## 5.3. Software Updates

Periodically check for system updates to ensure your device has the latest features and security patches. Go to **Settings > System > System update**.

## 6. TROUBLESHOOTING

If you encounter issues with your Xgody A54, refer to the following common solutions:

Issue	Possible Solution
Phone is slow or lagging	Close background applications. Clear cache. Ensure sufficient storage space. Restart the device.

Issue	Possible Solution
Camera flash is dim or poor photo quality	Ensure adequate lighting. Clean the camera lens. Adjust camera settings.
"System UI" message or freezing	Restart the phone. If persistent, consider a factory reset (back up data first).
Device overheating	Close resource-intensive applications. Avoid direct sunlight. Disconnect from charger if charging.
Network data issues (4G/3G/2G)	Verify SIM card installation. Check APN settings (Access Point Names) with your carrier. Contact support for assistance with APN or IMEI number adjustments if necessary.
Face Unlock unreliable	Re-register your face in good lighting conditions. Ensure your face is fully visible to the front camera.
