet are making firm contact with the floor and are adjusted to level the desk.
- **Tighten Fasteners:** Verify that all assembly screws and bolts are securely tightened.
- **Cross Bracing:** Confirm that the cross-bracing hardware is correctly installed and tightened, as this significantly contributes to stability.

7.2. RGB LED Lights Not Working

- **Power Connection:** Ensure the LED light strip is properly connected to its power source and the desk's main power.
- **Controller Battery:** If the controller is wireless, check its battery.
- **Reset:** Try unplugging the desk from the wall outlet for a few minutes, then plug it back in to reset the electrical components.

7.3. Power Outlets/USB Ports Not Functioning

- **Main Power:** Ensure the desk's main power cord is securely plugged into a working wall outlet.

- **Device Compatibility:** Verify that the devices you are trying to charge are compatible with the provided voltage and amperage.
- **Overload:** Avoid overloading the power strip. If too many high-power devices are connected, it may trip a circuit.
