Palawell K11 T3 72W WiFi Low Voltage Landscape Transformer Instruction Manual

Model: K11 T3

1. PRODUCT OVERVIEW

The Palawell K11 T3 is a 72W WiFi Low Voltage Landscape Transformer designed for outdoor lighting systems. It converts 120V AC household voltage to a safe 12V DC, making it compatible with various low voltage lighting types including LED, fluorescent, halogen, and incandescent bulbs. This transformer offers multiple control options including a smart app, remote control, and manual buttons, enhancing convenience and energy efficiency for your landscape lighting.

2. PACKAGE CONTENTS

Before installation, please ensure all items are present:

- 1 x 72W Low Voltage Transformer
- 1 x User Manual
- 1 x Remote Control
- 2 x Screws for mounting

3. SETUP AND INSTALLATION

3.1 Mounting the Transformer

The transformer features a built-in hanging hole for easy wall mounting. Use the provided screws to securely attach the unit to an indoor or outdoor wall. Ensure the mounting location is within a suitable range for your WiFi network (2.4 GHz

only).

4. OPERATING INSTRUCTIONS

4.1 Smart App Control

Once paired, use the Smart Life app to control your landscape lights from anywhere. The app offers:

- **Scheduling:** Set specific ON/OFF times for your lights.
- **Countdown Timer:** Set a duration after which the lights will turn ON or OFF.
- **Astronomical Settings:** Program lights to turn ON at sunset and OFF at sunrise based on your location.

5.2 Circuit Protection and Memory Function

A built-in automatic circuit breaker provides protection against overload and short circuits, automatically cutting off power to safeguard your fixtures. The memory function ensures that the last set mode is maintained even after a power outage.

6. TROUBLESHOOTING

- **Device not pairing:** Ensure your Wi-Fi network is 2.4 GHz. The transformer does not support 5.0 GHz networks. Check that the indicator light is flashing during pairing mode.
- **Lights not turning on:** Verify all wiring connections for correct polarity and ensure the transformer is receiving power. Check for any overload or short circuit conditions that might have triggered the circuit breaker.
- **Remote control not working:** Check the remote's battery. Ensure you are within the 100-foot operating range.
- **App notifications for manual use:** If activated, the app will notify you when the device has been manually operated outside of app control.
