

**SwitchBot W4600000**

# SwitchBot Multi-Use Smart Universal Remote Control

## USER MANUAL

### Introduction

---

This manual provides detailed instructions for the setup, operation, and maintenance of your SwitchBot Multi-Use Smart Universal Remote Control. This device is designed to consolidate control of various infrared (IR) appliances, Bluetooth devices, and SwitchBot ecosystem products, simplifying your home control experience. A SwitchBot Hub is required for full functionality, including scene automation and certain setup procedures.

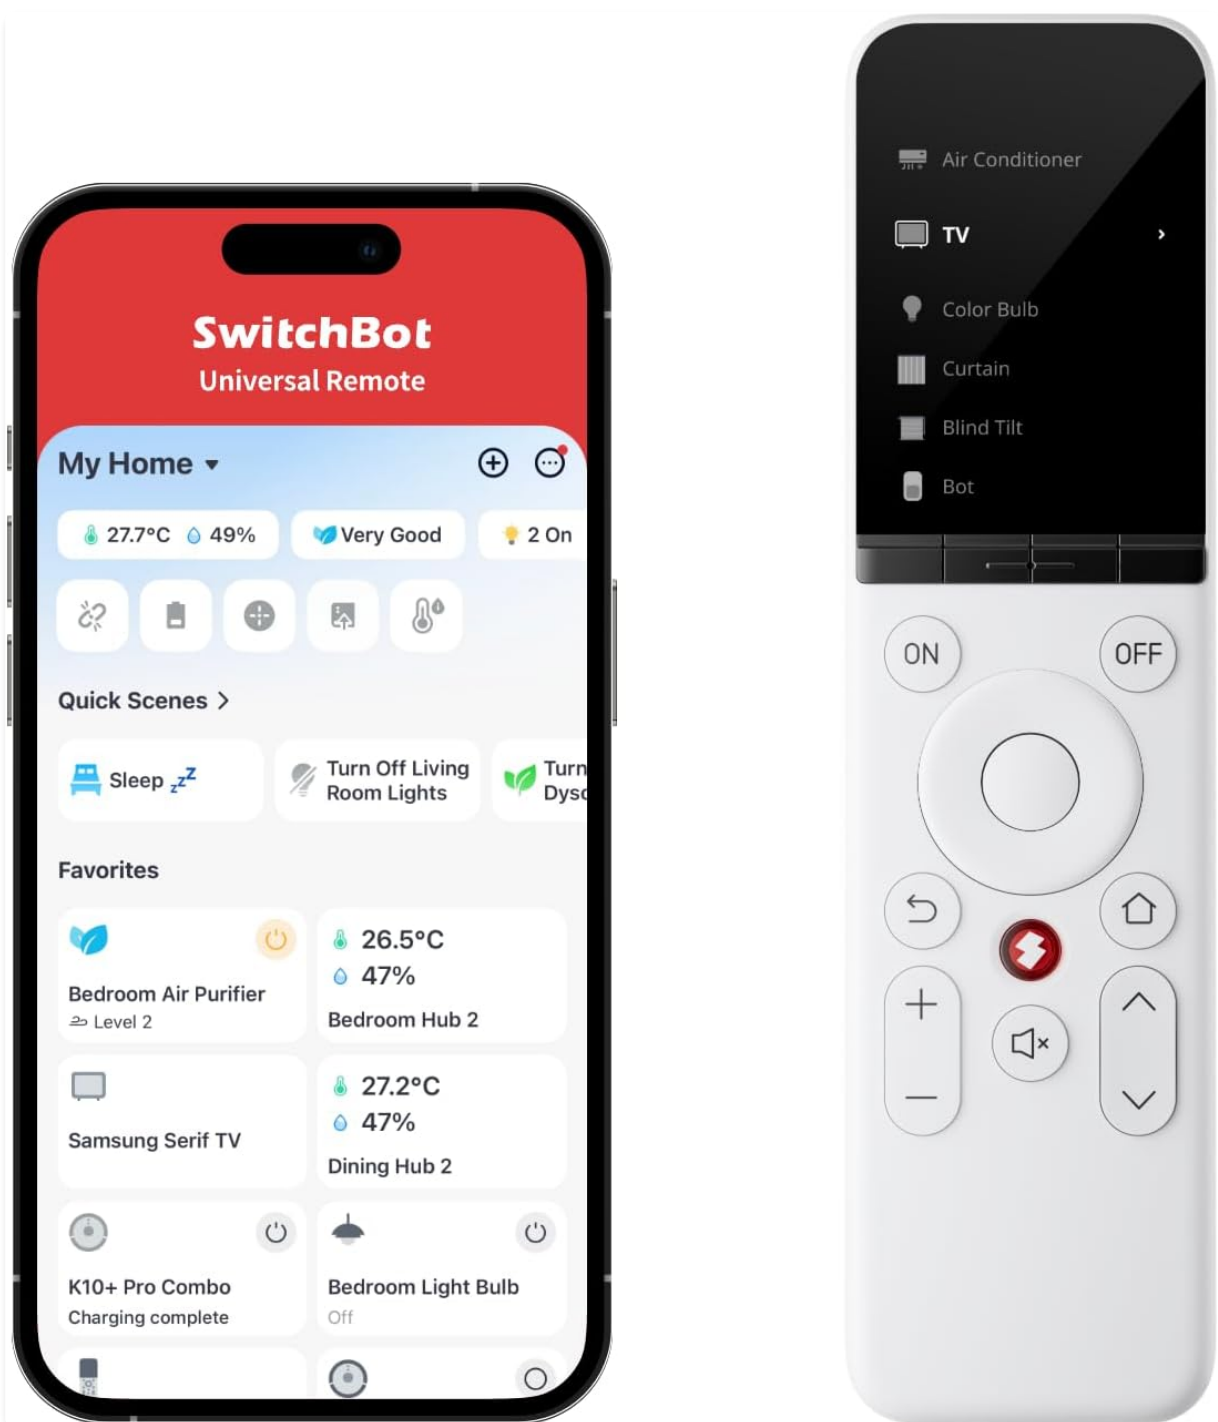

Image: The SwitchBot Universal Remote Control alongside its mobile application interface, demonstrating its integrated control capabilities.

## Product Features

- **Comprehensive Device Control:** Control a wide range of Infrared appliances such as air conditioners, TVs, lights, fans, and projectors. It also supports controlling Fire TV, Apple TV, and various SwitchBot Bluetooth devices. The remote can manage up to 10 IR devices and 15 Bluetooth devices, totaling 25 devices.
- **Extensive IR Code Database:** Easily add home appliances with access to a database of nearly 100,000 supported remote control models, ensuring compatibility with most common devices.
- **User-Friendly Design:** Features 19 simple, spacious, and easy-to-press buttons. A touch wheel allows for intuitive device selection and adjustment. The compact design ensures comfortable single-hand operation.

- **Offline Operation:** Once initially set up, the remote can control all configured devices without an active internet connection. Note that scene automation requires a network connection via a SwitchBot Hub.
- **Long Battery Life & Durability:** Equipped with a 2000mAh battery, providing up to 150 days of use on a single charge (based on average screen use of 5 minutes per day). Buttons are designed for a lifespan of up to 100,000 presses.
- **Find My Remote Function:** Utilize the companion app to make the remote emit a sound, assisting in locating it if misplaced.
- **Matter for Apple Home Compatibility:** When paired with a SwitchBot Hub 2, customize up to 4 buttons to control devices and scenes within Apple Home.

# The Only Remote You'll Need

## Control IR appliances, Apple TV, Fire TV, and SwitchBot devices.

Image: The SwitchBot Universal Remote demonstrating its ability to control various IR appliances and SwitchBot devices within a living space.

# Huge Infrared Code Database

Constantly updated to help make devices smarter.

Models Available

**83,934**

Users

**1,000,000**

Updated

**Every 6 Months**

Image: Visual representation of the extensive infrared code database, highlighting the number of models available and user base.

# Designed for Ease of Use

All-in-one, with a concise keyboard design and large screen.

## 2.4-inch LCD Screen

Devices and functions are clearly visible at a glance.

## Big Buttons

Concise, spacious, easy to press, and can be operated easily without making mistakes.

## Touch Wheel

Select a device to use simply by sliding.

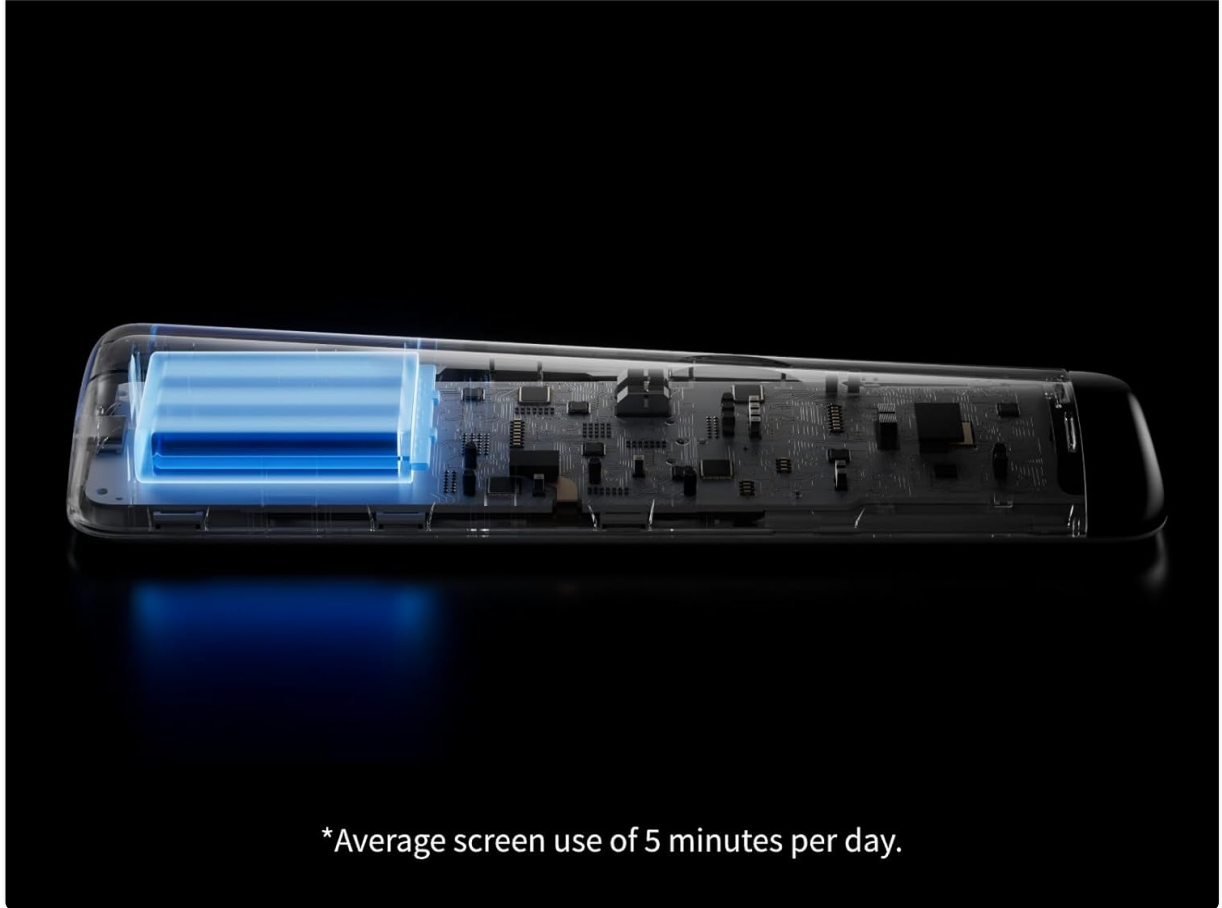

## Compact

Everything is concentrated within reach.

Image: An illustration detailing the remote's design elements, including the 2.4-inch LCD screen, touch wheel, large buttons, and compact form factor.

# 150 Days of Battery Life\*

\*Average screen use of 5 minutes per day.

Image: A transparent view of the remote, highlighting its internal battery and emphasizing its long battery life.

## Package Contents

Upon unboxing, please ensure all the following items are present:

- SwitchBot Multi-Use Smart Universal Remote Control
- USB Type-C Charging Cable
- Reset Tool
- User Manual (this document)

## Setup

Initial setup of the SwitchBot Universal Remote requires the SwitchBot app and a SwitchBot Hub (sold separately). Follow the steps below for a seamless setup process.

1. **Download the SwitchBot App:** Search for "SwitchBot" in your device's app store (iOS or Android) and download the official application.
2. **Power On the Remote:** Ensure your Universal Remote is charged. Connect it to a power source using the provided USB Type-C cable if needed.

3. **Add Remote to App:** Open the SwitchBot app, navigate to the "Add Device" section, and select the Universal Remote. Follow the on-screen prompts to pair the remote with your SwitchBot account and Hub.
4. **Adding IR Devices:**
  - **Smart Matching:** The app will attempt to automatically identify your IR appliance (e.g., TV, AC) from its extensive database.
  - **Manual Selection:** If smart matching fails, you can manually select the brand and model of your appliance.
  - **Learn Buttons:** For unsupported devices or specific functions, use the "Learn Button" feature. Point your original remote at the Universal Remote and press the desired button to teach the function.
5. **Adding Bluetooth Devices:** Within the SwitchBot app, you can add SwitchBot Bluetooth devices (e.g., SwitchBot Bot, Curtain, Blind Tilt) directly to the Universal Remote's control interface.
6. **Synchronize with Hub:** If you have existing devices configured with your SwitchBot Hub, you can import them to the Universal Remote via the app for centralized control.

Your browser does not support the video tag.

Video: A demonstration on how to add the SwitchBot Universal Remote to the SwitchBot Hub 2, illustrating the initial setup process.

## Operating Instructions

---

Once configured, operating the SwitchBot Universal Remote is intuitive.

1. **Selecting a Device:** Use the touch wheel on the remote's screen to scroll through and select the device you wish to control (e.g., TV, AC, Lights).
2. **Controlling Functions:** Once a device is selected, the screen will display relevant controls. Use the physical buttons for common actions like power, volume, and channel, or interact with the on-screen controls for more specific functions.
3. **Using Smart Scenes:** If you have created smart scenes in the SwitchBot app (e.g., "Arrive Mode," "Party Mode"), you can trigger these directly from the remote. Scenes allow multiple devices to perform actions simultaneously with a single command.
4. **Find My Remote:** If you misplace your remote, open the SwitchBot app, navigate to the Universal Remote settings, and activate the "Find My Remote" function. The remote will emit an audible sound to help you locate it.

Your browser does not support the video tag.

Video: A demonstration of the SwitchBot Universal Remote in action, showcasing its various control capabilities and user interface.

# Use to Start Smart Scenes

Start multiple devices with just one click.

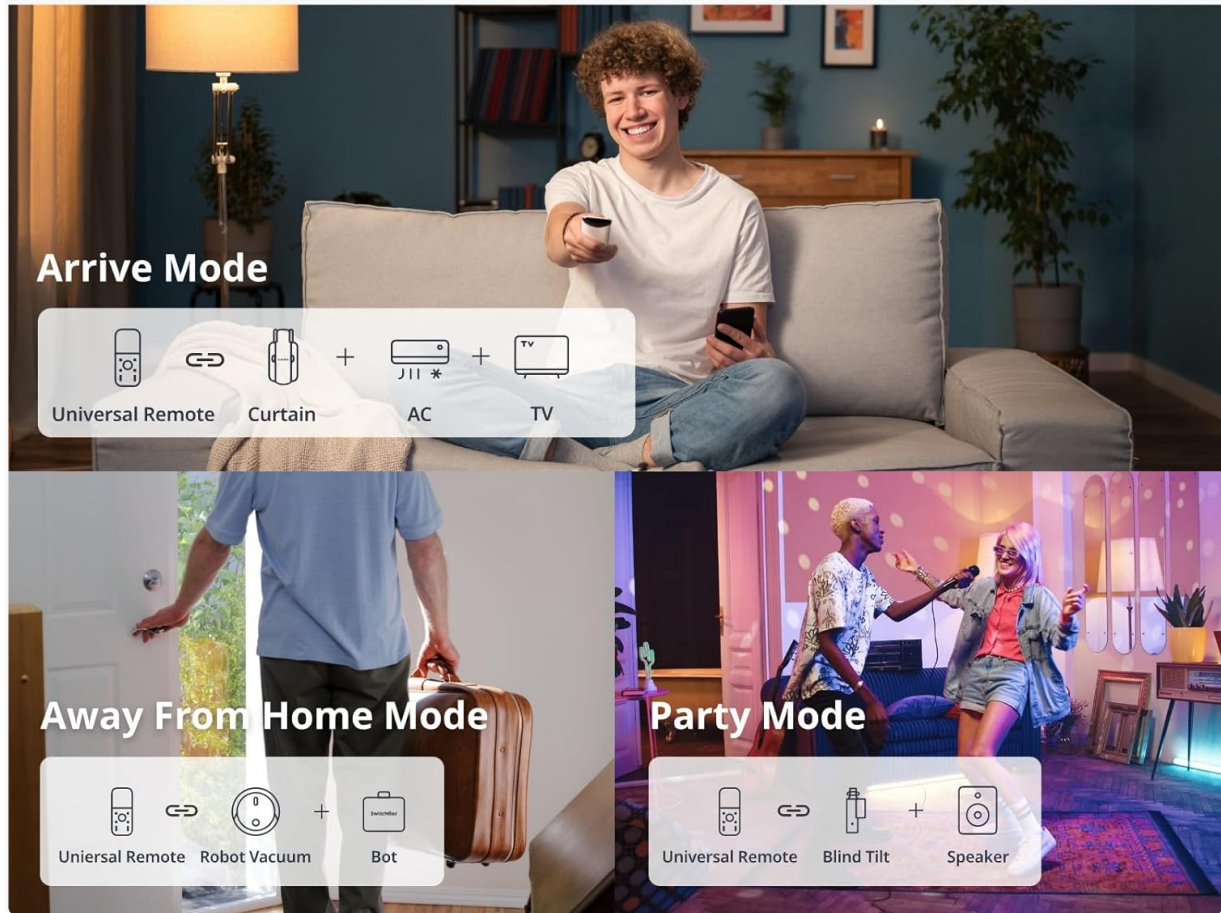

Image: Illustrations depicting various smart scenes like 'Arrive Mode', 'Away From Home Mode', and 'Party Mode' that can be initiated with the remote.

# Locate Your Remote When Lost

Universal Remote can emit a sound when lost to help you find it.

Image: The remote partially concealed under a sofa cushion, indicating the 'Find My Remote' feature which helps locate the device by emitting a sound.

## Maintenance

- **Charging:** Recharge the remote using the provided USB Type-C cable when the battery indicator is low. A full charge provides approximately 150 days of standby time.
- **Cleaning:** Use a soft, dry cloth to clean the remote's surface. Avoid using abrasive cleaners or solvents that may damage the finish or screen.
- **Storage:** Store the remote in a cool, dry place away from direct sunlight and extreme temperatures when not in use for extended periods.

## Troubleshooting

| Problem | Possible Cause | Solution |
|---------|----------------|----------|
|---------|----------------|----------|

| Problem                           | Possible Cause                                                  | Solution                                                                                                    |
|-----------------------------------|-----------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------|
| Remote not responding.            | Low battery; device not selected; remote out of range (for IR). | Charge the remote; select the correct device on screen; ensure line of sight for IR devices.                |
| Cannot add a new IR device.       | Device not in database; learning process failed.                | Try manual selection; use the 'Learn Button' feature carefully; ensure original remote has fresh batteries. |
| Scenes not activating.            | No internet connection for Hub; scene misconfiguration.         | Ensure SwitchBot Hub has a stable internet connection; verify scene settings in the SwitchBot app.          |
| Remote cannot be found using app. | Remote is off or out of Bluetooth range of your phone.          | Ensure remote is powered on; move closer to the remote with your phone.                                     |

## Specifications
