ASSEMBLY INSTRUCTIONS

The VONZOY Patio Swivel Chairs are designed for easy assembly, with approximately 80% of the chair pre-assembled. The process typically takes about 30 minutes per chair.

Required Tools:

- Included Allen wrench

Assembly Steps:

1. **Step 1: Prepare the Swivel Base.** Place the swivel base on a flat, stable surface.
2. **Step 2: Attach the Chair Back.** Align the pre-assembled chair back with the designated attachment points on the seat frame. Secure using the provided hardware.
3. **Step 3: Attach the Seat.** Connect the seat frame to the swivel mechanism on the base. Ensure all bolts are finger-tightened initially.
4. **Step 4: Final Tightening.** Once all components are aligned, fully tighten all bolts with the Allen wrench. Do not overtighten.

CARE AND MAINTENANCE

To ensure the longevity and appearance of your VONZOY Patio Swivel Chairs, follow these simple care instructions:

- **Cleaning:** Wipe clean with a damp cloth. For stubborn dirt, use a mild soap solution and rinse thoroughly. Avoid harsh chemicals or abrasive cleaners, as these can damage the fabric and frame finish.
- **Fabric Care:** The Textilene mesh fabric is quick-drying, well-ventilated, and resistant to weather, UV rays, and moisture. Regular cleaning will help maintain its appearance and prevent mildew.
- **Frame Care:** The heavy-duty E-coating on the frame resists rust and corrosion. Periodically inspect the frame for any signs of wear or damage.
- **Storage:** During prolonged periods of non-use or harsh weather conditions, it is recommended to cover the chairs or store them indoors to protect them from the elements.

TROUBLESHOOTING

If you encounter any issues with your chairs, please refer to the following common troubleshooting tips:

- **Chair feels unstable:** Ensure all assembly bolts are securely tightened. Check that the chair is

placed on a flat, level surface.

- **Swivel/Rocking mechanism is stiff or noisy:** Apply a silicone-based lubricant to the moving parts of the swivel mechanism. Ensure no debris is obstructing the movement.
- **Fabric appears loose:** Over time, fabric may stretch slightly. If it becomes excessively loose, inspect the attachment points for any damage or dislodged components.
- **Rust spots appear:** While the frame is rust-resistant, prolonged exposure to moisture or damage to the E-coating can lead to rust. Clean any rust spots immediately with a rust remover and apply a protective coating if necessary.

For issues not covered here, please contact VONZOY customer support.
