INSTALLATION GUIDE

Before installation, ensure the vehicle's power is disconnected. The installation size of this single din car stereo is 188mm (L) x 55mm (W) x 50mm (H). Please compare these dimensions with your car's center console opening to ensure compatibility.

1. **Preparation:** Disconnect the car battery's negative terminal. Remove the existing car stereo from the dashboard.
2. **Wiring:** Connect the provided power cable and speaker cable to the corresponding ports on the new stereo and your vehicle's wiring harness. Refer to the wiring diagram in the user manual for correct connections. Ensure all connections are secure to prevent short circuits.

3. **Mounting:** Slide the new stereo into the dashboard opening. Secure it using the provided mounting brackets or screws.
4. **Final Check:** Reconnect the car battery. Turn on the ignition and test the stereo's functions (power, audio, radio, Bluetooth).

Installation Effect

If you encounter any difficulties during installation, please contact customer support for online assistance.

OPERATING INSTRUCTIONS

Basic Operation

- **Power On/Off:** Press the **MODE** button (or power button) to turn the unit on or off.
- **Volume Control:** Rotate the large central knob to adjust the volume.
- **Mode Selection:** Press the **MODE** button to cycle through available modes (FM, Bluetooth, USB, TF, AUX).

- **Mute:** Press the **MUTE** button to mute or unmute the audio.
- **Clock Display:** Press the **CLK** button to display the time.
- **Button Lights:** The unit features 7-color button lights. The color typically changes automatically, but specific models may allow manual selection via settings.

FM Radio Operation

- **Switch to FM Mode:** Press the **MODE** button until "FM" is displayed.
- **Auto Scan:** Long press the **BAND** button to automatically scan and save available FM stations (87.50-108.0 MHz). The unit can store up to 18 preset stations.
- **Manual Tuning:** Use the ◀◀ (previous track) and ▶▶ (next track) buttons to manually tune to frequencies.
- **Preset Selection:** Use the numbered buttons (1-6) to select saved preset stations.

FM Radio

You can listen to real-time traffic, news broadcasts, weather reports, etc so that tedious driving is not so monotonous.

- Real-time Traffic
- News Broadcasts
- Weather Forecasts

Bluetooth handsfree

Wireless connection aside data lines troubles, good compatibility, Bluetooth hands-free calling, voice navigation, mobile phone singing.

BT 5.0

Image: Illustrates the FM Radio function for real-time traffic, news, and weather, and the Bluetooth hands-free calling feature with BT 5.0 for wireless connection and voice navigation.

Bluetooth 5.0 Connectivity

- **Pairing:**

- a. Ensure the stereo is in Bluetooth mode (display shows "BT").
- b. On your mobile device, enable Bluetooth and search for available devices.
- c. Select "SIXWIN P1" (or similar name) from the list to pair. No password is typically required.

- **Hands-Free Calling:**

- a. When a call comes in, press the **BAND** button (answer call) to accept.
- b. Press the **MODE** button (hang up) to end a call.

- **Bluetooth Audio Streaming:** Once paired, you can play audio from your mobile device through the car stereo. Use the stereo's controls or your phone to manage playback (play/pause, next/previous track).

Media Playback (USB/TF Card/AUX)

- **USB Playback:** Insert a USB flash drive into the USB port. The stereo will automatically switch to USB mode and begin playing compatible audio files. One USB port supports data reading, and the other supports fast charging (5V/1A).
- **TF Card Playback:** Insert a TF (microSD) card into the TF card slot. The stereo will automatically switch to TF mode and play compatible audio files.
- **AUX Input:** Connect an external audio device (e.g., MP3 player, smartphone) to the 3.5mm AUX-in port using an audio cable. Switch the stereo to AUX mode to play audio from the connected device.
- **Playback Controls:** Use the ◀◀ (previous track), ▶▶ (next track), and ▶▶|| (play/pause) buttons to control media playback.

U Disk Reading & TF Card Playing

Support U disk reading, TF card playback, USB charging

Support voltage: (5V/1A)

MAINTENANCE

To ensure the longevity and optimal performance of your SIXWIN Single Din Car Stereo P1, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe the unit's surface. For stubborn dirt, slightly dampen the cloth with water. Avoid using harsh chemicals, solvents, or abrasive cleaners, as they can damage the finish.
- **Dust Removal:** Periodically use compressed air to clear dust from the buttons, ports, and ventilation areas to prevent accumulation that could affect performance.

- **Temperature:** Avoid exposing the unit to extreme temperatures, direct sunlight for prolonged periods, or high humidity, which can damage internal components.
- **Connections:** Periodically check all wiring connections to ensure they are secure and free from corrosion.

TROUBLESHOOTING

If you experience issues with your SIXWIN Single Din Car Stereo P1, refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution
No Power	Loose power connection; Blown fuse; Vehicle battery issue.	Check power cable connections. Inspect and replace any blown fuses. Ensure vehicle battery is charged.
No Sound	Volume too low; Mute activated; Loose speaker wires; Incorrect audio source.	Increase volume. Deactivate mute. Check speaker wire connections. Ensure correct audio source (FM, BT, USB, AUX) is selected.
Bluetooth Not Connecting	Bluetooth not enabled on device; Stereo not in BT mode; Device too far; Interference.	Ensure Bluetooth is on and stereo is in BT mode. Move device closer. Restart both devices. Clear previous pairings and re-pair.
USB/TF Card Not Reading	Incompatible file format; Corrupted media; Improperly inserted card/drive.	Ensure files are compatible (MP3, WMA, WAV, FLAC). Reinsert the USB drive/TF card. Try a different USB drive/TF card.
Poor FM Reception	Antenna not connected; Weak signal area; Damaged antenna.	Check antenna connection. Try auto-scanning for stations again. Consider a stronger antenna if in a weak signal area.

If the problem persists after trying these solutions, please contact customer support.
