ToLuLu White Webcam

ToLuLu 1080P FHD Webcam with Tripod and Privacy Shutter User Manual

1. OVERVIEW

The ToLuLu 1080P FHD Webcam is designed for high-quality video communication, recording, and streaming. It features a full HD glass lens, a 110-degree wide-angle view, and a built-in noise-canceling microphone. The webcam is plug-and-play compatible with various operating systems and comes with a privacy cover and a tripod-ready clip for versatile placement.

2. KEY FEATURES

- **1080P Full HD Video:** Delivers crisp images and clear video at 30 frames per second.
- **Automatic Light Correction:** Equipped with HDR technology to adjust color and brightness for natural lighting, even in dim conditions.
- **Plug & Play Connectivity:** Easy installation via USB-A or USB-C (adapter included), requiring no additional drivers.
- **110-Degree Wide-Angle Lens:** Captures a broad field of view, ideal for group video calls and presentations.
- **Built-in Noise-Canceling Microphone:** Ensures clear audio pickup by reducing ambient noise.
- **Privacy Cover:** Provides physical security to prevent unauthorized access to your camera when not in use.
- **Tripod-Ready Clip:** Features an adjustable universal clip with a 1.8m (6 feet) USB cable, suitable for laptops, desktops, and monitors, and includes a tripod stand.
- **Wide Compatibility:** Works with Windows (2000, XP, 7, 8, 10, and above), Mac OS, Chrome OS, Smart TV, Android, and popular applications like Skype, Zoom, OBS, YouTube, Facebook, Twitch, FaceTime, and Xbox One.

3. SETUP INSTRUCTIONS

3.1 Attaching the Webcam

The webcam features an adjustable clip that allows it to be securely mounted on various devices or used with the included tripod.

1. **For Monitors/Laptops:** Open the clip and place the webcam on top of your monitor or laptop screen. Adjust the front lip to rest on the screen and the back part of the clip to secure it against the back of the display.
2. **For Tripod Use:** The bottom of the webcam's clip has a standard screw thread. Attach the included mini tripod stand by screwing it into this thread. Place the tripod on a flat surface.

Image: Various applications of the webcam, including video calls, online teaching, live streaming, and video conferencing, highlighting its versatility with a tripod.

3.2 Connecting to Your Computer

The ToLuLu Webcam is a plug-and-play device, requiring no software installation.

1. Locate an available USB-A port on your computer. If your computer only has USB-C ports, use the provided USB-A to USB-C adapter.
2. Plug the webcam's USB connector into the USB port (or adapter).
3. Your computer should automatically detect and install the necessary drivers. This may take a few moments.
4. Once installed, the webcam is ready for use with your preferred video conferencing or streaming application.

4. OPERATING INSTRUCTIONS

4.1 Using the Privacy Cover

The webcam includes a physical privacy cover for enhanced security.

- To cover the lens: Slide the privacy cover over the webcam lens.

- To uncover the lens: Slide the privacy cover away from the webcam lens.

Included privacy Cover

Prevents the web hackers from spying on you

4.2 Video and Audio Settings

The webcam automatically adjusts for optimal video and audio quality.

- **Automatic Light Correction:** The webcam features automatic light correction and HDR technology to ensure you appear well-lit and clear, even in challenging lighting conditions.
- **Noise-Canceling Microphone:** The built-in microphone actively reduces background noise to deliver clear voice audio.
- **Application Settings:** For specific adjustments, open your video conferencing or streaming application (e.g., Zoom, Skype, OBS). Navigate to the video and audio settings within the application to select the ToLuLu Webcam as your primary camera and microphone. Here, you can often fine-tune brightness, contrast, and audio input levels if needed.

1080p Full HD Webcam

Automatic low light correction provides crisp and vibrantly colored clear image and video

5. MAINTENANCE

- **Cleaning the Lens:** Use a soft, lint-free cloth specifically designed for camera lenses to gently wipe the lens. Avoid abrasive materials or harsh chemicals.
- **General Cleaning:** Wipe the body of the webcam with a dry, soft cloth. Do not use liquid cleaners directly on the device.
- **Storage:** When not in use, engage the privacy cover to protect the lens. Store the webcam in a cool, dry place away from direct sunlight and extreme temperatures.

6. TROUBLESHOOTING

- **Webcam Not Detected:**
 - Ensure the USB cable is securely plugged into a working USB port on your computer.
 - Try plugging the webcam into a different USB port.
 - Restart your computer.
 - Check your computer's Device Manager (Windows) or System Information (Mac) to see if the

webcam is listed.

- **No Video/Black Screen:**

- Make sure the privacy cover is open.
- Verify that the webcam is selected as the active video device in your application's settings.
- Close and reopen the application.

- **No Audio/Poor Audio Quality:**

- Ensure the webcam's microphone is selected as the audio input device in your application's settings and your computer's sound settings.
- Check that the microphone is not muted in your application or system settings.
- Adjust the microphone input level in your system's sound settings.

- **Video Quality Issues (Blurry, Grainy):**

- Ensure the lens is clean (refer to Maintenance section).
- Check your room lighting. While the webcam has auto-correction, sufficient ambient light improves quality.
- Verify your internet connection speed if streaming or video conferencing.

7. SPECIFICATIONS

Feature	Specification
Max Screen Resolution	1080p Full HD
Brand	ToLuLu
Item Model Number	White Webcam
Item Weight	6.3 ounces
Product Dimensions	3.8 x 3.1 x 2.5 inches
