MAINTENANCE

To ensure the longevity and hygiene of your PEQUITI Cat Tree, follow these maintenance guidelines:

- **Cleaning:** The cat tree is designed for dry cleaning only. Use a vacuum cleaner to remove loose fur and debris. For spot cleaning, use a damp cloth with mild soap and allow to air dry completely. Avoid excessive moisture.
- **Inspection:** Regularly inspect all posts, platforms, and connections for any signs of wear or loosening. Tighten screws as needed to maintain stability.
- **Sisal Posts:** Over time, the sisal rope may fray. This is normal wear from scratching. If posts become severely damaged, contact customer support for potential replacement parts.
