

SBS TEBB5000MAG1CW

SBS PowerBank 5K MagSafe User Manual

Model: TEBB5000MAG1CW | Brand: SBS

INTRODUCTION

Thank you for choosing the SBS PowerBank 5K MagSafe. This portable charger is designed to provide convenient and reliable power for your mobile devices, featuring both wireless and wired charging capabilities. Please read this manual carefully before using the product to ensure safe and optimal performance. Keep this manual for future reference.

SAFETY INFORMATION

For detailed safety guidelines, please refer to the official safety document provided by SBS. You can access the PDF document via this link: [Safety Information \(PDF\)](#).

General Safety Precautions:

- Do not expose the power bank to extreme temperatures, direct sunlight, or fire.
- Avoid dropping, impacting, or disassembling the device.
- Keep away from water and other liquids.
- Do not use if the power bank is damaged or swollen.
- Keep out of reach of children.

PACKAGE CONTENTS

The package includes the following items:

- SBS PowerBank 5K MagSafe (Model TEBB5000MAG1CW)
- Charging Cable (USB-C)
- Instruction Manual

PRODUCT OVERVIEW

The SBS PowerBank 5K MagSafe is a compact and versatile portable charger with a 5000mAh capacity. It features both wireless and USB-C charging options, an Intelligent Charge (IC) system for device protection, and LED indicators for charge status.

Image: Overview of the SBS PowerBank 5K MagSafe, highlighting its LED indicators, USB-C port, and ON/OFF button. It also shows the wireless charging output of 5W.

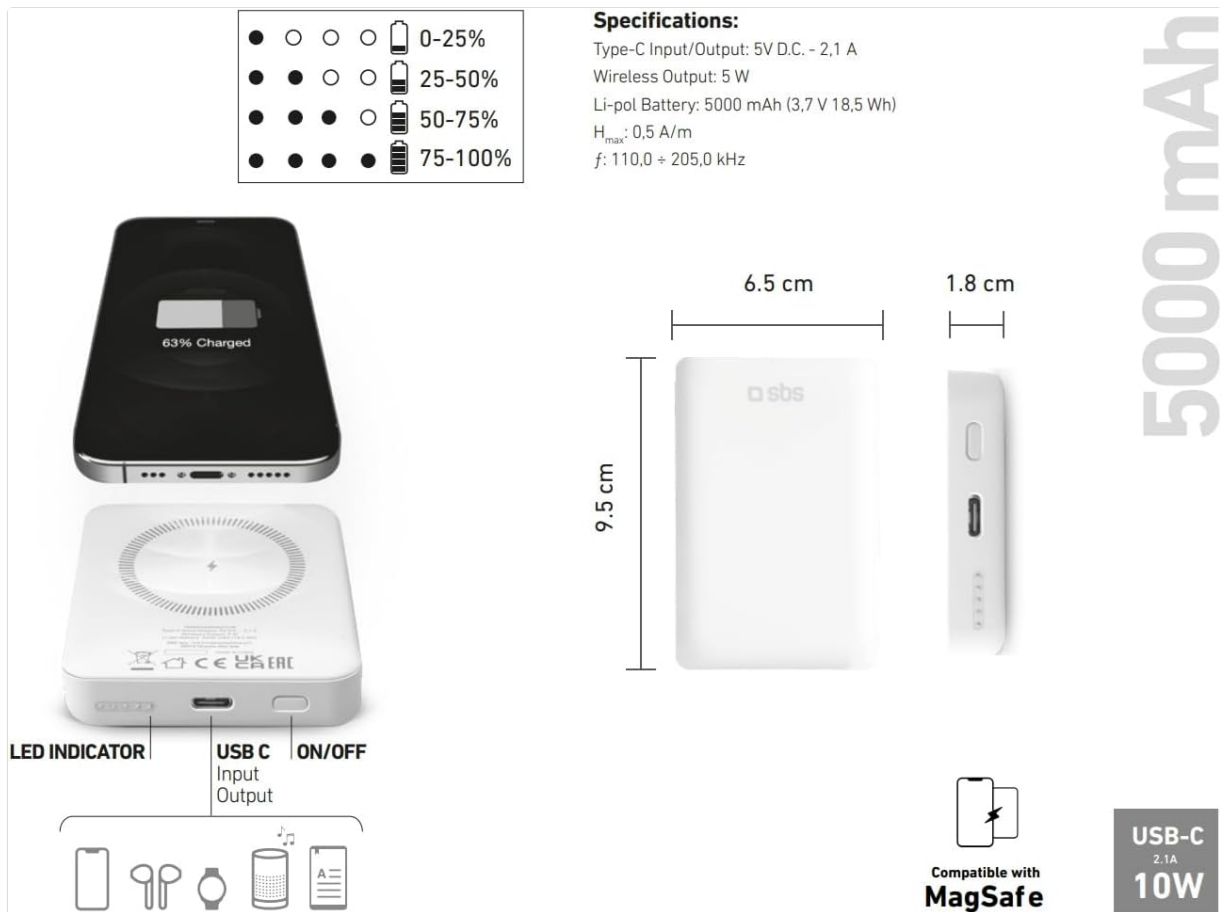

Image: A detailed diagram of the power bank, showing its dimensions (9.5 cm length, 6.5 cm width, 1.8 cm thickness), LED indicator guide for charge levels, and key specifications like USB-C input/output and wireless output.

SETUP

The SBS PowerBank 5K MagSafe is designed for immediate use. It may have some residual charge out of the box. For optimal performance, it is recommended to fully charge the power bank before its first use.

OPERATING INSTRUCTIONS

1. Charging the Power Bank

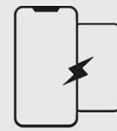

To charge the power bank, connect the provided USB-C cable to the power bank's USB-C port and the other end to a suitable USB power adapter (not included). The LED indicators will illuminate to show the charging progress.

2. Charging Devices Wirelessly (MagSafe Compatible)

The power bank supports 5W wireless charging and is compatible with MagSafe technology. Simply align and attach the power bank magnetically to the back of your MagSafe-compatible smartphone or device. Charging will begin automatically. Ensure your device is compatible with MagSafe or has a MagSafe-compatible case for secure magnetic attachment.

3. Charging Devices via USB-C

To charge a device using a cable, connect your device's charging cable to the power bank's USB-C port. The power bank provides 10W output via USB-C. The Intelligent Charge (IC) system will automatically detect and deliver the optimal charging power for your connected device, preventing overheating and short circuits.

Ricarica anche tramite cavo

LED INDICATORS

The power bank is equipped with LED lights to indicate the remaining charge level:

- **4 LEDs illuminated:** 75-100% charge remaining
- **3 LEDs illuminated:** 50-75% charge remaining
- **2 LEDs illuminated:** 25-50% charge remaining
- **1 LED illuminated:** 0-25% charge remaining (recharge soon)

During charging, the LEDs will blink to indicate progress and remain solid when fully charged.

MAINTENANCE

- Clean the power bank with a dry, soft cloth. Do not use harsh chemicals or abrasive materials.
- Store the power bank in a cool, dry place away from direct sunlight and extreme temperatures.
- If not used for extended periods, charge the power bank at least once every three months to maintain battery health.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Power bank not charging	Charging cable is faulty or not properly connected. Power adapter is not working.	Check cable connections. Try a different USB-C cable or power adapter.
Device not charging from power bank	Power bank is off or depleted. Device is not compatible with wireless charging or MagSafe. Cable connection is loose.	Press the ON/OFF button. Recharge the power bank. Ensure device is compatible and properly aligned for wireless charging. Check cable connections.
Slow charging	Device is not optimized for fast charging. Wireless charging is generally slower than wired.	Ensure your device supports fast charging. For faster charging, use the USB-C wired connection.
Power bank gets hot during use	Normal operation, especially during fast charging. Overheating due to poor ventilation or faulty unit.	Minor warmth is normal. If it becomes excessively hot, discontinue use and contact support. Ensure proper ventilation.
