Morpilot Pet Carrier with Wheels User Manual

Model: MPCW010701GL05

INTRODUCTION

The Morpilot Pet Carrier with Wheels is designed to provide a safe, comfortable, and convenient travel solution for your small dog or cat. This versatile carrier features a detachable rolling chassis, allowing for easy transport in various situations, including air travel, car trips, and daily outings. Its robust construction and thoughtful design prioritize your pet's security and comfort.

KEY FEATURES

- **Newly Upgraded Design:** Features a double-bar trolley handle and an independent metal base for enhanced durability and stability.
- **Airline Approved:** Meets major airline standards for in-cabin travel (17" L x 11" W x 11" H, accommodates pets up to 14lbs).

Always confirm with your specific airline prior to travel.

- **Designed for Travel:** Equipped with a telescopic handle, removable chassis, and 360° swivel wheels for smooth and quiet mobility.
- **Excellent Construction:** Unyielding structure with mesh panels for optimal ventilation and visibility. Includes a safety strap and lockable zippers for pet security.
- **Multifunctional Use:** The carrier can be detached from the wheeled chassis for use as a standalone pet travel bag, suitable for air, car, camping, and daily vet visits.
- **Comfort Features:** Includes an exquisite pet fleece pad for enhanced comfort during transit.
- **Storage:** Features a spacious rear pocket for storing essentials like wheels, bowls, and water bottles.

SETUP AND ASSEMBLY

The Morpilot Pet Carrier is designed for quick and easy assembly. Follow these steps to prepare your carrier for use:

- 1. Insert Hard Pads:** Locate the hard pads provided and place them securely into the bottom of the carrier to create a stable

base.

- Install Wheels:** Align the wheels with the designated slots on the bottom of the chassis. Press the button on the wheel mechanism and push firmly until the wheels click into place. Ensure they are securely attached.
- Fasten Carrier to Drawbar:** Attach the carrier bag to the wheeled drawbar structure using the Velcro straps. Ensure all straps are securely fastened to prevent movement during transport.

ONE MINUTE INSTALLATION

Image: Step-by-step instructions for assembling the carrier, showing the placement of pads, wheel installation, and securing the carrier to the frame.

OPERATING INSTRUCTIONS

The Morpilot Pet Carrier offers multiple modes of operation for various travel needs:

Rolling Mode

To use the carrier in rolling mode, ensure the wheels are securely attached to the chassis. Extend the telescopic handle to a comfortable height by pressing the push-button. The 360° swivel wheels allow for smooth maneuverability on various surfaces.

Hand Carry Mode

For short distances or when wheels are not suitable, detach the carrier bag from the wheeled chassis. Use the sturdy top handles to carry the bag by hand.

Car Carry Mode

The carrier can be secured in a vehicle using the integrated safety strap. Place the carrier on a seat and use the car's seatbelt to secure it through the designated loops on the carrier, ensuring your pet's safety during transit.

Airline Travel

For airline travel, the carrier is designed to fit under most front cabin seats. It is often necessary to remove the wheels and/or the bottom panel to meet specific airline dimensions. **Always confirm the exact size requirements with your airline before your flight.**

Wheel Locking Design

The wheels feature a smart lock mechanism. Simply press the orange button on each wheel to engage the lock, preventing the carrier from rolling when stationary. Press again to unlock.

Smart Lock (Easy Control)

Slope Anti-slip

No need to worry about your suitcase sliding around anymore, enjoy a worry-free journey.

MAINTENANCE

To ensure the longevity and hygiene of your Morpilot Pet Carrier, regular maintenance is recommended:

- **Cleaning the Fabric:** Wipe down the exterior and interior fabric surfaces with a damp cloth and mild soap. Avoid harsh chemicals that may damage the material or irritate your pet. Allow to air dry completely before storage.
- **Cleaning Mesh Panels:** Gently brush or wipe the mesh panels to remove any debris or pet hair. Ensure they remain clear for optimal ventilation.

- **Wheel Maintenance:** Periodically check the wheels for any accumulated dirt or hair that might impede smooth rotation. Clean as necessary.
- **Storage:** When not in use, store the carrier in a clean, dry place away from direct sunlight to prevent material degradation. The carrier is foldable for compact storage.

TROUBLESHOOTING

- **Carrier Seems Too Small for Pet:** The carrier is designed for pets up to 14lbs. When selecting a carrier, do not choose based solely on weight. Always reference your pet's length and height to ensure a comfortable fit.
- **Difficulty with Airline Approval:** Airline requirements vary. Always verify the specific dimensions and regulations with your chosen airline before travel. Some airlines may require the removal of wheels or the bottom panel.
- **Wobbling During Rolling:** Ensure the telescopic handle is fully extended and locked into place. Verify that the carrier is securely fastened to the wheeled chassis using all Velcro straps.
- **Wheels Not Rolling Smoothly:** Check for debris or hair caught in the wheel mechanisms. Clean the wheels thoroughly. Ensure the wheel lock is disengaged.

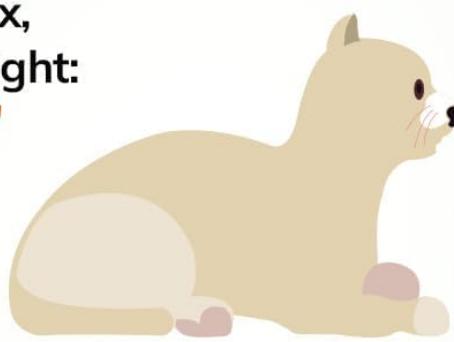

Measure Your Pet Before Purchase

Max. Load
15LBS/ 7kg

**Max, Height:
11"**
