2. WHAT'S IN THE BOX

Please verify that all items are present upon unboxing:

- Smart watch (1 unit)
- Pink watch band (1 unit)
- Magnetic charger (1 unit)
- User manual (1 unit)

Image 2.1: The Ddidbi P66D2 Smart Watch, magnetic charger, and user manual.

3. INITIAL SETUP

3.1 Charging the Device

Before first use, fully charge your Ddidbi P66D2 Smart Watch. Connect the magnetic charger to the charging points on the back of the watch and plug the USB end into a power source. A full charge typically takes 1.5 to 2 hours.

Image 3.1: Magnetic charging process and battery status.

3.2 Pairing with Your Smartphone

To unlock the full functionality of your smart watch, pair it with your smartphone via the dedicated application. Follow these general steps:

1. Download the companion app from your smartphone's app store (e.g., Google Play Store or Apple App Store).
2. Ensure Bluetooth is enabled on your smartphone.
3. Open the app and follow the on-screen instructions to search for and connect to your Ddidbi P66D2 Smart Watch.
4. Grant necessary permissions to the app for features like notifications and health data synchronization.

4. OPERATING YOUR SMART WATCH

4.1 Touch Screen Navigation

The 1.85-inch TFT-color touch screen allows for intuitive navigation. Swipe left, right, up, or down to access different menus and features. Tap to select options or confirm actions.

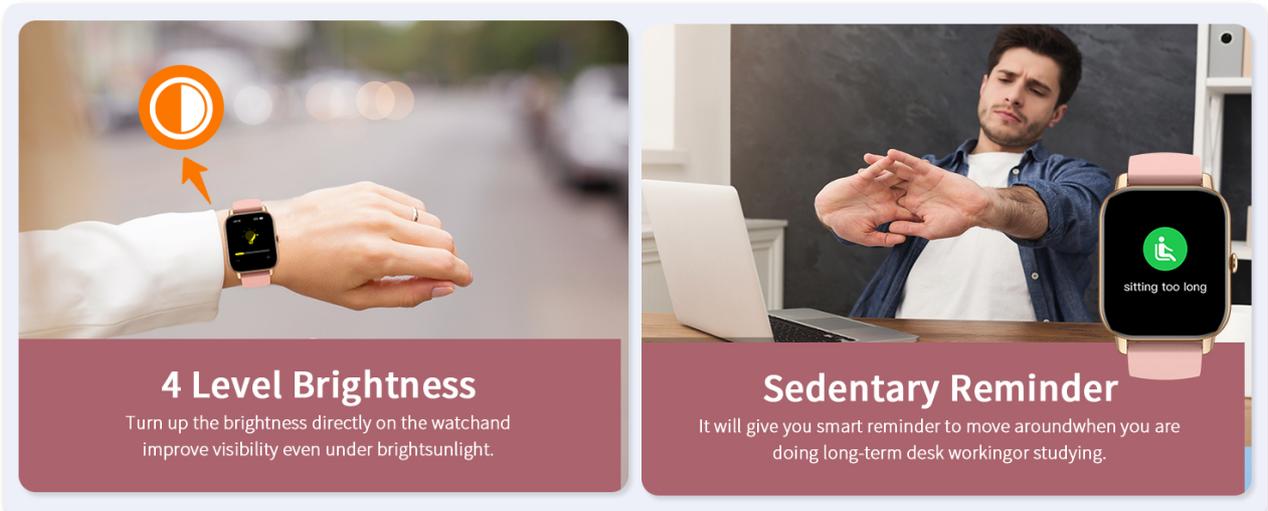

Image 4.1: The watch's large touch screen and customizable watch faces.

4.2 Call Functionality

Once paired with your smartphone, you can make and receive calls directly from your watch. The watch features a built-in speaker and microphone. You can dial numbers, answer incoming calls, and view your call history on the device.

Image 4.2: Call interface on the smart watch.

4.3 Notifications

Receive notifications for calls, text messages, and alerts from various social media applications (e.g., Facebook, WhatsApp, Instagram) directly on your watch. Ensure notification permissions are enabled in the companion app.

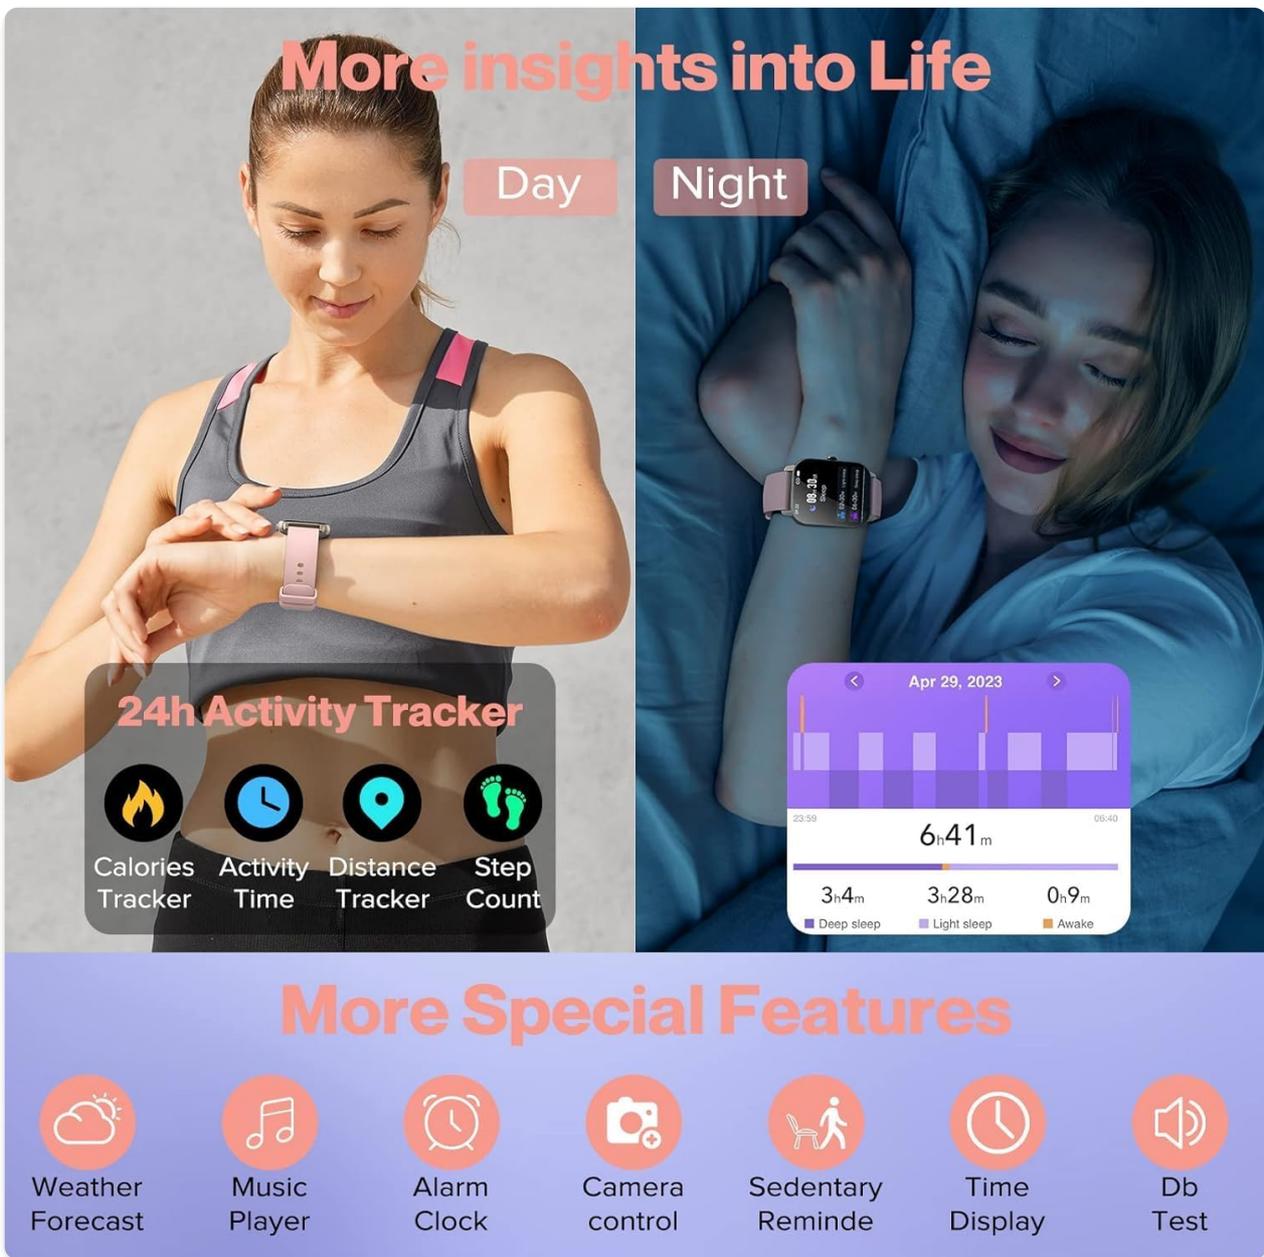

Image 4.3: Smart watch displaying message notifications.

4.4 Customizing Watch Faces

Personalize your watch by choosing from a variety of pre-installed watch faces or by uploading your favorite photos through the companion app to create custom dials.

4.5 Music and Camera Control

Control music playback on your smartphone and remotely trigger your phone's camera directly from your smart watch.

IP68 Water Resistance

With an IP68 water resistance rating, you can be sure that your device will withstand rain and even allow you to wash your hands while wearing it without the need to remove it.

6. MAINTENANCE

6.1 Water Resistance

The Ddidbi P66D2 Smart Watch has an IP68 waterproof rating, meaning it is resistant to dust and can withstand immersion in water up to 1.5 meters for 30 minutes. It is suitable for daily use, including hand washing and exposure to rain. However, it is not recommended for use in hot water, saunas, or seawater, as these conditions may compromise the seal.

Image 6.1: IP68 water resistance demonstration.

6.2 Cleaning and Care

To maintain your smart watch, regularly wipe the screen and strap with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials. Ensure the charging contacts are clean and dry before charging.

7. BATTERY INFORMATION

The Ddidbi P66D2 Smart Watch is equipped with a Lithium Polymer battery. A full charge takes approximately 1.5 to 2 hours and provides up to 7 days of typical use. The standby time can extend up to 30 days.

9. TROUBLESHOOTING

If you encounter issues with your Ddidbi P66D2 Smart Watch, please refer to the following common solutions:

- **Watch not turning on:** Ensure the watch is fully charged. Connect it to the magnetic charger and check for the charging indicator.
- **Cannot pair with smartphone:**
 - Make sure Bluetooth is enabled on your phone.
 - Ensure the watch is within Bluetooth range of your phone.
 - Restart both your watch and your phone.
 - Check if the companion app is installed and has necessary permissions.
- **Notifications not appearing:**
 - Verify that notification permissions are granted to the app on your phone.
 - Ensure the watch is connected via Bluetooth.
 - Check the app's settings to confirm which notifications are enabled.
- **Inaccurate health data:** Ensure the watch is worn snugly on your wrist, not too tight or too loose. Clean the sensor regularly.
- **Short battery life:** Reduce screen brightness, disable unnecessary notifications, and limit continuous heart rate monitoring if not needed.

10. WARRANTY AND SUPPORT

For warranty information and customer support, please refer to the documentation included with your purchase or contact the manufacturer directly. Keep your proof of purchase for warranty claims.
