2. GETTING STARTED: SETUP

2.1 What's in the Box

Upon unboxing your Motorola Moto G 5G (2024), verify that all standard components are present:

- Motorola Moto G 5G (2024) Smartphone
- USB Cable (for charging and data transfer)
- SIM Tray Ejector Tool

- Quick Start Guides and Safety Information

Note: Charger may be sold separately depending on your region or retailer.

2.2 Initial Setup

1. Insert SIM Card and/or microSD Card:

Locate the SIM tray on the side of your device. Use the provided SIM tray ejector tool to gently push into the small hole next to the tray until it pops out. Place your Nano-SIM card(s) and/or microSD card (up to 1TB, sold separately) into the tray with the gold contacts facing down, as indicated by the tray's diagram. Carefully reinsert the tray into the phone.

2. **Power On Your Device:**

Press and hold the Power button (located on the right side of the phone) until the Motorola logo appears on the screen. The phone will boot up to the initial setup wizard.

3. **Follow On-Screen Instructions:**

The setup wizard will guide you through selecting your language, connecting to a Wi-Fi network, signing in with your Google account, setting up security features (fingerprint, PIN, pattern), and transferring data from an old device if desired.

4. **Charge the Battery:**

For optimal performance, it is recommended to fully charge your device before first use. Connect the USB cable to the phone's USB-C port and the other end to a compatible charger (not included) or a computer's USB port.

3.3 Connectivity

Your device supports various connectivity options for seamless communication and data transfer.

- **5G Network:** Ensure you have a 5G plan and are in a 5G coverage area for optimal speeds.
- **Wi-Fi:** Connect to wireless networks via Settings > Network & internet > Internet.
- **Bluetooth:** Pair with headphones, speakers, and other devices via Settings > Connected devices > Connection preferences > Bluetooth.
- **NFC:** Use Near Field Communication for quick pairing or mobile payments (if supported by your apps and services).
- **Mobile Hotspot:** Share your phone's internet connection with other devices via Settings > Network & internet > Hotspot & tethering.

4. MAINTENANCE

4.1 Battery Care

- **Charging:** Use a compatible TurboPower charger for fastest charging. Avoid extreme temperatures while charging.
- **Battery Optimization:** Android 14 includes features to optimize battery usage. Review battery usage in Settings > Battery to identify power-hungry apps.
- **Storage:** Store your device in a cool, dry place when not in use for extended periods.

4.2 Cleaning Your Device

- **Screen:** Use a soft, lint-free cloth, slightly dampened with water or a screen cleaner. Avoid harsh chemicals.
- **Body:** Wipe the vegan leather back and frame with a soft, dry cloth. For stubborn marks, a slightly damp cloth can be used, then dry immediately.
- **Ports:** Use a dry, soft brush (like a clean toothbrush) to gently remove dust from charging ports and audio jacks. Avoid inserting sharp objects.

4.3 Software Updates

Motorola periodically releases software updates to improve performance, add features, and enhance security. It is recommended to keep your device's software up to date.

- **Check for Updates:** Go to Settings > System > System updates.
- **Installation:** Ensure your device has sufficient battery (at least 50%) and a stable Wi-Fi connection before installing updates.

5. TROUBLESHOOTING

5.1 Common Issues and Solutions

Issue	Solution
-------	----------

Issue	Solution
Phone not turning on	Ensure the battery is charged. Connect to a charger for at least 15 minutes, then try powering on. If unresponsive, perform a force restart by holding the Power button for 10-15 seconds.
Apps crashing or freezing	Close and reopen the app. Clear the app's cache and data (Settings > Apps > [App Name] > Storage & cache). Ensure the app is updated. Restart the phone.
Poor battery life	Check battery usage in Settings > Battery to identify draining apps. Reduce screen brightness, disable unnecessary features (Bluetooth, GPS, Wi-Fi when not in use), and enable battery saver mode.
Network connectivity issues (Wi-Fi/Cellular)	Toggle Wi-Fi/Cellular data off and on. Restart the phone. Reset network settings (Settings > System > Reset options > Reset Wi-Fi, mobile & Bluetooth). Ensure SIM card is properly inserted.
Phone running slow	Clear cache of frequently used apps. Uninstall unused apps. Free up storage space. Restart the device regularly. Check for system updates.

5.2 Factory Reset

A factory reset will erase all data from your phone's internal storage, including apps, photos, and settings. This can resolve persistent software issues but should be used as a last resort. ***Always back up your data before performing a factory reset.***

- Go to Settings > System > Reset options.
- Tap "Erase all data (factory reset)".
- Confirm your decision and enter your PIN/pattern if prompted.
- The phone will restart and begin the reset process.
