UOMEUR Queen Size Bed Frame Instruction Manual

Model: TB4004-18C2

Introduction

This manual provides detailed instructions for the assembly, operation, and maintenance of your UOMEUR Queen Size Bed Frame. This bed frame features a sturdy metal construction, a headboard with integrated smart outlets and USB/Type-C charging ports, and a galaxy holographic projection light system. Please read these instructions carefully before beginning assembly or operation to ensure safe and correct use of your product.

1. Setup and Assembly

The UOMEUR Queen Size Bed Frame is designed for easy assembly. All necessary parts, tools, and clear instructions are included. Please follow the steps below for proper setup.

1.1 Unpacking and Preparation

- Unpack all components and lay them out on a clean, soft surface to prevent scratches.
- Verify that all parts listed in the included parts list are present.
- Ensure you have enough space for assembly.

1.2 Assembly Steps

1. Follow the numbered steps in the provided instruction booklet.
2. Connect the main frame components using the provided hardware. Ensure all connections are secure.
3. Attach the headboard to the main frame.
4. Install the metal slats across the frame. Ensure they are evenly spaced and securely fastened to provide optimal mattress support.
5. **Important:** Tighten all screws firmly to prevent the bed from shaking or making noise. An electric drill can be used for faster and more secure tightening if available.
6. For the integrated charging station, carefully connect the wiring as shown in the instructions and secure the outlet panel into the headboard shelf.

2. Operating Instructions

Your UOMEUR bed frame includes integrated features for convenience and ambiance.

2.1 Smart Charging Station

The headboard is equipped with a smart charging station for your electronic devices.

- **Power Connection:** Ensure the 6.6ft power cord from the charging station is securely plugged into a wall outlet.
- **AC Outlets:** Use the 1 standard AC outlet (125V/5A) to power devices requiring a standard plug.
- **USB Ports:** Utilize the 1 USB port (5V/2A) and 1 Type-C port (5V/3A) for charging smartphones, tablets, and other compatible USB-powered devices.
- Place your devices on the headboard shelf for convenient charging and access.

3. Maintenance

Regular maintenance helps ensure the longevity and performance of your bed frame.

- **Cleaning:** Wipe the metal frame and headboard shelf with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that could damage the finish.
- **Check Connections:** Periodically check all screws and bolts to ensure they remain tight. Re-tighten if necessary to maintain stability and prevent noise.
- **Electrical Components:** Ensure the power cord for the charging station is not pinched or damaged. Do not attempt

to repair electrical components yourself; contact qualified personnel if issues arise.

- **Projector Lens:** Gently clean the projector lens with a soft, dry cloth to maintain clear projection quality.

4. Troubleshooting

Refer to this section for solutions to common issues.

4.1 Bed Frame Squeaks or is Unstable

- **Loose Connections:** Re-check all bolts and screws. Tighten any that are loose. Ensure all parts are correctly aligned and fully inserted.
- **Uneven Surface:** Ensure the bed frame is placed on a flat, level surface. Adjust the anti-slip gaskets on the bed legs if necessary.
- **Incorrect Assembly:** Review the assembly instructions to confirm all steps were followed correctly. Disassemble and reassemble if there's any doubt about proper installation.

4.2 Charging Station Not Working

- **Power Supply:** Verify that the bed frame's power cord is securely plugged into a functional wall outlet. Test the outlet with another device.
- **Cable Connection:** Ensure the internal wiring for the charging station is properly connected within the headboard.
- **Device Compatibility:** Confirm that your device is compatible with the USB/Type-C output specifications (5V/2A for USB, 5V/3A for Type-C).
- **Overload:** Avoid plugging in too many high-power devices simultaneously, which could trip a circuit or protective mechanism.

4.3 Projector Lights Not Functioning

- **Power Check:** Ensure the bed frame's power cord is connected and the charging station is receiving power. The projector is powered through this connection.
- **Remote Control:** Check the batteries in the remote control. Ensure there are no obstructions between the remote and the projector.
- **Projector Buttons:** Try operating the projector directly using its onboard buttons to rule out a remote control issue.
